The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, INDIA,
The 29th April 1878.

JOHN ELIOT,
Offg. Meteorological Reporter to the Government of India.

Reports of Fluctuation of Traffic on the East Indian Railway for five weeks ending 30th March 1878.

EAST INDIAN RAILWAY TRAFFIC MANAGER'S OFFICE, JAMALPORE, THE 16TH APRIL 1878.

Remarks on Traffic of East Indian Railway for five weeks ending 30th March 1878.

THE approximate figures for the period are as follow :—

	Coaching.		Goods		Total.
	Nos.	Rs.	Mds.	Rs.	Rs.
1878	772,782	11,66,040	74,06,802	27,05,802	38,71,842
1877	760,770	10,85,046	67,91,062	28,11,096	38,96,142
Increase	12,012	80,994	6,17,740	....	.....
Decrease	.....	.....	.....	1,05,794	24,300

In merchandise traffic, it will be seen that the *weight carried* has increased over 9 per cent., while the earning has fallen nearly 4 per cent. ; but as the period compared with was very exceptional, being nearly *seven lakhs of rupees* above the corresponding five weeks of 1876, this slight falling off need not be taken seriously

The main changes are in—

Increases.

Coal.	Iron.	Saltpetre.	Timber.
Hides.	Piece-goods and Twist.	Seeds.	Tobacco.

Decreases.

Commissariat beer and other Government stores,	Betel-nuts,	Gunny,	Opium,
	Cotton,	Jaggree,	Sugar,

while "grain" must be treated separately—

Increases.

Coal—Upward	Mds.	75,159	Rs. 33,685
Downward	,,	5,87,933	,, 74,063
Total ...		6,63,092	1,07,748

The increase in upward coal has mainly been in the lead of coal to Gazeeabad for the Sindh, Punjab, and Delhi and Punjab Northern State Railway.

In downward coal the increase is very large, equal to over 40 per cent., the weight delivered daily in this direction having risen from something under 1,500 tons to about 2,100 tons.

Hides ... ... Mds. 44,622 Rs. 47,526

This is also a very large increase, and the traffic has kept up much better than I expected it would when I wrote my last report.

Large shipments have continued, and stocks quite unsuspected have come into the market.

Iron ... ... Mds. 16,266 ... Rs. 16,458

This is an increase in the ordinary trade from Howrah to the manufacturing stations up-country.

Piece-goods	Mds.	19,258	Rs. 33,824
Cotton twist	,,	2,291	,, 1,380

A slight recovery after two bad months

Saltpetre ... ... ,, 23,010 ,, 3,492

It will be seen from the table that we carried 2 800 tons of saltpetre in March, whereas only 971 tons were shipped from the port of Calcutta in that time. It is pretty evident therefore that we are getting all the freight that this commodity can give us.

Seeds ... ... Mds. 1,58,305 Rs. 16,774

A very considerable increase, although the seed traffic had not set in full in March.

Decreases.

Commissariat beer	Mds.	16 874	Rs. 22,851
Commissariat stores	,,	9,761	,, 36,874
Total ...		26,635	59,725

It will be seen that in these two items alone there is a deficit equivalent to more than half of the deficiency in the month's traffic as compared with last year.

Cotton ... ... Mds. 86,974 Rs. 1,62,767

The market report is—No sales reported.

In fact there is a very serious dearth, and "fair" cotton even at the present very low freights could not be put down in Liverpool under six pence a pound.

Jaggree ... ... Mds 73,915 Rs. 42,010

The weight of jaggree received from Oude and Rohilcund Railway at the three junctions, Allyghur, Cawnpore, and Benares, has fallen off by 87,000 maunds, so that the whole decrease may be set down to failure of crops.

Sugar ... ... Mds. 89,826 Rs. 15,903

The fact that we are carrying raw sugar and jaggree from Calcutta to Shahjehanpore, to keep the large refining works established there at work, will fully explain this.

I now take up the subject *Grain*, which shows an increase in weight of 35,000 maunds, but a decrease in earnings of Rs. 74,000.

This money deficiency may be fairly described as the result of exchanging a period of brisk export of wheat from the North-West for one in which those districts have been feeling the pinch of severe scarcity, and importing rice and pulses from below and barley from the Punjab.

I do not think I need enlarge here on this point, as it has been already so fully treated.

The train mileage has been—

Decrease	... ..	0 8 4	0 5 1

The goods mileage has been increased by causes dwelt on in late reports; the set of traffic in one direction, and with comparatively short leads, must of course have this effect.

The net result of Rs. 4-14-11 per train mile on the whole traffic can hardly, however, be considered unsatisfactory.

JUBBULPORE LINE TRAFFIC.

Increase	2,331	.....	.....	.....	.....
Decrease	.....	762	7,57,943	1,46,551	1,49,313

The goods traffic in March 1877 (in connection with the famine in Bombay and Madras) was of course quite exceptional.

In the five weeks under notice, however, the earning averaged £24 per week per mile open, and in the latest week for which I have figures (week ending 6th April) it had risen to £30-8-1.

On 13th April we had 686 of our own wagons on the other side of Jubbulpore mostly in seed traffic to Bombay, besides 200 of the O. and R. and S. P. D. stock.

The train mileage has been—

	Coaching.	Goods.	Total.
1878	27,017	31,315	58,332
1877	23,766	81,309	1,05,075
Increase	3,251	.....	.....
Decrease	... .	49,994	46,743

so that the goods train mileage earning stands at Rs. 5-15-6 against Rs. 4-12-6 last year.

Reports of Fluctuation of Traffic on the Eastern Bengal Railway for the five weeks ending 30th March 1878.

EASTERN BENGAL RAILWAY COMPANY, TRAFFIC SUPERINTENDENT'S OFFICE.

Report on the Traffic for the five weeks ending the 30th March 1878.

Dated Calcutta, the 23rd April 1878.

From—W. INNES, Esq., Acting Traffic Superintendent,

To—The Agent, Eastern Bengal Railway, Sealdah.

THE weight of goods carried by this Railway during the above period amounted to 7,88,347 maunds, which, as compared with the corresponding period of 1877, shows a decrease of 49,807 maunds, accounted for mainly by the decreased traffic in seed grain, including rice, sugar, tobacco, turmeric, and hides, overbalancing an increase of over 88,000 maunds in miscellaneous goods 53 060 in jute, 21,600 in foreign railway materials, 7,000 in piece-goods, 6,000 in salt, 4,700 in gunny, and 3,700 in cotton.

Decreases.

Seeds ... ... Mds. 1,09,532

Grain, including rice ... ... ,, 73,872

This must be held as reactionary on the abnormal increase for supply to the famine districts last year.

Sugar ... ... Mds. 35,913

This decrease is owing to there being less sugar to send this year. The crop is estimated as being a fourth less than usual.

Tobacco, bundles and bales of ... ... Mds. 9,100

The demand for this staple has been moderately firm and regular, although at times unaccountably capricious. The fluctuations in the traffic are solely dependent on the crop being abundant or scarce, which latter, I regret to say, is the case this year.

Jute, bales of ... ... Mds. 4,844

This is owing to the screw presses at Dacca and Narayanganj having closed earlier than usual this year.

Turmeric ... ... Mds. 3,499

This is owing to a fall in the market

Hides, bundles and bales of ... ... Mds. 1,846

This is also owing to a fall in the market, there being scarcely any demand, except for the best qualities.

Increases.

Miscellaneous goods ... ... Mds. 88,121

This is very satisfactory and chiefly accounted for the opening of the Northern Bengal State Railway.

Jute, drums of ... ... Mds. 57,905

This is also satisfactory, and owing to the market maintaining good prices, the demand exceeding the supply.

Railway material, foreign ... ... Mds. 21,631

This is of course due to the demand of the Northern Bengal State Railway.

Piece-goods ... ... Mds. 7,048

This is satisfactory, and no doubt chiefly owing to the opening of the Northern Bengal State Railway.

Salt ... ... Mds. 5,984

This is owing to the anxiety of the salt merchants to dispose of their stock previous to the threatened levy of an enhanced duty.

Gunny, bundles and bales of ... ... Mds. 4,763

This is probably owing to the merchants availing themselves of the use of company's bags to a greater extent than formerly

Cotton, bundles and bales of ... ... Mds. 3,726

This traffic may be expected to increase steadily.

I attach the usual statement of increases and decreases.

Report of Fluctuation of Traffic on the Tirhoot State Railway for the Month of March 1878.

TIRHOOT STATE RAILWAY.

INCREASES.

Food-grains ... ... Mds 14,044

This increase is due to the steady growth of traffic and may be affected in a manner by the scarcity in the North-Western Provinces and Bundelkhund

Indigo ... ... Mds. 35

This is the balance of last season's manufacture.

Iron ... ... „ 968

This growth of this traffic is due to the facilities afforded by the Barrh branch.

Piece-goods ... ... „ 4,400

The increase in this staple is healthy, and is gradually being diverted from the river to the rail

Seeds—Indigo ... Mds. 7,251

This is the season for sowing indigo, and represents a fair activity in the import of this seed.

Seeds ... ... Mds. 17,445

This is chiefly export traffic, and the steady increase in this staple is very satisfactory and will continue as a regular traffic

Salt ... ... Mds. 7,516

Though representing an increase, this is not sufficiently satisfactory for staple of universal consumption.

Saltpetre ... ... Mds 8,983

This is an export traffic, and fluctuates according to the demand for it in Calcutta and other marts.

Tobacco ... ... Mds 3,024

This is the commencement of the tobacco season, and the traffic promises to be favourable

All other goods ... ... Mds. 8,917

This is a general traffic, and the increase is most satisfactory, being due to through booking and the quick transit of stores, &c., now obtainable from Calcutta direct.

DECREASES.

Hides ... ... Mds. 932

This traffic is not so brisk in the hot season.

Railway material ... ... „ 1,944

This is now likely to decrease owing to completion of the line

DISTRICT ROAD FUND.

NOTIFICATION.

No. 103.

Dated the 6th May 1878.

UNDER Section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Cuttack, Pooree, and Balasore, of works done and in progress during the past cess year 1876-77, together with the remarks thereon of the Commissioner of the Orissa Division, are published for general information.

J. E. T. NICOLLS, MAJOR-GENERAL, R.E.,

Secretary to the Government of Bengal,
in the Public Works Department.

No. 372, dated Cuttack, the 8th December 1877.

From—H. S. BEADON, Esq., Collector and Chairman, Road Cess Committee,
To—The Commissioner of the Orissa Division.

I HAVE the honor to submit the annual report of the Road Cess Department for the year ending the 30th September 1877.

2. Under the provisions of Section 88 the accounts for the year have been audited by the Sub-Committee appointed for that purpose, and have been considered by the District Committee and passed upon the Sub-Committee's report. That report calls for no special consideration, except on the subject of the ferry stock, regarding which I have addressed you separately from the magisterial side of my office. Shortly, I may mention that the claim as a whole has not met with my approval or that of the District Committee; but special reference has been made regarding the Judpore ferry, which is a newly established ferry, and at which the Committee lately posted a boat, the cost of which should not properly be debited against the District Road Cess Committee.

3. The balance on the 1st October 1876 was Rs. 8,175-7-8, and the receipts during the year from the collections Rs. 40,878-6-8, and from other sources Rs. 2,513-6-10, giving a total revenue for the year of Rs. 51,567-5-2.

4. The expenditure has been Rs. 44,256-8-6, and the net balance on the last day of the year Rs. 7,310-12-8.

Of the sum expended, Rs. 5,397-6-2 represents the cost of collecting establishments, Rs. 21,768-14-11 repairs, Rs. 9,170-0-1 original works, and Rs. 7,920-3-4 road establishment and plant.

5. The income was greater than that of the previous year, for the reason of the decrease from the previous year recorded by the Chairman last year, viz. "because we had been realizing our cess in advance, and the Board having ruled in their No. 189A., dated 20th August 1875, that the cess was payable in arrears, only one of the two yearly instalments was collected" during last year.

6. The Road Cess Committee meetings were not numerously attended, but I can safely say that the non-official members who came thoroughly discussed every subject which was laid before them. At Kendrapara it will be observed that two-thirds of the members on the average attended, at Cuttack upwards of one-third, and at Jajpore about one-seventh. In Jajpore there were 15 defaulters, *who have never attended*, out of a Committee consisting of 22, and as seven is the quorum required, it is clear that to have a meeting all the others must attend. This desirable result has never yet been accomplished. The sub-division was for nine months of the year in charge of Baboo Atool Chunder Chatterjee, and doubtless matters there will now improve. I attribute the good attendance at Kendrapara to the facts that the members are residents of the town of Kendrapara, and that there were only two meetings. Under late orders of Government the branch Committee list has been revised, but only those have been entered who were on the Committee during the year. At head-quarters four out of the five gentlemen who never attended have been lately omitted in the revised list sent up to Government, as two are no longer residents of this district, and two others live too far from the sudder station and as a fact never come to Cuttack. I have found great assistance from the non-official members of the Committee both from their advice and their readiness to take charge of any small village road work within their estates or their neighbourhood. The Executive Engineer attended two of the meetings in the course of the year.

7. SUB-DIVISIONAL REPORTS. *Kendrapara village roads.*—The works in Kendrapara were all petty, being chiefly earthwork and turfing, with two wooden temporary bridges. One of these, costing Rs. 15, was swept away by the heavy floods of the Chitratola. The works executed are entered in statement A accompanying. Though more than Rs. 50 have been expended on some of them, the fact is the road which goes by one name passes several villages running from one to the other. The total expended was Rs. 547-14.

8. *Jajpore.*—The village road works in Jajpore were repaired during the year at an outlay of Rs. 550 as per statement B., all petty works, with here and there a small wooden bridge, not exceeding Rs. 30. But the floods of the 13th July last washed away portions of work done in previous years on some of these roads. The roads that seem to have been permanently benefited are one at Rambag, eight small roads in the Dharmasala thana, and two small bridges costing Rs. 35 and Rs. 15.

9. *Sudder Sub-division.*—The village road work in the sudder sub-division consisted of repairs to five village roads at a cost of Rs. 411-5, as per statement C, earthwork repairs, and the erection of a wooden bridge on the Sujang road, in Jagatsingpore thana, at a cost of Rs. 59. Baboo Gopal Prosad Mitter, one of the members of the Committee, proposed and superintended the construction of two village roads in Jagatsingpore thana. The reason for the small expenditure is that the sudder sub-division depends largely for its communications on canal and river way, and the embankments are the chief, and in many places the only, mode of communication.

10. *Village roads under the District Engineer.*—There were three such roads. I find that the Chairman, for whom I am officiating, did not approve of spending much money on village roads, and considered the sum of Rs. 2,000 was as much as should be devoted to this purpose. The total expenditure for the year was Rs. 1,509-3.

11. *Original works.*—During the year the road cess and municipal office was commenced, but it was delayed partly on account of the non-receipt of sanction to the estimates, and partly because rains came down unexpectedly early and destroyed the bricks before they were burnt, thus limiting the tale. Sanction was received in July, and the work is now being pushed on. The total cost will be Rs. 4,229, of which the municipality has agreed to pay Rs. 1,000 for its share of the accommodation.

12. Three small masonry culverts were built on the Chandbally road for Rs. 354-14-4, and one of four feet span for Rs. 242-15-6.

13. There were three timber bridges raised—two on the Kendrapara to Jajpore road, and one on the Chandbally road. The last three are not yet complete, but are passable for traffic. They cost Rs. 2,105-11-9.

14. *Repairs.*—On the Chandbally road Rs. 5,182-3-0 were expended. This was entailed by surface dressing throughout twice over. It is a very difficult road to keep in order. Apart from the liability to complete inundation, from which it suffers nearly every year in some portions of it, much of the road is only clay and much only sand. The first part suffers greatly during the rains, and the latter part throughout the rest of the year. Repairs are attempted by spreading clay upon the sandy parts and sand upon the clay. The latter process is easy and answers; the former excessively difficult to carry out, and of doubtful success when finished. The last nine miles of the road towards Chandbally were not touched in the year under report, but full provision extending to upwards of Rs. 16,000 has been provided for this road for the coming year. There is an offshoot at the 16th mile of this road leading to Mohanga. This road has been put in thorough repairs for Rs. 600 and is in good order, excepting at the points where it crosses the distributaries of the Kendrapara canal and their branches.

15. The Kendrapara loop road also was repaired during the year. This road is now within the limits of the municipality of Kendrapara and ceases to be borne on the district roads. The staging bungalow at Kendrapara and the other bungalows of the Chandbally road were repaired and finished.

16. The road from Judpore to Pattamundi was not repaired. The Irrigation Department has driven the canal across the road which emerges again on the same side, but the Executive Engineer has promised to rectify it by making a substitute along the berm of the canal till the communication is again completed. The repairs of the road generally will be taken in hand this year as soon as that is effected.

17. Nor has anything been done to the Kendrapara and Marsaghai road. I think there is probability of this road being abandoned. Marsaghai is usefully connected with Kendrapara only because it is the end of the canal, but the road crosses some of the lowest land in the district, and expensive bridges and culverts are necessary upon it, if it is to be made good all the year round. Enquiry is now being made as to whether direct communication cannot be made along a high ridge covered with villages to impinge on that canal at some point to the east of Marsaghai and nearer to Jamboo. It is thought by the Deputy Magistrate and the District Engineer that such a route may be found; and, if so, the matter of abandoning the present road will be taken up and considered.

18. Upon the Taldanda road considerable repairs have been carried out, amounting in all to Rs. 6,189-7-11. It is reported to me as being in thoroughly good order, the bungalows, bridges, and causeways having been repaired throughout.

19. Rs. 1,538-3-3 was expended on the Machgan road, and the District Engineer reports that the earthwork and bridges have been executed satisfactorily; but the causeways were not so well done, and consequently one of them was carried away during the high flood of the Katjuri this year.

20. The Madhab road is a road running in and out of the Pooree and Cuttack districts for 44 miles, 18 being in Pooree and 26 in Cuttack. The road is not very useful for this

district, but it is thought to be of great advantage to Pooree. It was some time ago agreed that the repairs should be carried out by the Cuttack Committee, and that Pooree should bear 1/3rds of the cost The cost has, however, fallen on this district wholly for the last three years; and when the bill for repairs was sent to the Pooree Committee, it was desired by that Committee that this practice might cease for the future, as the Pooree Committee has now its own Engineer. The matter is, however, under consideration again, as it is impossible to carry out the repairs of some portions of the road, endeavouring to limit operations to the particular district. During the year under report Rs. 378-5-0 has been expended on this road.

21. The road from Jagatsingpore to Jaipore has been put in order also, except that one timber bridge on the 5th mile is in a very dilapidated state.

22. The Jobra road and the Pithapore road have also been repaired, the latter thoroughly.

23. On the Kendrapara to Jajpore road Rs. 2,872-5-2 were expended, but to no purpose. "The high floods," Mr. Serres writes, "that we had this year have undone all the works; the whole of the breaches have been re-opened, the road has been cut up worse even than it was before, the temporary wooden bridges are damaged, and one of them, No. 7 at the 10th mile, carried away entirely"

24. A similar tale of woe comes from the other roads of the Jajpore sub-division, and indeed this must be the case until the waters of the Brahmini, Kharsua, and Byturnee are entirely brought into subjection by the embankment department. No amount of money that the Road Cess Department can ever afford to spend on these roads would enable them to stand against the violence of the higher floods of these rivers, and the only possible plan to adopt is to make overroads with a view to the water passing over them as completely and easily as possible. Rs. 865-5-0 were expended on the Baruan to Judpore road. In order to enable it to stand the flood, the breaches were re-filled and heavy berms made on either sides. All the breaches were again forced except one.

25. A most important road runs from Kuakhia to Jajpore, the direct communication from Cuttack Rs. 1,166-8-2 were expended in its repairs, but it is now in complete ruin as a road. To put that road in really good repair and to re-erect the bridges and causeways that have been swept away would cost nearly a year's income. We can only hope to keep it up as a fair-weather road. In one place a breach 335 feet has been made in the road, and this will give some idea of the enormous flood of water that rushes over the country in those parts.

26. *Tree-planting.*—I find Rs. 2,000 were allotted in the budget for this purpose. The trees on the Chandbally and Taldanda roads have been maintained, and a double line of trees has been planted from the Jobra road to the Taldanda loop road. A tope of trees has been planted at the 2¼ mile of the Taldanda road. The young trees on the road are flourishing, but the same success does not attend the cultivation on the Chandbally road. The land for the first three miles is very sandy, and, while the trees will not grow, their protective works fall down. Efforts are, however, still being made, and it is hoped will eventually succeed. The sub-divisional officers of Kendrapara and Jajpore also carry on some arboriculture at the sub-divisional head-quarters.

27. The following are the works proposed for the ensuing year:—

(1). Increasing the slopes of the road from 2 to 1 to 3 to 1 from the 58th to 65¾ miles of the Chandbally road.

(2). Constructing four new timber bridges with masonry abutments for 58th, 59th, and 60th miles of the Chandbally road.

(3). Constructing masonry abutments to the timber bridges on 40th, 43rd, and 64¼ miles of the Chandbally road.

(4). Constructing nine culverts for Chandbally road.

(5). Constructing a timber bridge with masonry abutments at the 5th mile of the Jagatsingpore to Jaipore road.

(6). Constructing a road from Ersama to Taldanda road.

(7). Re-constructing the broken bridge on the 9th mile of the Kuakhia to Jajpore road.

(8). Construction of a pucca inspection bungalow at 64th mile of the Chandbally road.

(9). Constructing a halting place at the end of the Chandbally road, 66th mile.

(10). Constructing landing stages at the ghât or ferries.

(11). Repairs of Golara Hât road.

(12). The construction of a road cess office (remaining portion).

(13). Ordinary repairs and construction of village roads wherever they may prove to be required.

(14). Planting trees on district roads as far as funds will permit.

(15). Ordinary maintenance and repairs to district roads, including bridges and causeways.

28. I am desired by the Committee to express their extreme satisfaction at the manner in which Mr. Serres has conducted the duties of District Engineer. He is an active, painstaking, upright young officer. His previous experience under Messrs. Stoney & Co. has given him a knowledge of the rates of work and cost of materials in the district which is valuable, and for all practical purposes he is quite as good an Engineer as the Committee can

hope to get. He was confirmed by Government as District Engineer, but the powers of an Overseer only were accorded to him unless he passed an examination. In the course of the year Government directed his removal, and against this both the Committee and Mr. Beames have remonstrated. No further orders have been received, and it is earnestly hoped that no change will be forced upon us. Of his subordinates Mr. Serres speaks well, except Mr. DeSouza and Peter Manuel. I have in the course of the year had on several occasions to reprimand them for idleness, malingering, and disobedience; and they both now stand warned that the severest notice will be taken of any future shortcoming on their part.

29. The road cess head clerk continues to deserve the praise awarded to him by Mr. Beames last year.

30. The office of Chairman has undergone several changes during the year as indicated below:—

From 1st October 1876 to 8th January 1877, John Beames, Esq.
From 9th January 1877 to 29th ditto, G. Toynbee, Esq.
From 30th ditto to 26th March 1877, John Beames, Esq.
From 27th March 1877 to 22nd May 1877, G. Toynbee, Esq.
From 23rd May 1877 to 30th September 1877, H. S. Beadon, Esq.

EXPLANATORY NOTE.

(A) The figures given in this column have been taken from the budget estimate submitted with this office No. 166 of the 26th July 1876, and approved of by the Commissioner in No. 107 R.C., dated the 30th idem.

(B) The discrepancy between the estimated demand and the actual collections is attributable to the payment made in advance by some of the assessees during the preceding year. (*vide* the explanatory notes (*c*) for that year).

(C) The difference is owing to non-realization of the balance at the close of the year. Measures, however, have already been taken for its speedy recovery.

(D) The excess is attributable to the fact that the amount of expenditure fell short of what was anticipated at the time of preparation of the budget.

(E) The excess in this head is owing to the sale of more trees, &c., than were estimated for.

(F) Rs. 750 was originally alloted in the budget, but funds being insufficient to meet the requirements, Rs. 330 was added by transfer from office contingencies under paragraph 1 of the Committee's proceedings dated 10th November, and Commissioner's No. 240, dated 16th idem.)

Balance	2,170	0	0

(*Vide* Committee's proceedings dated 10th November, and Commissioner's No. 240, dated 16th idem.)

(H) The difference is attributable to the fact that Rs. 5,489 was first allotted in this head, and Rs. 578 was added by transfer from "reserve," as per Committee's proceedings dated 10th May, and Commissioner's No. 44RC, dated the 19th idem.

Again, from the total (Rs. 6,067), Rs. 1,160 was retransferred for the reconstruction of the last two miles of the road shown under the original works (*vide* Committee's proceedings dated the 25th September 1877, and Commissioner's No. 206RC, dated 27th October 1877).

(I) The trifling excess of Rs. 3-3 than the budget grant was recouped by transfer from "reserve" (*vide* paragraph 1 of the Committee's proceedings dated 10th November, and Commissioner's No. 240RC, dated 16th idem)—

(P) The petty excess of one anna was received by transfer from reserve, as per Committee's proceedings dated 9th November, and Commissioner's No. 240R C., dated 16th idem.

(Q) Nothing was allotted to this, but Rs. 1,775-5-0 was transferred from reserve (*vide* Committee's proceedings dated 2nd March and 26th June 1877, sanctioned as per Commissioner's Nos. 265 and No. 92, dated 9th March and 5th July respectively.)

(R) Rs. 500 was originally kept under this head, which was wholly transferred to reserve, as per Committee's proceedings dated 10th May 1877, sanctioned by Commissioner's No. 44, dated 19th idem. Again, Rs. 336-2-2 was transferred to this head, as per Commissioner's No. 147, dated 11th August 1877.

(S) The excess of Rs. 4-2-10 was added by transfer from reserve (*vide* Committee's proceedings dated 9th November, and Commissioner's No. 240, dated 16th November 1877).

(T) There was no original allotment made in the budget for these works, but the amounts mentioned against each head have been transferred to each of them as per

paragraph 3 of Committee's proceedings dated 25th September, and sanctioned as per Commissioner's No. 206, dated 26th October 1877.

(U) No allotment was first made in this head. Rs. 1,160 was transferred to it from Taldanda road and Rs. 110-2-6 from reserve (*vide* paragraphs 3 and 1 of the Committee's proceedings dated 25th September and 9th November, and Commissioner's Nos. 206 and 240, dated 27th October and 16th November respectively.)

(V) The difference in the detail of the establishment under the District Road Committee is attributable to the reduced scale of establishment made in accordance with paragraph 11 of Government No. 335, dated 16th April 1877, received under Commissioner's No. 15RC, dated 27th April 1877 (*vide* paragraph 5 of the Committee's proceedings dated 10th May 1877, submitted to the Commissioner with this office No. 43, dated 14th May 1877.) For the said reduction in the scale of establishment the actual expenditure has fallen below what was originally allotted.

(W) Rs.. 200 was originally allotted to this head, and Rs. 395-8-0 was received by transfer from reserve (*vide* Committee's proceedings dated 26th June and Commissioner's No. 92 of 5th July 1877).

Special Note.

CERTAIN original works amounting to Rs. 3,973-12-1 were charged in the last quarterly return under the head of repairs, but subsequently rectified in this annual return.

3. The aggregate receipts of the year under the several heads amounted to Rs. 22,605-3-3, viz.—

	Rs.	A.	P.
Cash in hand	12,027	6	5
Advances outstanding	1,457	14	9
Cess on land	8,137	0	1
,, houses	83	0	0
Miscellaneous receipts	49	14	0
Total ...	22,605	3	3

4. The total expenditure amounted to Rs 18,458-5-11 at the end of the year. The details of the expenditure are given below :—

	Rs.	A.	P.
Office establishment	1,678	7	6
Contingencies	991	10	7

Total ...	18,458	5	11

5. *Repairs.*—The following roads were completely repaired during the year :—

	Rs.	A.	P.
Repairs to the road from Khoordah to Kalapather ...	1,737	11	2
„ the road from Piply to Khoordah ...	1,026	6	2
„ Bagmari to Bolgarh road	1,192	13	1
„ the Balighai and Madhab road	877	8	1
„ from Balugan to Banpore road	149	11	0
Village Roads.—Thana Pooree	615	2	0
„ Piply	560	0	3
„ Gope	371	2	6
„ Khoordah	985	0	0
„ Tangy	180	0	0
„ Banpore	660	0	0

6. The road from Atharnala to sea-beach was partly repaired during the year. The repair of this road was transferred to the Road Cess Department in April last. The work was taken up immediately on its transfer, and a sum of Rs. 2,927 was spent in repairing and metalling a portion of the road, *i.e.*, from the sea-beach to the police line. The other portion of the road has been taken up from the commencement of the year 1877-78, and will be shortly completed. The amount spent for each road is set forth above. All the roads in the district have received their due share of attention, and the earthwork, metalling, bridges, culverts, and causeways are at present in a fair state of repair.

7. *Original works.*—A sum of Rs. 990-6-11 was spent on the construction of the new road and culverts. A sum of Rs. 4,000 was allotted for improving and bridging the Bhobanesar road, but the late District Engineer submitted the estimate of the road too late, and the work could not be taken up, and a sum of Rs. 3,527 from this head was transferred to the repair of the road from Atharnala to sea-beach. The details of the original works are given below :—

	Rs.	A.	P.
1. Construction of a culvert on Balighai and Madhab road	227	14	6
2. Division of a causeway on the Piply to Khoordah road	479	15	5
3. Extention of Balugan and Banpore road	163	0	11
4. Survey to the proposed lines	119	8	1
Total ...	990	6	11

8 It will be seen that in the budget of the year 1876-77 a sum of Rs. 16,322 and Rs. 5,400 was sanctioned for original and repair works respectively, but Rs. 3,527 (a part of Rs. 4,000 sanctioned for the Bhobanesar road), and Rs. 5,222 allotted for the village roads under the head of original works having been transferred to the head of repair works under the Commissioner's letters Nos. 64RC, and 101 of 5th June 1877 and 17th July 1877 respectively, the net expenditure under the repairs, as per figures given in the annual account, amounted to Rs. 11,282-6-3.

9. The expenditure of the Committee under the several heads shown in the annual account has been kept down to the sums allotted for them, except the maintenance of the village roads under block thana Banpore, which has exceeded the estimates by Rs. 145. A sum of Rs. 515 was assigned for the village roads under that thana, but the Chairman of the Branch Committee spent Rs. 660. The excess sum of Rs. 145 was charged to the total amount allotted to the village roads of all the other thanas under which there was a considerable saving, as shown in the annual account.

10. *District Committee.*—There were 12 meetings of the District Committee during the year under review, but in one of the meetings there was no quorum : thus 11 meetings were convened. Almost all the members attended the meetings except the undermentioned five who absented themselves altogether :—

Baboo Bhagban Ratsingha.
„ Baidhar Mahapatra.
„ Raghunandan Ramanuj Das.
Sheikh Jameeloodeen Mohamed, Jagirdar.
Executive Engineer of Orissa Division.

The absence of the Executive Engineer, Orissa Division, is much to be regretted.

The working of the District Committee and the attendance of the members were satisfactory.

11. *Branch Committee at Khoordah.*—During the year under report three meetings were convened by the Branch Committee, and the percentage of attendance to whole Committee was 58·3. The working of the Branch Committee was on the whole satisfactory.

12. *Work establishment.*—Baboo Woomesh Chandra Ghose, late District Engineer, resigned his services in April last, and was succeeded by Mr. H. Beek. Mr. Beek has given satisfaction. The Sub-Overseer, T. Rajgopal Moodeliar, has done very well.

13. *Office establishment.*—The head clerk, Baboo Nadia Chand Dutt, has deserved the thanks of the Committee for his punctuality and close attention to business. The rest of the office establishment have given no cause of complaint.

14. I give below the list of the works proposed by the Committee to be carried out during the year 1877-78, viz.—

	Rs.
Repairing the first portion of the road from Atharnala to sea-beach	4,030
Repairs to the inspection huts situated on the Bagmari and Bolgar road	109
Repairs to the inspection bungalows situated on Khoordah and Kalapather road	312
Repairs to the inspection bungalow at Gope	60
Village Roads.	
Thana Pooree	100
„ Piply	100
„ Gope	100
„ Taugy	50
„ Banpore	50
Remodelling Delang bridge	1,026
Compensation to be paid for acquiring land for roads ...	1,178
Relief Works.	
Repairing Balugan and Banpore road	6,541
Constructing a road from Barabcoody to Rorang	5,606

From the above it will be observed that the sum of Rs. 2,000 sanctioned for Patnaikia road and Rs. 5,173 for the construction of the office building, together with a sum of Rs. 4,974 out of Rs. 6,000 allotted for Delang bridge, have been omitted, as the amounts were transferred to the famine relief work.

15. The people are by no means inappreciative of the objects and advantages of the cess. They came forward with the utmost alacrity to represent their wants, which were readily attended to.

16. The rate of the cess has now been raised to the maximum, and is double that assessed previously. This was effected without exciting any discontent or opposition.

Explanatory note to accompany the annual account of 1876-77.

(*a*) The income on land for the year 1876-77 was estimated at Rs. 13,004. It fell short of the estimated amount, because the cess in this district was being realized in advance; but the Government notification, dated 24th July 1875, altering the dates of payments of the cess being brought into force in this district in the year under review (*vide* paragraph 2 of the Board's Resolution dated 27th March 1877) only one of the two yearly instalments of the revenue-paying estates was collected during the year: hence the decrease.

(*b*) Under miscellaneous receipts Rs. 150 was estimated for; but the receipts under that head amounted to Rs. 49-14-0, as the fees of the inspection bungalow at Khoordah fell short of the last year's receipts.

(*c*) Rs. 198 estimated for in the budget and a sum of Rs. 115 was transferred to this head under Commissioner's No. 82R.C. of 21st June 1877.

	Rs.
(*d*) Budgetted amount	498

Transferred under Commissionr's No. 43R.C. of 18th May 1877	445
Total ...	1,018

(*e*) Rs. 3,527 was transferred for this work under Commissioner's No. 64R.C. of 5th June 1877.

(*f*) The budget estimate provided the following sums for the village roads of the undermentioned thanas, viz.—

	Rs.
Thana Pooree	1,349
,, Piply	843
Salt roads	422

But on account of the transfer sanctioned in Commissioner's No. 223R.C. of the 23rd December 1876, the net amount shown against these blocks is—

	Rs.
Thana Pooree	1,249
,, Piply	743
Salt roads	348

(*g*) Rs. 758 was allotted for the village roads of Gope, but on account of Rs. 228 having been transferred under Commissioner's No. 222R.C. of 20th December 1876 for other works, the estimated amount was decreased to Rs. 530.

(*h*) Rs. 228 transferred under Commissioner's No. 222R.C. of 20th December 1876.

POOREE,
The 6th December 1877.

MAHANUNDA GUPTA,
Vice-Chairman.

No. 10T, dated Camp Soroh, the 19th November 1877.

From—T. NORMAN, Esq., Acting Collector,
To—The Commissioner of the Orissa Division.

I HAVE the honor, on behalf of the Road Cess Committee of this district, to submit a copy of the accounts of the receipts and expenditure of the District Road Fund during the road cess year 1876-77, as required by section 89 of the District Road Cess Act, 1871.

2. The accounts have been examined, in compliance with the requirements of the Act, by the Vice-Chairman and a sub-committee appointed in its behalf by the Committee, and were submitted to and passed by a general meeting of the Committee held on the 16th November 1877.

3. During the year under report funds did not permit of the prosecution of more than one original work, namely, the Barpada and Moraigaon road, a work intended to open up the tributary territory of Keunjhar. The estimate for this work was Rs. 1,500, and the expenditure Rs. 1,492-15-9. The earthwork of the whole line—1¼ miles in length—has now been completed. Culverts and causeways will be added as funds permit.

4. The budget allotment for maintenance and repairs was Rs. 18,509, and the expenditure has been Rs. 15,907-11-9. The following table shows in full detail the nature, quantity, rates, and cost of all work executed on the district roads throughout the year:—

Tabular Statement showing the Nature, Amount, Rate, and Cost of all Works executed by the Balasore Road Cess Committee from Road Cess Funds during the Road Cess year 1876-77.

3. Mr. Vertannes, Executive Engineer, Balasore Survey Division, prepared rough estimates, but the rates on which he based his calculation were found so low as to be unworkable.
4. Rs. 456-10 have been spent on general repairs of bridges and earthwork, the remainder on account of constructing two causeways, and in re-constructing with an additional pier a large bridge in the 8th mile.
Two causeways in the 5th mile with an aggregate length of 1,100 feet are approaching completion. Materials only have been collected for a 3rd causeway in 23rd mile. The new pier in bridge over Kundi nullah in 6th mile is not yet finished.

The July floods caused great damage, Rs. 91-5 worth of material being washed away which had been taken over, while the contractors also lost a quantity not taken over. This delayed the work directly, material having to be replaced, and indirectly by cutting up the road leading to the spot where work was being carried on.
			Dressing	.....	.....	154 0 0		1. The original grant for this road was Rs. 1,000. The sum of Rs. 115-8 was transferred from the Chandbally road to this in terms of the sanction conveyed in Commissioner's No. 40R.C., dated 15th May 1877. Thus the total sum available for the road is Rs. 1,115-8. Of this Rs. 1,115-4 have been expended, and the balance, 4 annas, is undrawn.
			Woodwork	140¾ c. ft.	1 15 10 per c. ft.	230 8 0		2. Of the sum expended, Rs. 134 went to defray the cost of dressing along the whole road and the filling up of breaches; Rs. 760-4 was spent in erecting two new piers in the Ruknadeipore bridge over the Kanchani nuddee and in buying and preparing timber for the bridge itself, as well as in repairing the existing masonry. The fact of the river being a tidal one, and the constant freshets caused by the abnormal rainfall of last cold weather, made the progress of the masonry work and of laying the foundations very tedious, the protective bunds giving way, and again having to be repaired and the water baled out. Finally, the heavy floods of July occurring when the new piers were just above high water level, and before the masonry had time to consolidate, undermined one so much so that it cracked and gave way, the head of water rendering it impossible to prop it up or repair the foundations. The wood, iron nails, and tar purchased are in stock, the aggregate value being Rs. 327-8. The sum of Rs. 133-3 spent on repair of the old masonry is not lost, as this is undamaged so far. One new pier is undamaged apparently, and it contains 600 c. ft. of masonry, having cost Rs. 105-9. There must be written off as loss cost of 900 c. ft. masonry in damaged pier equal to Rs. 144, unless it be found possible to let the half of the pier still erect stand and have the damaged half to be replaced joined on to it.

Repairs to the roads constructed last year have also been effected. Turfing from Barpada. Bunt has been completed. No bridges have yet been erected on this line of road, but a number will be required to permit of flood and country surface-drainage water passing off.	

5. The expenditure on village roads has been much larger than shown in the table, which only exhibits expenditure regularly accounted for before the close of the year. Grants entrusted to private persons for expenditure under this head are much appreciated and are generally spent to the utmost possible advantage; but the accounts of village road expenditure cannot be obtained with the same punctuality as those furnished by salaried officers.

6. Full details of the work done having been accurately shown in the above table, I refrain from discussing each operation in detail. It will be sufficient to state generally that I believe that available funds have been utilised to the fullest possible extent. There is scarcely a road in the district which has not been materially improved during the past year, whether by earthwork, metalling, or bridging.

7. The long and straggling configuration of this district renders it a very much more expensive undertaking to provide fully for its wants in the way of roads than is the case in more compact districts. Moreover, the Road Fund is extremely poor, the total valuation of the land for road cess purposes having only amounted to Rs. 10,43,651, and the house cess yielding next to nothing. Already the district roads cover the very considerable mileage of 277 miles; and to prevent this mileage extending to an inordinate length, it is necessary to to bear in mind, and to adhere as rigidly as possible to, the principle that the Orissa trunk road, which bisects the district throughout its entire length, should be treated as the principal line of communication, with the district roads joined to it on both sides as feeders. Accordingly, unless very special circumstances require a deviation from this rule, I align all new roads, whether leading from the sub-mountainous tracts on the west or from the littoral tracts on the east, so as to join the trunk road as nearly at right angles as possible. When the district scheme of roads is completed it will somewhat resemble a skeleton, the trunk road representing the spine and the district roads the ribs.

8. In addition to works paid for from road cess funds, the Phulwar and Kalma road, noticed in the previous year's report, has been completed. This is a road designed to connect the important Mohurbhunj territory and its capital, Baripada, with the Orissa trunk road near Balasore. The work has been paid for by the Maharajah of Mohurbhunj, who very liberally placed Rs. 7,000 in my hands for the purpose. It presented features of special difficulty, as it was necessary to provide for the escape of a large portion of the flood spill of the Baraballang river. This object has been very successfully accomplished under the able supervision of Mr. Vertannes, Executive Engineer, Balasore Survey Division. Causeways were constructed, aggregating over a mile in length, and a weir was built over the Nizampur nullah which serves as a bridge and viaduct, and also allows the flood water to pass over it without injury.

11. It will be seen from the above that meetings of the Committee were regular and that the attendance of the members has been fair on the whole.

12. The working of the Committee continues to be attended with as great a degree of success as could reasonably be expected. The rates are voted cheerfully; no obstruction is offered to the prompt and regular disposal of business. The unofficial members take pleasure in attending and in listening to what is going on; they occasionally do a little work in the way of auditing accounts, and when they are acquainted with a locality under discussion they express their opinions with tolerable freeness; although it must be admitted that in most cases their acquaintance with the geography and circumstances of the district is very limited. The fact that native gentlemen usually know little of the country beyond the immediate vicinity of their homes is no doubt mainly due to climatic influences, and cannot be remedied.

12. What it is proposed to do during the road cess year 1877-78 is as follows: land will be acquired for the construction of three new roads; it will be demarcated in a durable manner, and the earthwork necessary for raising the roads in certain parts will be executed so far as funds will permit. The names of these roads and the allotments to each are shown by the following table:—

Number of Road.	Name of Road.	Allotment for 1877-78.

35.	Singla branch road	230
36.	Uttareshwar to Gopinathpore road...	2,100
37.	Jamjhari to Basudebpore road	3,200

The Singla branch road is designed to connect the Singla market (one of the most important in the district), the Singla police outpost, salt warehouse, and village with the Busta and Baliapal road. The people of Singla have long been in urgent want of this road, and they even raised a voluntary subscription to defray its cost.

The Uttareshwar to Gopinathpore road is designed to traverse killah Taldanda and killah Mangalpore, and to connect a large sub-mountainous tract on the western side of the district, including the above killahs and killah Patna, with the trunk road at Soro.

The Jamjhari and Basudebpore road will run in a south-easterly direction from Jamjhari on the trunk road to the police station of Basudebpore. This road is much required for the purpose of connecting with the trunk road the posts of Churamun and Lachanpore, the large villages adjacent to Basudebpore, and the salt-manufacturing tract along the east coast.

Allotments for the maintenance and repair of existing roads during 1877-78 are as follow:—

No. 275 R.C., dated Cuttack, the 28th December 1877.

From—T. E. RAVENSHAW, ESQ., Commissioner of the Orissa Division,
To—The Secretary to the Government of Bengal, Public Works Dept.

I HAVE the honor to submit in original, for publication in the *Calcutta Gazette* under section 89 of the Road Cess Act, the annual reports and accounts of the District Road Fund of the several districts of this division for cess year 1876-77 duly examined and passed by the Road Cess Committee, and to report on the works of local improvement as follows.

2. The total receipts of the year for the whole division, including the opening balance on 1st October 1876, amounted to Rs. 99,483-10-2, and the total expenditure Rs. 84,910-2-5, leaving a balance of Rs. 14,573-7-9 unexpended at the close of the year.

3. The receipts, expenditure, and balances of the Road Cess Fund in each district are shown in the table subjoined:—

NAME OF DISTRICT.	RECEIPTS.			EXPENDITURE during 1876-77.	BALANCE on 1st October 1877.

4. No grant-in-aid was given by Government. The maximum rate of cess has been imposed in all districts, and there is a marked increase in receipts and expenditure, as shown below:—

RECEIPTS.

5. If from the receipts of 1875-76 the grants-in-aid, Rs. 12,000, be deducted, it will be observed that receipts have increased from Rs. 70,674 in 1875-76 to Rs. 99,484 in 1876-77; and the expenditure from Rs. 57,798 to Rs. 84,910. In Pooree district the Cess Committee expended nearly double of the amount utilized during 1875-76.

6. In Cuttack district the undermentioned works were carried out:—

Original works.

Cuttack Road Cess and Municipal Office.—Sanction of Government was received in July 1877, and the work is in a forward state. The total cost is estimated at Rs. 4,229, of which the municipality has agreed to pay Rs. 1,000 for its share of the accommodation.

Three small masonry culverts were built for Rs. 354-14-4 on the Chandbally road, and one of four feet span for Rs. 242-15-6. Two timber bridges were raised on the road Kendrapara to Jajpore, and one on the Chandbally road, at a cost of Rs. 2,105-11-9.

Repairs.

(1.) *Chandbally road.*—Rs. 5,182-3-0 were expended in surface repair. It is a most difficult road to keep in order. Apart from its liability to complete inundation, the country

over which the road runs is alternately alluvial loam and sand, difficult to keep in repair. The last 9 miles of this road towards Chandbally were not touched in the year under report, but full provision, extending to upwards of Rs. 16,000, has been made for this road for the coming year.

(2.) The bungalows on this road were thoroughly repaired.

(3.) Necessary repairs were executed to the Kendrapara loop road and to the staging bungalow at Kendrapara.

(4.) *Taldanda road.*—Considerable repairs were carried out on this road at a cost of Rs. 6,189-7-11. Bridges, causeways, and bungalows are all in thoroughly good order.

(5.) Rs. 1,53[illegible]-3 5 were expended on the Machgaon road. One of the causeways was not repaired in a satisfactory manner and has since been carried away by flood.

(6.) On the Madhab road Rs. 378-5 were expended in repairs.

(7.) The road from Jagatsingpore to Jajpore was put in order, except the timber bridge on the 5th mile, which is in a most dilapidated state and requires re-construction.

(8.) Needful repairs were done to the Jobra road and Pithapore road.

(9.) The important roads (1) Kendrapara to Jajpore, (2) Jajpore to Kuakhia, (3) Baruan to Judpore, were also repaired at a cost of Rs. 2,872-5-2, Rs 166-8-2, and Rs. 865-5 respectively; but they have been again seriously damaged by floods of the Brahmini, Khursua, and Byturnee rivers, and much of the earthwork carried away and the roads breached in many places.

(10.) The subjoined extract from the district report will give an idea of the extent of the injury inflicted to the roads in general in the sub-divisions of Jajpore and Kendrapara by the high floods of the Brahmini, Byturnee, and Khursua this year:—"On the Kendrapara to Jajpore road Rs. 2,872 were expended, but to no purpose. The high floods that we had this year has undone all the works: the whole of the breaches have been re-opened, the road has been cut up worse even than it was before, the temporary wooden bridges are damaged, and one of them, No. 7 at the 10th mile, carried away entirely.

"A similar state of woe comes from the other roads of the Jajpore sub-division, and indeed this must be the case until the waters of the Brahmini, Khursua, and Byturnee are entirely brought into subjection by the embankment department. No amount of money that the Road Cess Department can ever afford to spend on these roads would enable them to stand against the violence of the higher floods of these rivers, and the only possible plan to adopt is to make over-roads with a view to the water passing over them as completely and easily as possible. Rs. 865-5 were expended on the Baruan to Judpore road. In order to enable it to stand the flood, the breaches were re-filled and heavy berms made on either sides. All the breaches were again forced except one. A most important road runs from Kuakhia to Jajpore, the direct communication from Cuttack. Rs. 1,166-8-2 were expended in its repairs, but it is now in complete ruin as a road. To put the road in really good repair and to re erect the bridges and causeways that have been swept away would cost nearly a year's income. We can only hope to keep it up as fair-weather road. In one place a breach, 335 feet, has been made in the road, and this will give some idea of the enormous flood of water that rushes over the country in those parts."

Village Roads.

Rs. 1,509-3 were expended on village roads in Kendrapara, Jajpore, and Cuttack sub-divisions, *vide* detailed statements A, B, and C, appended to the district report, viz,—

	Rs	A.	P.
In Kendrapara sub-division	547	14	0
In Jajpore ditto	550	0	0
In Cuttack head-quarters sub-division	411	5	0
Total ...	1,509	3	0

Trees Planting.

The trees on the Chandbally and Taldanda roads were maintained, and a double line of trees was planted from the Jobra road to the Taldanda loop road. A tope of trees has also been planted at the 2½ miles of the Taldanda road.

7. The Cuttack Committee propose to undertake the following works in the ensuing year:—

1st.—Increasing the slopes of the road from 2 to 1 to 3 to 1 from the 58th to 65½ miles of the Chandbally road.

2nd.—Constructing four new timber bridges with masonry abutments on the 58th, 59th, and 60th miles of the Chandbally road.

3rd.—Constructing masonry abutments to the timber bridges on 40th, 43rd, and 64½ miles of the Chandbally road.

4th.—Constructing nine culverts for Chandbally road.

5th.—Constructing a timber bridge with masonry abutments at the 5th mile of the Jagatsingpore to Jajpore road.

6th.—Constructing a road from Brasma to Taldanda road.

7th.—Re-constructing the broken bridge on the 9th mile of the Kuakhia to Jajpore road.

8th.—Construction of a pucca inspection bungalow at 64th mile of the Chandbally road.

9th.—Constructing a halting place at 66th mile of the Chandbally road.

10th.—Constructing landing stages at the ghâts or ferries.

11th.—Repairs of Golarahat road.

12th.—Construction of the Road Cess Office (remaining portion).

13th.—Ordinary repairs and construction of village roads wherever necessary.

14th.—Planting trees along district roads as far as funds will permit.

15th.—Ordinary maintenance and repairs to district roads, including bridges and causeways.

8. Appendix A shows the number of the road cess meetings held during the year, attendance of the official and non-official members, and other particulars. It will be seen that the meetings were never so numerously attended as could be wished. At Kendrapara about two-thirds of the members on the average attended, at Cuttack upwards of one-third, and at Jajpore about one-seventh. The Collector and Chairman reports that the non-official members who attended the meetings thoroughly discussed every subject which was laid before them, and that he has derived great assistance from the non-official members of the Committee, both from their advice and their readiness to undertake charge of any small village road work within their estate or their neighbourhood. Seven meetings were held at Cuttack, four at Jajpore and two at Kendrapara. The Executive Engineer is reported to have attended only two of the meetings in the course of the year.

9. Cuttack working establishment stands in need of revision. Under the orders of Government recently communicated to the Committee the post of District Engineer must be considered to be vacant. The officer now employed (Mr. Serres) can only be allowed to continue in the post until a properly qualified and competent man can be found. I regret the necessity of removing Mr. Serres, as, though he may not be up to the required professional standard, he is an active, intelligent, and reliable man, practically good and useful. Two of the lower subordinates are also reported to be indolent and disobedient, and stand warned to be removed on any future shortcomings on their part.

12. The road from Atharanala to sea-beach was transferred to the Road Cess Department in April last. The work was taken up immediately on its transfer, and a sum of Rs. 2,927 was spent in repairing and metalling a portion of the road, *i e* from the sea-beach to the police lines during the year. The other portion of the road has been taken up from the commencement of 1877-78, and will be shortly completed.

13. All the roads in the district had their due share of attention paid to them and were maintained in a fair state of repair.

14 The following are the works proposed to be carried out during 1877-78 :—

	Rs.
Repairing the first portion of the road from Atharanala to sea-beach	4,030
Repairs to the inspection huts situated on the Bagmari and Banpore road	109
Repairs to the inspection bungalow situated on Khoordah and Kalapathe road	312
Repairs to the inspection bungalow at Gope	69

Village Roads.

	Rs.
Thana Pooree	100
„ Piply	100
„ Gope	100
„ Tanghy	50
„ Banpore	50
Remodelling Delang bridge	1,026
Compensation to be paid for acquiring land for roads	1,178

Relief Works.

Repairing Balugan and Banpore road	6,541
Constructing a road from Barakcoodi to Rorang	5,606

15. There were 12 meetings of the District Committee during the year. With the exception of five individuals, three of whom were non-resident members, almost all the members attended the meetings. It is to be much regretted that at no one of the meetings the Executive Engineer, Orissa Division, was present.

16. Three meetings were convened by the Branch Committee at Khoordah. The percentage of attendance to whole Committee was 58·3. The working of the Branch Committee was on the whole satisfactory.

BALASORE DISTRICT.

17. Only one original work was executed during the year—namely, the Barpada and Maraigaon road, a work intended to open up the Tributary State of Keunjhar. The estimate of this work was Rs. 1,500, and Rs. 1,492-15-9 have been expended. The earthwork of the whole line, 11¾ miles in length, has now been completed. Culverts and causeways will be added as funds permit.

Repairs.

18. In the budget Rs. 18,509 were provided for maintenance and repairs, but under this head Rs. 15,907-11-9 have been expended during the year. The statements appended to the district reports will show in full detail the nature, quantity, rates, and cost of all work executed on the district roads throughout the year.

19. A brief summary of the works done and the amount expended on each road is subjoined:—

NAME OF ROAD.	Amount expended.	Works done.
	Rs. a. p.	
1. Port road	199 6 0	The road has been metalled, the side drains have been cleaned, and petty repairs done to the masonry culverts.
2. Road from Balasore to Mitrapore	556 15 0	Road surface smoothened and ruts and gaps filled in. The first two miles from Balasore thana repaired with laterite metal, &c.
3. Road from Balasore to Baleramgari	600 9 6	Road surface smoothened and gaps filled in. Before the damage done by the flood in July 1877, more than three-fourths of a mile repaired with laterite metal. The jetty near the mouth of the Burrabullang repaired.
4. Road from Sereh to Charakmari	199 14 11	Petty repairs have been done to the first mile and the 1st half of the second mile, and about 1,000 feet have been metalled. Repairs have been done to the plastering of the stone bridge.
5. Bheshergunge, or short round	100 0 0	About a mile of the road has been metalled and the side drains have been cleaned.
6. Distillery road	199 13 7	About three furlongs of the road have been metalled and petty repairs done to the first mile. The wooden bridge has been repaired and tarred.
7. Sobharampore, or long round	200 0 0	The road has been metalled to a distance of 1½ miles and the side drains cleaned.
8. Jellasore to Santipore	176 2 6	29,283 c. ft. of earthwork and 17,000 s. ft. of turfing executed and metal laid down on low portions of the road.
9. Road from Basta and Pelapal	1,344 12 10	Causeways repaired and one in the 8th mile lengthened. The side cuttings at the approaches of the timber bridge over Pejgolia nullah have been filled in and an obstructing tongue of land in the nullah removed.
10. Road from Berhampore to Garpada	200 0 0	The road surface was smoothened and a length of nearly 1,400 feet in the Berhampore village was brick-soled and metalled.

The following other roads were repaired during the year, *vide* particulars in the statement appended to the district report referred to above:—

11. Road from Balasore to Basudebpore.
12. „ Soroh to Anantpore.
13. „ Soroh to Kopari.
14. „ Ranitalao to Kopari.
15. „ Bhudruck to Agurpara.
16. Bhudruck station roads.
17. Road from Barikpore to Dhamnuggur.
18. „ Bhudruck to Chandbally.
19. „ Barang to Basudebpore.
20. „ Turkia to Kamarda.
21. „ Baliapal to Kamarda.
22. „ Singla to Mangleswar.
23. „ Kopari to Agurpara.
24. „ Sanaranji to Rowpore.
25. „ Banagaon to Talpada.
26. Village roads in Bhudruck sub-division.
33. Road from Barpada to Maraigaon ferries.

Regarding village roads, the Collector reports thus:—

"The expenditure on village roads have been much larger than shown in the table, which only exhibits expenditure regularly accounted for before the close of the year. Grants entrusted to private persons for expenditure under this head are much appreciated and are generally spent to the utmost possible advantage, but the accounts of village roads expenditure cannot be obtained with the same punctuality as those furnished by salaried officers."

20. In addition to the works executed from the road cess funds, the Shulwar and Kalma road, for which Rs. 7,000 were paid by the Maharajah of Mohurbhunj, as was noticed in paragraph 14 of last year's report, has been completed. This is a road designed to connect the important Mohurbhunj territory and its capital, Barpada, with the Orissa trunk road near Balasore.

The prosecution of this work was a matter of special difficulty, as it was necessary to provide for the escape of a large portion of the flood spill of Burraballang river; but the work has been successfully accomplished under the able supervision of Mr. Vertannes, Executive Engineer, Balasore Survey Division. Causeways aggregating over a mile in length have been constructed, and a weir has been built over the Nizampore nullah, which serves as a bridge and viaduct, and also allows the flood water to pass over it without injury. The whole cost of this road has been defrayed by the Maharajah of Mohurbhunj, and the result is very creditable to the Maharajah's public spirit and liberality.

21. The following works are proposed to be done during the road cess year 1877-78:—

Land will be acquired for the construction of three new roads. It will be demarcated in a durable manner, and the earthwork necessary for raising the roads will be executed as far as funds will permit.

The names of the roads and the allotments to each are shown below:—

Number of Road.	Name of Road.	Allotment for 1877-78.
		Rs.
35.	Singla branch road	230
36.	Uttereshwar to Gopinathpore road	2,100
37.	Jamjhari to Basudebpore road	3,200

The Singla branch road is designed to connect the Singla market (one of the most important in the district), the Singla police outpost, salt warehouse, and village with the Busta and Baliapal road. The Uttereshwar to Gopinathpore road is designed to traverse killah Talmunda and killah Mungulpore, and to connect a large sub-mountainous tract on the western side of the Balasore district, including the above killahs and killah Patna with the trunk road at Soroh. The Jamjhari and Basudebpore road will run in a south-easterly direction from Jamjhari on the trunk road to the police station of Basudebpore. This road is much required for the purpose of connecting with the trunk road the posts of Chooramun and Lachanpore, the large villages adjacent to Basudebpore, and the salt-manufacturing tracts along the east coast.

22. The following allotments are made for the maintenance and repairs of existing roads during 1877-78:—

		Rs.
1.	Port road	400
2.	Balasore to Mitrapore (Remua road)	500
3.	Balasore to Balramgari road	700
4.	Soroh to Charakmari (Soroh loop road)	100
5.	Bhaskargunge road (short round)	200
6.	Distillery road	250
7.	Sobharampore road (long round)	100

		Rs.
8.	Jellasore to Santipore	400
9.	Busta to Baliapal road	1,000
10.	Berhampore to Garpada road	150
11.	Balasore to Basudebpore road (salt road)	800
12.	Soroh to Anantpore road	350
13.	Ditto to Kopra, *vid* Turigaria road	1,000
14.	Ranitalao to Kopari, *vid* Arampia road	500
15.	Agurpara to Bhudruck road	600
16.	Bhudruck station roads	500
17.	Barikpore to Dhamnuggur road	300
18.	Bhudruck to Chandbally road	2,000
19.	Barang to Basudebpore road	800
20.	Turkia to Kamarda road	1,000
21.	Baliapal to Kamarda road	600
22.	Singla to Mangleswar road	25
23.	Kopari to Agurpara road	100
24.	Sanaranji to Cowpore road	50
25.	Banagaon to Talpada road	200
26.	Village roads in Bhudruck sub-division	300
27.	Ditto in Balasore ditto	490
33	Barapada to Maraigaon road	1,000

23. The principle on which new roads are aligned in the Balasore district is thus described by the Collector:—"The long and straggling configuration of this district renders it a very much more expensive undertaking to provide fully for its wants in the way of roads than is the case in more compact districts. Already the district roads cover the very considerable mileage of 277 miles, and to prevent this mileage extending to an inordinate length it is necessary to bear in mind, and to adhere as rigidly as possible to, the principle that the Orissa trunk road, which bisects the district throughout its entire length, should be treated as the principal line of communication, and with the district roads joined to it on both sides as feeders. Accordingly, unless very special circumstances require a deviation from this rule, I align all the new roads, whether leading from the sub-mountainous tracts on the west or from the littoral tracts on the east, so as to join the trunk road as nearly at right angles as possible. When the district scheme of roads is complete it will somewhat resemble a skeleton, the trunk road representing the spine and the district roads the ribs."

24. The Road Cess Committee held 12 meetings during the year, and the attendance of the members was on the whole fair. The Collector writes on the subject thus:—

"The working of the Committee continues to be attended with as great a degree of success as could reasonably be expected. The rates are voted cheerfully; no obstruction is offered to the prompt and regular disposal of business. The non-official members take pleasure in attending and listening to what is going on; they occasionally do a little work in the way of auditing accounts; and when they are acquainted with a locality under discussion they express their opinions with tolerable freeness."

25. Generally speaking, the funds of each district have been judiciously distributed and economically expended on works of real benefit to the country.

The 6th May 1878.

E. C. GEORGE, *Post-Master, Calcutta.*
CALCUTTA, the 6th May 1878.

IF it is desired to insure a registered letter or parcel—Close the letter or parcel securely. If it is a letter, seal it in the centre and at the four corners of the envelope (which should be a substantial one) with distinct impressions of some device other than that of a current coin. If it is a parcel, pack it in cloth, wax-cloth, or tin, and if packed in cloth or wax-cloth, put similar seals at intervals not exceeding 3 inches along the lines of sewing.

Prepay the postage (as for a registered letter or for a parcel) by affixing postage labels. Certify the declared value in words and figures immediately above the address: for example "Certified value two hundred and seventeen (217) rupees."

Present the letter or parcel at the Post Office window during registration hours with a declaration* of the nature and value of the contents and with money to pay the insurance fee at the following rates:—

When the value certified does not exceed Rs. 10, 1 anna.
„ „ „ 25, 2 annas.
„ „ „ 50, 4 „
„ „ „ 75, 6 „
„ „ „ 100, 8 „

and 8 annas for every additional Rs. 100 or fraction thereof.

*SPECIMEN OF DECLARATION.

This letter (or parcel) addressed to
Major G. H. CHANTLEY,
16TH HUSSARS,
Muttra,

is declared by us, the senders, to contain the following articles, viz.—

A gold ring, value	...	Rs. 110
And currency note No. E 46869	Rs. 20	20
12	—	—
Total value	..	130

Signature, and Date.

The Post Office receipt will acknowledge the insurance.

The Post Office is prohibited by rule from receiving valuables (such as coins, jewellery, &c.) for transmission by post in either letters or parcels *unless they are insured.*

If it is desired that the value of the contents of a parcel should be recovered from the addressee and paid to the *sender*—Close the parcel carefully and seal it as described above for insured parcels. Present it at the Post Office window within registration hours with a memorandum containing:

The name and address of the sender in full.
The name and address of the addressee in full.
Value of the contents recoverable from the addressee.
Date of posting.

Prepayment of the parcel is optional.

The Post Office receipt will show the value recoverable from the addressee, and give all needful information with regard to the payment to the sender.

If it is desired to obtain an acknowledgment from the addressee of a registered article or parcel—Fix additional stamps of the value of one anna on the registered article or the parcel, and present it at the Post Office window within registration hours, furnishing in writing or verbally the name and full address of the sender. The Post Office receipt will indicate that an acknowledgment is due.

If a certificate of posting is desired—Write a copy of the address as given on the article on a slip of paper or in a book and affix a half-anna postage label to it. Present the article and the written copy of the address at the Post Office window at least half an hour before the hour fixed for closing the mail for which it is intended. The Post Office will stamp the written copy as a certificate of the posting of the article. This certificate will not obtain for the article any special security in transit; it is merely a certificate of posting, the article being treated like any other article put in the letter box. This rule does not apply to registered articles and parcels for which *receipts* are given.

N. B.—The grant of certificates of posting will commence from the 1st April 1878.

OFFICE OF THE DIRECTOR-GENERAL OF THE POST OFFICE OF INDIA, 21st March 1878.

IMPROVEMENT OF DRAINAGE OF TOWNS AND VILLAGES IN BENGAL.

FINANCIAL DEPARTMENT.—SANITATION.

Calcutta, the 29th April 1878.

READ—

A letter dated 9th April 1878, from Rajah Degumber Mitter, C.S.I., explaining his views as to the causes of the epidemic fever which from time to time appears in different parts of Bengal, and containing his suggestions for its prevention.

Read again—

Government Circular No. 28, dated 7th August 1877, regarding the improvement of the drainage of towns and villages in Bengal with a view to preventing the unhealthiness caused by obstructed drainage, and consequent dampness of the sub-soil.

THE improvement of the drainage of towns and of village sites is a subject to which the Lieutenant-Governor attaches the greatest importance, and in his opinion there is no room for doubt that one, at least, of the chief causes of unhealthiness in Bengal, and of the fevers which in late years have done so much injury and have caused so much misery, suffering, and mortality among the people of large tracts of country, is the excessive humidity of the soil caused by obstruction to drainage.

2. The obstruction is no doubt in some cases caused by roads, railroads, or embankments, and it is the duty of the Magistrates, as well as of all other officers possessing local influence or authority, to see that such obstructions are remedied by the provision of a sufficient amount of waterway by means of culverts and bridges. The value of these culverts and bridges is much enhanced when they are accompanied by drains leading into them constructed

along the sides of the obstructing embankment, and when care is taken to secure sufficient drainage on the lower side of the embankment to carry off the water to the nearest bheel or river.

3. But the obstruction to drainage caused by artificial means is of trifling importance in comparison with the natural obstruction caused by the silting up, or destruction in other ways, of old water-courses, through which the surplus drainage from the villages flowed to the neighbouring lowlands, and the surplus water of these lowlands was carried into rivers or other natural outlets.

4. Experience in a number of large stations has lately shown that fever has been not unfrequently brought into such places by an entire indifference on the part of the local authorities and of municipal bodies to the important question of obstructed drainage, and that thereby excessive suffering and mortality have been caused. There is no doubt very great truth in the theory, which has so often and so strongly been insisted upon by Rajah Degumber Mitter, that the natural course of the drainage of Bengal villages is too often overlooked in investigating the causes of outbreaks of fever. The natural condition of that drainage is very correctly described in the following paragraphs of the Rajah's letter of 9th instant:—

"My next inquiry was devoted towards the drainage condition of the fever-stricken villages, as this abnormal dampness must, I concluded, be owing to excessive or unusual absorption of the periodical rainfall in the sub-soil of those villages. As nature has blessed or cursed this land with a periodical rainfall of 60 to 70 inches within three or four months, she has also provided it with a beautiful and simple drainage system whereby to get rid of this large quantity of water from the village site. The natural drainage system of the country, as I have stated on page 5 of the pamphlet, is as follows:—

"'The drainage of all the villages in the epidemic districts, as elsewhere in Lower Bengal, is effected by the water first running into the nearest paddy-fields lying in the direction of their slope; thence it collects in the bheels, from which it rushes through khals into larger streams, which again communicate with navigable rivers. An obstruction occurring in any one of these conduits must interfere with the drainage, and its effects are felt more or less according to the proximity or remoteness of the obstruction from the scene of its influence. Accordingly, it has been found, as will be noticed more particularly hereafter, that the stoppage of the mouths of the different streams has not been productive of such serious consequences to the villages lying within their influence, as when the same occurred more in the vicinity of those villages.'

"There is scarcely a single village in Lower Bengal which has not a paddy-field or bheel adjoining, or in close proximity to it, indicating at once which way the slope of the village runs. We also know as an undeniable physical fact that the river-bank being high, the slope of the villages lying on it is necessarily inland. Bearing these physical peculiarities of the country in mind, one can easily trace, without taking levels or calling in the aid of a professional engineer, whether any obstruction has been offered to the drainage of a particular village in its flow to its natural outfall.

"In prosecuting any inquiry into the drainage condition of some of the fever-stricken villages according to the laws stated above, I found in every instance, not only that obstruction had been offered to the flow of the monsoon water from the village to its natural outlet, but that the virulence of the fever and the interval which preceded its outbreak were regulated according to the proximity or remoteness of the obstruction from the scene of its influence."

5. Under existing laws, Collectors, Magistrates, and Municipal bodies have ample powers for dealing with the evil. In the great majority of cases expensive works are not required: very often indeed the expenditure of a few hundred rupees will give relief to thousands of suffering human beings. No doubt it may be urged that, as the money expenditure in most cases would be so small, the sufferers might reasonably be expected to help themselves, but the knowledge which all Magistrates must possess of the habits of the people will satisfy them that associated labour for the public good is not generally to be expected in the present day from native populations. What is required to be done must for the most part be done either wholly or in part by public officers or public bodies.

6. The Lieutenant-Governor relies upon all Commissioners and District Officers to take up this matter in an earnest spirit. It is a subject in which

the District Road Committees ought to be able to give much real and useful assistance, and even if their funds cannot be employed on such works, there is no reason why their engineering staff should not render valuable assistance in laying out and devising village drains, since they must often, in the course of their ordinary duties, come upon villages in which a small and inexpensive drain would render a whole village healthy.

7. Another subject which deserves the careful and anxious attention of District Officers is the supply of good drinking-water. Where public funds are not available there will frequently be found men of public spirit ready and anxious to co-operate with the Magistrate in the excavation of tanks, a work which has always been looked upon in India as a work of merit. Large sums of money are expended in this way every year, but it is feared that much of it is wasted by the excavation of tanks in places where they are not wanted, while other places greatly in need of water are overlooked. In respect to the selection of sites for tanks, it is always in the power of the Magistrate to exercise a very useful and beneficial influence on those who are charitably disposed.

8. Whenever a really useful scheme is proposed to improve the drainage, or to provide pure drinking-water, Mr. Eden will always be willing to assist District Officers and public bodies by grants-in-aid to enable them to improve the condition of the people, so far as the funds at his disposal will permit. Considerable grants have already been promised this year for this purpose, and no more proper or legitimate mode of expending any surplus which may accrue from the Public Works Cess could be devised.

ORDER.—Ordered, that a copy of this Resolution, together with a copy of Rajah Degumber Mitter's letter, be forwarded to all Commissioners for information and guidance.

By order of the Lieutenant-Governor of Bengal,

D. BARBOUR,

Offg. Secretary to the Govt. of Bengal.

NOTES ON THE NAVIGATION OF THE RIVER MEGNA, DESCRIPTIVE OF THE PASSAGE BETWEEN CHITTAGONG AND DACCA, BASED UPON A CURSORY SURVEY OF THE CHANNELS DURING THE MONTH OF MARCH 1876.

BY MR. F. LAYCOCK, RIVER SURVEYOR.

THE navigation from Chittagong by Sundeep and the Megna channels to Naraingunge, with the aid of an intelligent native pilot, is practicable for vessels of a draught not exceeding 15 feet.

From the entrance between Seetakoond Hill and the north end of Sundeep Island, there is a distance of 70 miles of more or less shoal water, with four bars and anchorages between.

A steamer leaving Sundeep anchorage at first quarter flood would easily accomplish this distance in one tide. But with a sailing vessel it would be more tedious navigation, and caution would be required not to pass beyond the anchorage between the bars, without a good chance of crossing the next bar before the tide fell too low.

The whole distance from the entrance of Chittagong river to Naraingunge by this route is 100 miles; and, with attention to the tide, it could be done by a steamer in two working days.

There are several native pilots at Chittagong regularly employed in the coasting craft. The one I engaged at Naraingunge from a Chittagong brig was an intelligent man, with a clear knowledge of the navigation and peculiarities of the channels.

On account of the changeable nature of the bars and channels at the entrance, it would be advisable to keep one or more pilots stationed at Bidon, or about the entrance of Peer Bux Nulla, to make frequent examinations of the channels at low water, ascertaining the changes, and giving information as to the deepest crossings over the bars from Sundeep to Bowney. A few tide-guages, beacons, and buoys would also be required.

The present state of the channels and sands has only been ascertained from a cursory survey.

The following sailing directions will be found useful and a good guide for navigation

The information therein contained is applicable only to the dry season.

No doubt during the rains there is much more water and greater tidal influence. I believe the navigation to be practicable for steamers all the year round.

Sailing Directions for the River Megna.

Vessels wishing to proceed up the Megna river for Naraingunge should first make the entrance of the Chittagong river, and having procured a native pilot there, should then steer up along the coast north-west by north (magnetic) for about 25 miles, until the following position in four fathoms low water is reached:—Great Trigonometrical Survey mark on Seetakoond Hill bearing north-east by east; north end of Sundeep Island, west north-west; and the entrance of the Fenny river open bearing north by west.

Here if the tide is falling or the day far advanced a vessel should anchor.

Weighing from this anchorage on first quarter flood, a north-west by west course should be steered for the north-east point of Bidon Island, care being taken to allow for the strong set of the tide into the Fenny river, and amongst the churs to the eastward. The bar below the north-east point of Bidon is shoal. Soundings from four to twelve feet reduced will be found; the rise of tide during the dry season is 18 feet on springs, 15 feet neaps.

After rounding the north-east point of Bidon at a distance of about half a mile, a course may be steered along the Bidon shore in deep water, the channel varying in width from 200 to 80 yards. Sands to the eastward are steep-to; the lead should be attended to. If there is not sufficient flood to carry the vessel across the bar between Seedey and Bowney, good anchorage in four to six fathoms low water will be found abreast the nullah that divides Seedey and Bidon.

From above the south-east point of Seedey Island a series of shoals and gulleys extend across to the opposite bank of the river near Bowney. The changes here are very frequent, so that it is advisable to obtain information from the fishermen or ferry boatmen about Seedey and Bidon as to the deepest crossing; there is often not more than three feet at low water, so the passage must be taken at high tide.

Leaving the south-east point of Seedey, a north-west by west course should be steered until the north shore of Seedey is well open; then haul more over to the westward and make the northern bank to the westward of Bowney at Chiringa.

From Chiringa the channel runs north-east and south-west along shore, till the extreme south point to the westward is approached. It varies in width from 80 to 300 yards. Anchorage near the shore will be found in four to six fathoms low water.

A sand, dry at low water, extends a long distance to the southward of the point below Noakholly khal, and a bar from it to the Toom chur. This bar is about three miles across with six feet reduced. After deepening to the westward of the bar, haul up for the eastern bank so as to make it to the westward of the entrance of the Noakholly khal. There is then a good channel along the eastern bank one to one-half miles wide, deep water along the shore shoaling gradually towards the edge of the sand to the westward. After passing the entrance of Mahendra khal, a distance of about 18 miles beyond Noakholly, a mid-channel course should be steered to the westward, passing to the northward of Narnush chur across the bar, extending from the shore below Bhowanigunge nullah over to the Narnush and Falcon churs, the bar is three miles across with nine feet reduced. After deepening to the westward the channel continues in a north-westerly direction, past the churs facing the north-east end of Dakhin Shahbazpore Island and entrance of Kaloopore nullah, to beyond the north opening of the Ilsha river. The soundings vary from 12 to 15 feet low water.

After passing the mouth of the Ilsha river, a more northerly course must be steered to avoid the shoal flat extending out from the western shore about Dowladee. The lead is a good guide, and the limit of the channel to the eastward is marked by the high churs, which may be approached within half a mile.

When the south entrance of the Nowa Baugnee river is opened below Jaunpore chur, haul over to the north-west for it, and deep water will be found with a good wide channel along the western side up to Bherokandee at the junction of the Bhaero and Pudda rivers.

Here the channel crosses over to the eastern side, and a north-east course must be steered for the prominent point above Nursingpore. An extensive sand fronts the east side of the Bagha chur up to the north-east point, until the Pudda river is well open; but the channel over to the north-eastward is deep from four to six fathoms low water. And from this junction of the Pudda and Megna, vessels may take the route round to the eastward of the Ballisur chur by Chandpore, or up the Pudda, and through the Kutchee Kutta to the westward of Ballisur chur. The latter is a very narrow route, principally used by inland steamers as a short cut and a sheltered anchorage.

The route to the eastward by Chandpore is preferable, being wide and deep. Using this passage, vessels should keep close round the point above Nursingpore, and along the eastern bank in deep water, past the entrance of Chandpore khal, until the Ameeraban khal is opened. Then haul over to the westward for the north end of Ballisur chur, passing midway between the four small churs to westward of Ameeraban, leaving two on the right and two on the left, making the western bank of the river a little above the north entrance to the Kutchee Kutta.

From this there is a fair channel along the western bank, bounded to the eastward by high churs. The depths of water vary from three to six fathoms low water, and there is ample room for vessels of moderate size and draught to work with safety.

At the junction of the Dullarey with the Megna the channel becomes narrow, and the deep water will be found along the eastern side, along by the villages of Soonakandah and Muddengunge, abreast which vessels could anchor and swing with safety. If wishing to enter the Luckia, and lay off Naraingunge, they might cross the bar at the entrance of the Lucka at high water, and moor abreast the town near the western bank above the Seeta Luckia khall.

Bars in the Megna.—There are four bars, as follows:—

Sundeep bar, from abreast the north end of Sundeep Island to the north-east point Bidon Island, changeable. Soundings four to twelve feet low water. Rise 18 feet springs, 15 feet neaps.

Seedey bar, from north-east side of Seedey Island over to opposite shore to the westward of Bowney. Very changeable and shallow. Rise and fall as at Sundeep.

Noakholly bar, from extreme south point below Noakholly khall over to Toom chur. Six feet low water. Rise and fall ten feet springs, eight neaps.

Bhowanigunge bar, from below Bhowanigunge nullah over to Narnush and Falcon churs. Nine feet low water. Rise as at Noakholly bar.

Tides.—The tides in the Megna river during the dry season are strongest, and rise highest in the outer channels between Noakholly and Sundeep. The floods have the greatest velocity.

Above Sundeep they set generally in the direction of the channels. Below the north end of Sundeep the floods set strong towards the entrance of the Fenny river, particularly on the eastern or Chittagong side.

The rise of tide on the springs, month of March, at east side of Bidon, is 18 feet. High water full and change two hours, about one hour may be allowed as far as the entrance of Ilsha river, as difference of high water for every 20 miles.

The velocity at Bidon in the channel on the springs is five knots flood, three ebb; but strong winds with or against the tide would retard or accelerate it materially.

At Seetakoolly khal the rise and fall is ten feet springs, eight feet neaps. Velocity same as at Bidon.

At the south entrance Nowa Baugnee river, the tidal influences decrease, and the water is clear. Rise nine feet springs, six feet neaps. Velocity, flood three knots, ebb two knots.

At Chandpore and Katchee Kutta junction of Pudda and Megna, rise on springs five feet, neaps three feet. Velocity, flood and ebbs, two knots.

At Naraingunge rise and velocity same as Chandpore. High water full and change, about ten hours.

Bores.—The bores in the outer channels of the Megna are very severe.

Their influence is felt from the commencement of the shallow water outside Sundeep as far up the river as the south entrance of the Nowa Baugnee. I did not observe it higher up, and the natives say that is about the limit of their force.

Rushing over the shoals with great violence on a high crested wave, the bore from the Sundeep channel meets that coming up between Hattyah and west side of Sundeep, at the north end of Seedey Island. They there form a large whirlpool that would be fatal to any craft caught in it. It then sweeps along with irresistable force over the sands about Falcon chur, and along the western side to Dukhin Shahbazpore, losing its force in the deep water about the Jaunpore chur.

I am informed that they occur nearly all the year round on the spring tides, the months from November to March being the exception. They are heaviest during the months of August, September, and October.

Great care should be taken not to anchor in shallow water during this period, which is generally for four days—two before and two after full and change.

The country trading boats generally suspend navigation and lay up in creeks out of the influence when bores are expected.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 4th May 1878.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, May 4 '78	4·18	Weather—Unusually cool in consequence of daily storms Public health is fair.
	Cutwa	2·76	
	Bood-Bood	0·44	
	Culna	3·27	
	Jehanabad	2·08	
2	Bankoora, „ 4 „	1·41	Severe thunder and dust-storms every afternoon since the 1st, with violent wind and rain. The rain has done the country good. From the present high price of rice some pressure may be expected before the next crop. Scattered cases of small-pox, measles and cholera, also of cattle disease, are reported.
3	Beerbhoom, „ 6* „	0·26	Weather—still cool and pleasant. No change to report in the state and prospects of the crops.
4	Midnapore, „ 4 „	1·25	Weather—Clear and hot with occasional storms in the evening. The state and prospects of the crops are fair. A few cases of cholera have occurred in the town.
5	Hooghly, „ 4 „	2·49	Storms in the evening of the 30th ultimo and of the 1st instant. Generally cloudy in the evening with rain Heavy rain on the 1st. Atmosphere generally hot in the day time, but cool in the evening The sowings of *aus*, indigo, and jute are going on The newly planted sugarcane and the vegetables are generally doing well. Sesamum has germinated. A few cases of small-pox have been reported from the interior. Cattle disease still prevails in station Baneberia.
	Howrah. „ 6* „	5·05	Weather—much cooler than last week The rain in Mohesrakha, though not so heavy as at the Sudder, has this week been sufficient for cultivation, and prospects are favorable.
	Central Districts		
PRESIDENCY DIVN. 6	24-Pergunnahs, May 4 '78	3·97	The temperature has been cooled during the last three days by thunderstorm each evening The rain has been general throughout the district, but nowhere so heavy as at head quarters. It has been most favorable for agricultural purposes. Cholera still continues Cattle disease is reported from Satkhira.
7	Nuddea. „ 4 „	2·50	Weather—Not very warm Storms with rain. The early rice has generally been sown and is germinating, but in some localities it is said that the rain has been too heavy for the young seedlings.
8	Jessore, „ 4 „	5·95	Weather—cool and cloudy Rain almost daily. The prospects of the crops are at present good. There has been quite enough rain now. A little clear weather is wanted, and with it all ought to be well.
	Jhenida	2·06	
	Magoora	2·02	
	Khoolna	2·72	
	Narail	2·23	
	Bagirhat	2·53	
9	Moorshedabad. „ 4 „	0·05	More rain has fallen in the mofussil than at head quarters. The *rubbee* harvest is finished, and the ploughing for *aus* and *aman* is being pushed on Prices are very high, but not higher than before. Cholera is still prevalent. A few cases of small-pox have been reported from Shahanagger.
RAJSHAHYE AND COOCH BEHAR DIVN. 10	Dinagepore „ 3 „	0·36	Weather—Close and stormy The *aus* crop is in fair progress.
11	Rajshahye, „ 4 „	1·38	There has been slight rain all over the district on several days of the week, which has done some good. The heat has considerably lessened. The cutting of *boro dhan* has commenced to the west of the district and will soon become general. The sowing of *dhan* progresses, but more rain is much required to prepare the lands for it. Cholera has abated considerably during the week.
12	Rungpore, „ 3 „	2·84	It has rained four days in the week. The state and prospects of the crops continue to be good. Cholera is still reported from a few places in the district. Public health otherwise is good.
	Gaibanda	2·71	
	Bagdogra	5·33	
13	Bogra. „ 4 „	0·84	Weather—cool for the time of year with some rain towards the end of the week. The crops are reported to be thriving. The rain which fell during the week will do much good. A few cases of cholera have been reported from Shariahandi and Panchbibi, and in the latter fever is still prevalent.
14	Pubna. „ 4 „	0·46	Slight showers of rain have been general in the district and have done some good. Weather favorable and cool. *Boro dhan* is being reaped; the outturn will be about ten annas. The young *jali dhan* is growing and promises a fair outturn. The young sugarcane is coming up strong and healthy. Cholera still prevails.

* Reports of 6th show rainfall during the week ending 4th.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Continued.*)			
	***Central Districts.*—(Contd.)**		
15	Darjeeling, May 4 '78	1·91	A good deal of rain for this time of the year. All the crops in the Hills and in the Terai are progressing favorably.
16	Julpigoree, „ 4 „	3·10	Weather—stormy throughout the week, with high winds and heavy rain. The rain has somewhat damaged the *bhadoi dhan* crop. The *haimanti dhan* is being sown. In Buxa sub-division it is reported that hail during the week has slightly damaged the *kowneo* and *cheena* millets, and that the sowing of *bitri dhan* has been nearly completed.
	Cooch Behar, „ 3 „	Not given	The showers of rain during the week have cooled the atmosphere. On the night of the 29th ultimo a storm raged for a short time. The prospects of *bitri dhan* continue good It will be well if there be no rain for three or four weeks. The sowing of jute has not yet been finished. *Cheena* will soon be harvested. The price of rice has not come down in the town. Prices are also high in the interior. There have been some deaths from cholera.
	Eastern Districts.		
17	Dacca, May 4 „	1·85	Weather—cool for the time of year with almost daily storms. The state and prospects of the crops are favorable.
	Moonsheegunge ...	0·69	
	Manickgunge ...	0·27	
18	Furreedpore, „ 4 „	0·76	The weather during the week has been generally cloudy and very cool for the season. The rain which has fallen has done good. The prospects of the crops are good.
	Goalundo „	0·84	
	Madaripore ...	4·17	
19	Backergunge, „ 3 „	0·45	There has been rain on one or two days in the week throughout the district Weather hot and cloudy. More rain is still wanted, but ploughing is going on. Health is generally improved, but cholera is still bad in the north-east. Cattle disease is reported in one thana.
20	Mymensingh, „ 3 „	2·17	Occasional short storms with heavy rain. The state of the young rice and jute is satisfactory.
21	Tipperah, „ 3 „	0·40	Weather—cloudy, with storms of thunder, lightning, and wind, but with little or no rainfall. The sowing of *aus dhan* is very nearly completed. *Aman dhan* is being sown in some places.
	Sub-division ...	0·90	
22	Chittagong, „ 3 „	1·04	Weather—fine, with several showers. The state of the crops is good. The late rain has done much good. Prices are slightly lowered.
23	Noakholly, „ 3 „	0·2	Weather—seasonable Slight rain fell on the night of the 30th. The cultivation of the early rice crop continues, Public health is good.
24	Chittagong Hill Tracts, Apl. 30 „	0·6	Weather—very hot throughout the week. The burning of the jooms is nearly over. The joomias have begun to sow their early seedlings in their jooms. Rain is badly wanted for the *aus* paddy crop.
	Hill Tipperah, May 1 „	0·70	The weather has been very hot during the day, but cool at night. Thunder-storms are frequent The joom cultivation has begun. The sowing of the *aus* crop continues.
BEHAR.			
25	Patna, May 4 '78	0·39	Weather—unusually cool. No change in the state and prospects of the crops since last report.
26	Gya, „ 4 „	0·20	Weather—stormy, overclouded, and muggy. Maximum thermometer in the shade 107·2° No change in the prospects of the crops to report. Prices are rising. *Mohwa* is so much an article of food that the price at the Sudder station has risen from 60 to 18 seers for the rupee.
27	Shahabad „ 4 '78	0·35	Weather—Cloudy and stormy. The sugarcane and *cheena* crops have benefitted by the slight showers of rain which fell during the week. Cholera and small-pox are prevalent towards Buxar and Bubooah sub-divisions
28	Durbhunga, „ 4 „	0·50	Slight showers have fallen in various parts of the district which have done good. In the eastern tracts cholera is on the increase, but in the rest of the district health is good.
29	Monufferpore, „ 4 „	Nil	Weather—cool and unsettled. There have been frequent dust-storms during the week, which have injured the prospects of the mango season. A good deal of maize has been sown in Seetamurhee sub-division, and in other parts of the district preparation of lands for *bhadoi* sowings is going on.
	Hajeepore ...	0·19	
	Seetamurhee ..	0·16	
30	Saran, „ 4 „	0·71	Weather—more or less cloudy, with dust-storms and strong east wind in the evenings There has been slight rain in almost all parts of the district, and a good shower on the night of the 1st at the head-quarters station. Nothing important to report on the state of the crops. Prices have slightly risen. Public health is good.
	Sewan „	0·09	
	Gopalgunge ...	0·30	
31	Champaran „ 4 „	0·59	There has been a slight shower of rain. Weather hot during the day. West winds prevailing. The late rain has benefitted the indigo crop. The *rubbee* has been harvested; the outturn is ten annas as was estimated before. The grain market is steady.

PATNA DIVS.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(Contd.)			
Bhagulpore Division. 32	Monghyr, May 4 '78 Begusarai ...	0·07 0·04	Storms with mild weather. The state and prospects of the crops are the same as before.
33	Bhagulpore „ 4 „	1·40	Weather—cool, rainy, and very unseasonable. This unseasonable rain is enabling the ryots to prepare their lands for the autumn crop. Cholera is dying out.
34	Purneah, „ 4 „ Kissengunge ...	1·45 1 31	Weather—stormy, with constant showers. Wind north-westerly The prospects of the crops are good. The late rains have interfered with the weeding of indigo. Cholera is on the decrease.
35	Maldah, „ 4 „	1·76	Frequent storms preceded by intense heat. Heavy showers with thunder and lightning The rain was much wanted Cultivation for the rice crop is now making rapid progress. The late stormy weather has damaged the mango crop. Prices are still high. Health is good.
36	Sonthal Perghs. „ 5* „ Deoghur ... Godda ... Rajmehal ...	1·35 0·9 0 18 2 5	Weather—very cool for this season of the year. The rain has facilitated ploughing operations.
ORISSA.			
Orissa Divn. 37	Cuttack ...	... ..	Return not received.
38	Pooree, May 2 „	Nil	Weather—hot. The early *dalua* rice is almost harvested. The late *dalua* rice is dying in many places for want of rain. Ploughing for the next crop has stopped. Water in the tanks and wells is failing. Common rice sells at 11½ to 14½ seers per rupee Rice is still exported by land to the Madras Presidency. Cholera is reported from some parts of the district.
39	Balasore, „ 3 „	2·35	Thunderstorms accompanied by rain have been frequent. The weather continues favorable for cultivation, and ploughing and sowing are making good progress Public health is good.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh, May 3 '78	0·30	Weather—Unsettled; unseasonable. No change to report. Prospects have not improved. The prices of food-grains are extremely high. Cases of cholera and small-pox are still reported.
41	Lohardugga, „ 4 „	0 30	Weather—seasonable and warm during the first part of the week; cool again since the last two days owing to recent rain. The lands are being ploughed all over the district, and *gora dhan* and *goondli* are being sown. The prices of all food-grains are very high, and are reported to be still rising in Palamow. The Sub-Divisional Officer also states that the supplies in the markets are weekly getting less. There is a good deal of small-pox about and in Palamow; otherwise the health of the district is generally good. A great deal of mortality among cattle is reported in Palamow and other parts of the district.
42	Singbhoom, „ 3 „	1·00	The whole week has been very hot, but on the 2nd it rained heavily and this has made the weather cool and pleasant. Apparently there is more rain in store. Everything is satisfactory. A few cases of cholera are still reported from the mofussil.
43	Manbhoom, „ 4 „	0 11	Weather—stormy during the week. Nothing new to report about the crops. Ploughing is going on. From enquiries made in different parts of the district, there is reason to believe that persons unfit for regular labour, and those who in ordinary seasons are dependent on charity, will suffer. Ryots are believed to be well off. Strong labourers will emigrate and are emigrating.

* Report of 5th shows rainfall during the week ending 4th.

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of the observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1° or 1½° lower; and finally, the thermometer, which has furnished the record of temperature, at the Surveyor General's Office during the last 20 years and upwards, is found to read 0·6° higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 113.

The 13th May 1878.

UNDER Section 89 of Act X. (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Chittagong, Noakholly, and of the Deputy Commissioner of Chittagong Hill Tracts, of works done and in progress during the past cess year 1876-77, together with the remarks thereon of the Commissioner of the Chittagong Division, are published for general information.

J. E. T. NICOLLS, *Major-General*, R.E.,
Secretary to the Govt. of Bengal
in the Public Works Department.

No. 35L., dated Chittagong, the 5th January 1878.

From—G. M. CURRIE, Esq., Chairman of the District Road Committee, Chittagong,
To—The Commissioner of the Chittagong Division.

I HAVE the honor to submit the following report on the operations of the Road Cess Committee of this district, together with a detailed account of their receipts and expenditure during the road cess year 1876-77.

The Committee consisted of the following six official and ten non-official members. Six meetings were held during the year, and the number of meetings attended by each member is noted against his name:—

Official.	No. of meetings attended.	*Non-official.*	No. of meetings attended.
The Magistrate and Chairman ...	6	R. Macalpine, Esq. ...	0
The Senior Assistant to Collector ...	2	W. A. Campbell, Esq. ...	0
Baboo N. C. Sen, Vice-Chairman ...	2	Baboo K. P. Nazari ...	4
F. E. Pargiter, Esq., Assistant Collector, in charge of establishment ...	6	„ L. C. Chowdhury ...	4
		Shaikh Abdul Malum ...	5
		Meah Ashanullah Chowdhury ...	1
Baboo K. M. Bose, Executive Engineer ...	2	Baboo G. M. Ghose ...	1
		„ R. C. Rai ...	0
F. T. Platts, Esq., District Superintendent ...	2	Mobaruk Ali Chowdhury ...	0
		Abdullah Khan ...	0

An abstract of the attendance in the prescribed form is appended.

3. Of the members who, as shown by the above list, did not attend any meetings, Mr. Macalpine was compelled to re-visit England through ill-health early in the year and has since died there; and Mr. Campbell, though absent from meetings, gave the Committee valuable assistance in connexion with repairs of the roads. The other three members, Baboo R. C. Rai, Mobaruk Ali Chowdhury and Abdullah Khan, evinced no interest in the work either during the year under report or during the previous year. It would be a gain to the Committee to have their names removed from the list, and their places supplied by abler and more enlightened gentlemen.

4. The estimated and actual receipts of the year contrasted stand thus:—

	Estimated.	Actual.
	Rs.	Rs.
(1) Fines under D 6	... 600	3,563
(2) Miscellaneous cesses	... 400	237
(3) Ferry tolls	... 8,732	6,262
(4) Canal tolls	... 7,140	5,538
(5) Grant from Government ...	... 10,000	10,000
(6) Miscellaneous receipts ...	... 2,034	816
	28,906	26,416
Balance in hand at beginning of year ...	... 2,343	2,343
Total	... 31,249	28,759

5. It is, therefore, seen that the actual income has fallen short of the estimated by Rs. 2,490; the reasons for the larger differences are as follow :—

6. *As regards fines.*—The results of the preceding year were an uncertain guide to the probable income under this head. Very little was realized then, partly through the difficulties attending their recovery, and partly on account of the non-perception at first of the importance of compelling the landholders to send in returns of their estates. During the year under report much attention was paid to the matter, and the law was actively put in force. Hence it was impossible to estimate with any degree of certainty from the receipts of the previous year the probable receipts of the year; and to this must be added the difficulty of forecasting to what extent the people would disregard the requisitions of the law.

7. *Miscellaneous cesses.*—The difference under this head is due to the distress prevalent throughout the district after the late cyclone; many of the zemindars have not paid in their cesses along with Government revenue.

8. *Ferry tolls.*—The same cause has been productive of poor results in this direction too. Rs. 1,271 were paid in during the previous year on account of the year under report; hence the amount to be realized during the latter year was Rs. 7,461. Of this Rs. 6,262 were realized, and there remained a balance of Rs. 1,199. The farmers of three ferries were unable to hold on by reason of the late distress; and on the re-sale of the farms Rs. 476 were lost. At the close of the year, therefore, there were Rs. 723 arrears, out of which Rs. 650 have been recovered since.

9. *Canal tolls.*—Rs. 714 of the estimated receipts were paid in during the previous year. Of the amount for realization (Rs. 6,426), Rs. 4,519 were paid in, and Rs. 620 were lost on the re-sale of the farm of a canal, for the same cause as has diminished the receipts under the last preceding head, and Rs. 1,287 remained in arrear at the close of the year. Rs. 1,019 were paid in advance for the year 1877-78; and this together with the above sum, Rs. 4,519, constitutes the income under this head, Rs. 5,538.

10. *Miscellaneous receipts.*—The realizations were Rs. 1,226. Rs. 400 were refunded to Shaikh Abdul Malum, being the sum he had advanced to the Committee as part of the cost of a road which they undertook to construct. As they were unable to redeem their promise for an indefinite period, they refunded the money to him. Rs. 10 were repaid as fines improperly levied. Rs. 1,000 were due from Government on account of khas mehals, but have not yet been paid by the Collector, the Board's sanction to the disbursement not having been yet given. It will, therefore, be seen that the total receipts under this head are Rs. 2,226.

11. The only source from which the actual has exceeded the estimated income is that of fines: the former being nearly six times the latter. This increase has considerably compensated for the falling off in the receipts from other sources.

12. The following table shows the estimated and actual expenditure of the year :—

	Estimated expenditure.	Actual expenditure.
	Rs.	Rs.
(1) Committee's office establishment	420	415
(2) Road cess establishment	45,591	42,473
(3) Original road works	1,000	877
(4) Maintenance and repairs	4,771	2,450
(5) Road works establishment	2,500	2,322
(6) Ferry establishment	2,232	2,542
Total ...	56,514	51,079

13. As regards road cess establishment, the estimated figures given in the above list are much larger than those entered in the budget originally drawn up for the year. For in November 1876, the Board viewing with dissatisfaction the slow progress of the preliminary work under the Act,—a slow progress, however, altogether unavoidable owing to the unique character of the land tenure of the district,—insisted on its completion by September 1877, and for that purpose sanctioned an establishment four times as large as that entertained from the beginning. This staff was employed till the end of September last, some reductions, however, having been carried out before.

14. The sum of Rs. 1,000 was provided in the budget for original works, but the whole was not expended, the Board having enjoined the stoppage of all outlay on roads so as to devote the money destined therefor to the payment in part of the large establishment employed in preliminary work.

15. Sums were allotted for maintenance and repairs of roads in the first budget, but little or nothing was laid out after the Board's prohibition mentioned in the preceding paragraph. The cyclone and storm-wave that visited the district on 1st November 1877 wrought great havoc and damage to all means of communication, and their dilapidated condition was much increased during the rainy season. At that time most of the bridges were destroyed or were falling to pieces, and the roads were generally impassable. After many representations of the state of the district, sanction was granted to the outlay of Rs. 4,771 for the purpose of rendering the chief lines of road temporarily passable, although the Committee were heavily involved in debt. Repairs were at once pushed on with vigour, and works to the value of Rs. 2,450 were executed before the close of the year. The whole of

the works contemplated were in hand, and have now been finished, but the bills have not been submitted yet.

16. The increase in the cost of the ferry establishment is owing to the payment of the Kumaria ferry establishment for five months of the preceding year, and extra repairs required for the boats of the same ferry on account of the damage inflicted by the cyclone wave.

17. The Committee's financial condition hence stands thus at the close of the year under report:—

	Rs.
Income	28,759
Expenditure	51,079
Deficit of year	22,320
Deficit at beginning of year ...	20,102
Total Deficit ...	42,422

18. The road works of all kinds do not call for particular mention. All that the Committee have been enabled to do is that broken bridges have been replaced by slight temporary bamboo bridges, damaged bridges have been rendered passable by the simplest possible expedients, and the earthworks have been filled in and levelled when broken into or cut up. The roads that have been so repaired are the following:—Ramghar, Arracan, Halisbahar, Tipperah Pass, Chandpore, Sakerapole, Fenoah, Cox's Bazar, Hill Tracts and Moheshkhali Strand Roads, and the Moheshkhali and Boalkhali towing paths.

19. There is no Sub-Committee at Cox's Bazar. The Sudder Committee manages the whole district.

CHITTAGONG,
The 5th January 1878.

F. E. PARGITER,
for Chairman.

No. 71R.C.C., dated Noakholly, the 18th January 1878.

From—R. PORCH, ESQ., Chairman, District Road Cess Committee, Noakholly,

To—The Commissioner of the Chittagong Division.

I HAVE the honor to submit the annual administration report of the local works undertaken during the cess year 1876-77.

2. During the year under report there were six sittings of the District Road Cess Committee attended by the following members:—

Meeting held on 7th December 1876.

PRESENT:

R. Porch, Esq., Chairman. | Baboo Raj Kumar Rae.

3. This meeting was called to revise the budget-estimates of receipts and disbursements for the cess year 1876-77; but the business being urgent, it was proceeded with in the absence of a quorum, and the budget-estimates were passed.

Meeting held on 1st February 1877.

PRESENT:

R. Porch, Esq., Chairman. | Moulvi Abdul Aziz Khan.
Baboo Raj Kumar Rae. |

4. This meeting was convened to consider the appointment of a District Engineer, but as a quorum could not be got together, the business was postponed.

Meeting held on 29th March 1877.

PRESENT:

R. Porch, Esq., Chairman. | Baboo Manik Chandra Rae.
H. J. W. Clarke, Esq., *Dt. Supdt. of Police.* | „ Tarini Prosad Sen.
Baboo Kali Nath Bose. | „ Adyait Chandra Dutt.
„ Sri Nath Ghosh. | Moulvi Abdul Aziz Khan.
„ Bagula Prosanna Mozumdar. | Munshi Mohamed Ibrahim.
„ Raj Kumar Rae. |

5. This meeting was called to consider as to the percentage to be charged if the provincial works are entrusted to the Road Cess Committee, and as to the temporary appointment of the District Engineer and the establishment, and also to revise the budget-estimates approved by the Committee at the meeting held on 7th December 1876, as they were returned by

Government on account of there being no quorum at the meeting in which the estimates were passed. This meeting was well attended; there being a quorum, the revised budget was passed and submitted to Government. At this meeting the Committee also approved the temporary appointments of the District Engineer Mr. E. M. DeSilva, on probation for two months, and Assistant Overseer Mr. D. E. Ferrault and the officers under the Committee and under the District Engineer for one year. The establishments attached to both the departments were provisionally approved, subject to test as to their fitness to hold the appointments permanently.

Meeting held on 25th April 1877.

PRESENT:

R. Porch, Esq., Chairman.	Baboo Manik Chandra Rae.
Baboo Bagula Prosanna Mozumdar.	Moulvi Abdul Aziz Khan.
„ Kali Nath Bose.	Munshi Mohamed Ibrahim.
„ Sri Nath Ghosh.	

6. After ascertaining from the Executive Engineer that about Rs. 1,500 will be expended per mensem on Public Works Department repairs in this district, and after considering the cost of the sub-divisional Public Works Department establishment for such work, and the staff that would be required and the quantity of clerical work as well as of overseers' work and other expenses in the present state of uncertainty as to requirements and liabilities, it was settled that the work can be undertaken at a cost of 50 per cent. on the expenditure of any sum not in excess of Rs. 1,500 a year, and that as the expenditure rises above that sum the rate per cent. may be reduced proportionately until it falls to Rs. 30 per cent., which rate the Committee in their present state of information consider the minimum rate; but as an experimental measure the Committee were willing to make an attempt at what the Government in the Public Works Department may consider a fair rate, and if it result in loss to the Committee, the Government in the Public Works Department should adjust the loss and re-arrange the commission on a practicable footing, or relieve the Committee of the responsibility.

7. The Committee in this sitting also approved of the District Engineer Mr. E. M. DeSilva being appointed on probation for one year from March 1877, during which his practical efficiency would be tested, in accordance with sections 20 and 21 of Government Resolution No. 1209 of 1875. The Committee further approved of the services of the officers of the District Engineer and Committees' establishments on probation for the same period, and also those of Mr. Ferrault as Assistant Overseer.

Meeting held on 20th July 1877.

PRESENT:

R. Porch, Esq., Chairman.	Baboo Khettra Nath Das.
Baboo Bagula Prosanna Mozumdar.	„ Raj Kumar Rae.
„ Kali Nath Bose.	Moulvi Abdul Aziz Khan.
„ Manik Chandra Rae.	Munshi Mohamed Ibrahim.
„ Adyait Charan Dutt.	„ Tamizuddin.
„ Tarini Prosad Sen.	

8. In this meeting the budget-estimates for 1877-78 were considered and passed.

Meeting held on 24th September 1877.

PRESENT:

R. Porch, Esq., Chairman.	Munshi Tamizuddin.
Baboo Bagula Prosanna Mozumdar.	„ Mohamed Ibrahim.
„ Raj Kumar Rae.	Moulvi Abdul Aziz Khan.

9. The cost of establishments under the Committee being considered high, a revised budget for 1877-78 was laid before the Committee curtailing the establishments to some considerable extent, which was approved and passed.

10. With reference to Bengal Government's letter No. 1323E., dated 1st August 1877, the appointments of Messrs. E. M. DeSilva and D. E. Ferrault, probationary District Engineer and Assistant Overseer, were considered, and a recommendation sent to Government for the sanction of their probationary appointments with this office No. 202R.C.C., dated 27th September 1877.

11. There were only two sittings of the members of the Committee during the year in which there was no quorum; all the other sittings were fairly attended.

12. The members residing at a distance in the interior appeared to be unable to attend meetings at head-quarters; accordingly a recommendation was made for the appointment of certain gentlemen residing in or about the station of Noakholly to be members of the Committee. On some occasions when meetings had been called, most urgent matters had to be deferred owing to there being no quorum to transact business as required by section 59 of the Road Cess Act.

13. The following works were executed during the year under report:—

Chittagong road, from Dhumchur bridge to Robertgunge, 22 miles in length.—836,600 cubic feet earthwork and eight miles petty earthwork, and only surface dressing eight miles.

Robertgunge road, from Robertgunge to Jarwargunge, five miles in length.—Four miles petty earthwork, surface dressing, jungle clearing, and partial turfing.

Dewangunge road, from Chittagong road, junction at Sundalpore, to Dewangunge, 22 miles in length.—1,153,555 cubic feet earthwork and 56,880 square feet surface dressing.

Laksham road, 12 miles in length.—619,820 cubic feet earthwork and 12 miles jungle clearing.

Bhowanigunge road, from Sudharam to Bhawanigunge, 20 miles in length, and Lukhipore road, from Bhowanigunge to Dalal Bazaar, nine miles in length.—1,012,557 cubic feet earthwork, 12,000 square feet turfing, and 260,240 square feet surface dressing.

Begumgunge road, 12 miles in length.—590,000 cubic feet earthwork and eight miles jungle clearing.

Taktakhally road, six miles in length.—Five miles petty earthwork.

Chairakhally road, six miles in length.—Five miles petty earthwork.

Ramgunge road, 10 miles in length.—296,100 cubic feet earthwork and five miles surface dressing.

Lombakhally road, seven miles in length.—508,815 cubic feet earthwork, 80,000 square feet turfing, and seven miles jungle clearing.

Farashgunge road, one mile in length.—One mile earthwork.

Old Luckhipore road, 34 miles in length.—353,530 cubic feet earthwork and 18 miles jungle clearing.

Bhuluah road, six miles in length.—Six miles partial earthwork.

Chittoshee road, 12 miles in length.—480,140 cubic feet earthwork and nine miles surface dressing and jungle clearing.

Petty repairs have also been done to the Raipore road to a distance of seven miles.

14. A portion of the earthwork on the Dewangunge, Begumgunge, Chittoshee and Ramgunge roads could not be done on account of the unusual rain of the season, and because of the work having commenced late owing to the cyclone and inundation of 31st October 1876.

15. As to the remaining roads entered in the statement of roads prepared under sections 66 and 68 of the Road Cess Act, some had been long abandoned and left unrepaired since the close of the Government cloth and salt manufacturing trade. They with the other roads will be repaired where necessary during the current year.

16. Estimates are being prepared for making the Sundeep and Hattiah roads regular cart-traffic roads this year. Only Rs. 25 has been expended for repairing the cart road at Sundeep, in the immediate vicinity of the Moonsiff's Court at Sundeep.

BRIDGES.

17. Rs. 4,000 was estimated for thorough repair with masonry work of the Dhumchur bridge, but the timber work only has been completed at a cost of Rs. 1,436-11-8, as there appeared to be no necessity for the repair of the masonry work this year. Bamboo spurs have been put at a cost of Rs. 20 for the protection of the abutments of the bridge.

18. Rs. 1,500 was estimated for the repairs of the Chaprassi khal bridge; but the work was entirely abandoned as the bridge gave way in the middle during the cyclone of 31st October 1876, and afterwards the west side went down on account of the strong current of the khal, and, moreover, the question as to the proper site of the bridge has been revived.

The Executive Engineer of the Chittagong Division has given his opinion for the removal of the bridge from its present site to a place north of it. Requirements which were first met by a temporary embankment are now being temporarily met by a bamboo bridge.

19. The Chairakhally road bridge has been repaired at a cost of Rs. 197-3-2; masonry work to the extent of 896 cubic feet has been executed on this bridge.

20. The Taktakhally road bridge repair cost Rs. 290-14-0. The following works were executed on it:—masonry work 432 cubic feet, jungly woodwork 17 feet 6 inches, and planking 207 feet.

21. Two timber-top bridges were repaired on the Chittagong road during the year, and some petty repairs were also done to some of the timber-top bridges on the Luckhipore road and Begumgunge road. The works executed on the Chittagong road bridges are as follow:—woodwork 32 feet 1 inch; planking 420-9 square feet; iron nails one maund.

22. The timber work of the six timber-top bridges on the Laksham road has been completed, and a very little of the masonry work is remaining to be done. Rs. 800-8-0 has been expended on the above work.

23. Ninety-seven temporary bamboo bridges were put on the several district, dâk and police station roads. Of these, the bridge on the Chaprassi khal and that at Pearapore on the Luckhipore road are the largest. Some of the existing bridges were repaired. Instead of temporary bamboo bridges, sundari-wood bridges may hereafter be constructed. They would probably be more lasting, as well as cheaper on that account than bamboo bridges, and would be more convenient for the public, and save some trouble to the Road Cess Department. Timber can be easily procured from the Chittagong and Backergunge Districts.

24. 72,719 cubic feet and 1,62,950 square feet of metal works were executed on the Suddar Station road. Earthwork was also done on the Sudder Station cutcha roads to the extent of 1,99,362 cubic feet.

RIVER AND CANAL WORKS.

25. No river and canal works were undertaken during the year, except sloping the Shahebghatta canal and taking a preliminary survey and soundings of the Atteabari canal for deepening it.

26. An embankment or bandh was constructed across the Chaprassi khal (just after the cyclone and salt water inundation of 31st October 1876 had broken down the large bridge), in order to keep communication open. It secured fresh water in the khal inland for the

benefit of the neighbourhood after the tanks had been spoilt by the salt inundation. The earthwork executed on this was 102,100 cubic feet, and the amount expended Rs. 373-5-7. This was a very useful work as it kept the khal fresh in the interior and also provided a crossing for traffic, the long wooden bridge having been broken down by the cyclone and inundation.

27. The following works are proposed to be carried out during the current cess year as detailed below. They have been brought before and sanctioned by the Committee :—

ORIGINAL WORKS.

1. Construction of two timber-top culverts on Chittagong road.
2. Ditto of three culverts on Lombakhally road.
3. Ditto of four ditto on Bhowanigunge road.
4. Ditto of two ditto on Luckhipore road.
5. Ditto of four ditto on Ramgunge road.
6. Ditto of two ditto on public drains of the Sudder Station roads.
7. Cutting a canal at the mouth of Pearapore khal at Pearapore.
8. Ditto two bends in the Luckhipore khal at Atteatolly and Majupore.

Protection work at Moundhaghana, Shahebghatta and Dhumchur.

Four hundred and fifty mile and half mile wooden pins (4′ × 5′ × 25′), six inspection bungalows and out-offices.

MAIN ROADS.

Repairs.

1. Chittagong road, from Dhum Chur bridge *vid* Robertgunge to Zarwargunge, 27 miles.
2. Dewangunge road, from Chittagong road, junction at Sandalpore, to Dewangunge, 22 miles.
3. Bhowanigunge road, from the limit of Municipality to Bhowanigunge hât, 18 miles.
4. Luckhipore road, from Bhowanigunge road at Bhowanigunge *vid* Luckhipore to Dalal Bazar, nine miles.
5. Raipore road, from Dalal Bazar to Raipore, seven miles.

14. Chittoshee road, from Ramgunge to Chittoshee hât, 12 miles.
15. Chur Uriah road, from Bhowanigunge road at Azhaliah to Lombakhally road at Chur Uria, two miles.

Roads proposed to be repaired during the year, but not entered in the budget-estimates—
Bhanubibi road and Sundeep road, *viz.*, Sundeep dâk road.
Hatteah road, *viz.*, Hatteah dâk road.
Chur Darvesh and Hangotia road.

REPAIRS TO CULVERTS AND BRIDGES.

1. Repairs to four timber-top culverts on Chittagong road.
2. Repairs to Chaprassi khal bridge damaged by last cyclone.
3. Repairs to 14 culverts and two bridges on Dewangunge road.
4. Repairs to three masonry bridges on the Bhowanigunge road.
5. Repairs to 11 culverts on the Bhowanigunge road.
6. Repairs to two culverts on the Taktakhally road.

28. The rules in force regarding the execution of district works are so strict that it is hardly possible for the District Committee to carry out work in time when required. It appears under paragraphs 28 and 33 of Government Resolution No. 1209, dated 8th March 1875, that almost all the estimates are to be submitted to your office, and that a great many will have to go before Government for sanction. If these rules are to be strictly observed, work will be much impeded, especially in this district, as the whole of it is more or less flooded country.

29. Difficulties will sometimes be experienced if works are carried out in strict accordance with the list submitted to Government under sections 66 and 68 of the Road Cess Act. As every requirement of the district does not come to light when the budget-estimates are

submitted, a considerable amount of money is put down under the head of reserve for unforeseen works, and the district officers are sometimes obliged to undertake work which is not entered in the list when found to be urgently required for people's convenience. It, therefore, seems desirable that there should be some alteration in the rules.

30. During the last year applications have been very numerous for digging canals in the low levels of this district, ostensibly to improve inland waterway, but really for the purpose of drainage and for agricultural improvement, by thus securing more control over the water in those parts.

31. The cyclone and inundation of the 31st of October 1876 caused very great injury to the roads and bridges of the district, especially throughout the south of the district.

REMARKS ON OFFICERS.

32. Mr. E. M. DeSilva, probationary District Engineer, has attended regularly to requirements, and has worked hard to give satisfaction. The Committee have been favourably impressed with his work.

Mr. W. Andrews, District Overseer, has a thorough knowledge of every part of the district and people, has much experience in road work and tact in managing labourers. He has worked hard and discharged his duties satisfactorily.

Mr. D. E. Ferrault, probationary Assistant Overseer, has given satisfaction by the prompt and regular discharge of his duties.

EXPLANATION.

There will appear a difference of Rs. 565-8-6 under the head of "Contingencies" and "Tools and Plant" when compared with the quarterly statements. This was owing to the amount having been paid to the Municipal Chairman, Noakholly, for the purchase of an iron-roller belonging to the Municipal Committee and charged under the head of "Contingencies" in the quarterly return, but now transferred under the head of "Tools and Plant."

BAGULA PROSANNA MOZUMDAR,
Vice-Chairman.

No. 146R., dated Rangamattee, the 19th November 1877.

From—E. H. RUDDOCK, Esq., Offg. Deputy Commissioner of the Chittagong Hill Tracts,

To—The Commissioner of the Chittagong Division.

I HAVE the honor to forward the annual report of the Chittagong Hill Tracts District Road Fund for the year 1876-77, commencing from 1st October 1876 and closing with 30th September 1877.

2. The abstract account of income and expenditure for that period stands as follows:—

				Rs.	A.	P.
Balance in hand on the 1st October 1876 ...			...	9,700	10	7
Grant-in-aid from Provincial Reserve Fund, as per Bengal Government's Resolution No. 278 of 15th August 1876 ...			...	10,000	0	0
		Total Income	...	19,700	10	7
Expenditure from 1st October 1876 to 30th September 1877—*vide* statement enclosed, No. 6, Part II ...			...	14,920	3	0
Cash in hand of the treasury officer on the 30th September 1877... ...	Rs. A. P. 473 6 0					
Cash in hand of the Deputy Commissioner	0 5 8					
Cash in hand of the officer in charge of Sungoo Sub-Division ...	34 12 4					
Advances outstanding	4,371 15 7					
Net balance available on the 30th September 1877 ...				4,880	7	7
		Total as above	...	19,700	10	7

3. The advances of previous years outstanding on the 1st October 1876 amounted to Rs. 6,898-15-11. At close of the year it amounts to Rs. 4,371-15-7, showing a further recovery in cash and labour of Rs. 2,527-0-4. It is gratifying to observe that the enormous advances of Rs. 35,000, made on different occasions of scarcity, have now been reduced to the small sum of Rs. 4,371-15-7, which, it is hoped, will be recovered during the present and the next working season.

4. The reason why the Road Cess Act X. of 1871 cannot be introduced in this district was fully explained in last year's report, and also why there is no Road Cess Committee. It is needless therefore to reproduce them in this place. It may be sufficient to state that as soon as the works are approved by the Executive Engineer of Chittagong and sanctioned by the Commissioner of the Division, they are executed under the immediate supervision of the Deputy Commissioner.

5. The following works were executed and payments made during the year under review:—

A sum of Rs. 59-8-3 were paid for printing charges in the Bengal Office, and shown under the head of contingencies for collection of revenue.

6. About 2 miles of road from Rangapania bil to Manickcherry were constructed at a cost of Rs. 4,957-6-6 by excavating and throwing on the roadway about 710,700 cubic feet of earth at Rs. 4-8 per 1,000 cubic feet; thus making it 18 feet broad on the top and raising it to an average height of 3 to 5 feet.

7. About 440 yards of rocky sides of hill were cut and removed from the above road at a cost of Rs. 887-9-8, making a roadway 18 to 20 feet in breadth.

8. Rs. 50 were spent in clearing jungle for constructing the above road.

9. About 109,000 cubic feet of hard sandstone were cut and removed from Manickcherry hill top at a cost of Rs. 1,221-13-8, by which the normal height of the hill was reduced by 15 feet.

10. About 1¼ miles of small roads of an average breadth of 6 feet were constructed in different directions at Rangamattee at a cost of Rs. 407-6-0.

11. About 150 yards of road from the police hospital to the river at Rangamattee cost Rs. 25-12-0.

12. About 24 miles of road from Puri Rowajah's village to the frontier post at Pyramid Hill, and about 12 miles from Ruma to the frontier post at Polityo in Sungoo Sub-Division, were constructed by cutting and removing jungle from the roads. The cost of the former amounted to Rs. 718-5-10, and of the latter to Rs. 491-8-0.

13. A road about 2 miles in length and 4 feet in breadth was made by the side of the river from Waggahsurrah tea plantation to Chundergonah Bazar. The cost up to date amounts to Rs. 400.

14. A sum of Rs. 176-6-6 was spent by the Executive Engineer of Chittagong in surveying a part of the road from Rangamattee towards Chittagong.

15. About 1¼ miles of road from Rangamattee hill top to Rangapania bil were repaired at a cost of Rs. 432-7-7.

16. About 804 yards of road were repaired at a cost of Rs. 132-10-0 from the police hospital to foot of Deputy Commissioner's Office at Rangamattee.

17. On the road from Rangamattee towards Chittagong 83 temporary bridges were repaired at a cost of Rs. 400, and the cost of repairing the wooden bridge at Rangamattee amounted to Rs. 14-4-0.

18. The road from Rangamattee towards Chittagong was kept open during the rainy season by cutting and removing jungle and undergrowth of trees at a cost of Rs. 420.

19. The cost of repairing the masonry ghât at Rangamattee amounted to Rs. 240-5-6; two masonry wells, Rs. 48; and the bungalow at Kalipore, Rs. 58.

20. About 18 miles of road from Ruma towards Rangamattee were kept open at a cost of Rs. 558 by cutting and removing jungle during the rainy season. The road from Chundergonah towards Rangamattee was repaired at a cost of Rs. 28.

21. A sum of Rs. 2,531 was paid for services rendered by Public Works Department.

22. Rs. 400 on account of special allowance of Mr. A. DeRozario, Inspector of Police, and Rs. 120, the salary of Charifroo, Mohurir, were paid for local establishment.

23. A sum of Rs. 41-11-6 was paid for repairing 296 tools of different descriptions.

24. Owing to the scarcity which was prevalent in and near Chundergonah police station and Waggahsurrah tea plantation from July to September last, a road was opened between the abovenamed two places, and during that period about thirty-eight men were daily employed in constructing and repairing roads in different directions at Rangamattee and in cutting down Manickcherry hill top.

25. Towards the commencement of July last it was reported that a large number of men were in distress on account of failure of their crops. A notice was sent to all hill chiefs and village headmen that any one coming to Rangamattee would find work in constructing roads; but with the exception of the few persons abovementioned none appeared, and it is presumed that the distress was not so extensive as it was given out. Although many hundreds of persons were really in distress, yet they managed to get on by having recourse to succulent roots of trees and jungle yams, which can be obtained in abundance in the hills and they employed themselves in looking after their young paddy plants, which were in promising state, and this is certainly creditable than seeking help from Government.

26. The road from Rangamattee towards Chittagong was surveyed; but it is believed for want of sufficient hands the Executive Engineer of Chittagong could not frame the estimate

for its construction. For the same reason and for want of contractors the following works were not commenced:—surveying the road from Ruma in Sungoo Sub-Division to Rangamattee; constructing two miles of road on the west of Manickcherry hill; improving the road below police office at Rangamattee; taking up land near Rowjoun thana; raising the dam and deepening the tank at Rangamattee; and repairing the road below Gagra hill.

27. It was suggested in the annual administration report for 1876-77, and specially brought to the notice of the Commissioner of Chittagong, that the services of an overseer from the Public Works Department are greatly needed in this district; but the request for the appointment of such an officer has not yet been acceded to.

28. Owing to the ruling of the Government of Bengal (*vide* its Resolution dated the 21st of April last), the special allowance of Mr. A. DeRozario, Inspector of Police, was stopped, but he still continues in charge of the road fund work, and has been of most material assistance to me.

29. Charifroo, Mohurir, has given satisfaction in the discharge of his duties during the year under review.

30. During the year all the larger works were executed and paid for, for the first time, by contract rates at Rs. 4-8 per 1,000 cubic feet of earth-cutting, and double that sum for cutting hard sandstone. It is expected that the current year will see a reduction in the above rates, as the contract was sold by auction, and the rate has been reduced to Rs. 3-4 for cutting earth and Rs. 6-8 for sandstone.

31. The execution of the following works is proposed for the year 1877-78.

32. The construction of 2 miles of road from Manickcherry hill towards Chittagong by excavating 760,000 cubic feet of earth and making an embankment 3 to 4 feet high, with a breadth of 20 feet on the top. The cutting down and removing from Manickcherry hill top about 100,000 cubic feet of hard sandstone, and reducing the height of the hill by another 10 feet. Proposed cost Rs. 4,020.

33. Constructing a part of the road on the side of Deboonhcherry by cutting and removing 50,000 cubic feet of hard stone, excavating and removing about 140,000 cubic feet of earth from the west side of Manickcherry hill. Proposed cost Rs. 730.

34. Cutting down Rangamattee hill top another six feet, and removing about 72,000 cubic feet of earth. Cost Rs. 432.

35. Opening 2 miles of small roads in different directions at Rangamattee, and constructing 90 temporary bridges on the road towards Chittagong. Cost Rs. 1,730. I think it a great pity we should go on year after year wasting money in making temporary bridges, and that, as the road is completed, it should be permanently bridged. I have addressed the Executive Engineer of Chittagong on the subject.

36. It is proposed to survey during the year a part of the road from Chandergonah to Rangamattee by the side of the river. Cost Rs. 500.

37. The construction of the following roads and minor works will be taken in hand:—

	Rs.
Constructing and improving the road from Puri Rowjah's village to the frontier police post at Pyramid Hill	400
Constructing and improving the road from Ruma to the frontier police post at Polityc	400
Constructing a village road from Rangamattee to Simginullah...	150
Making three masonry wells at Rangamatee at Rs. 250 each ...	750
Cutting two drains and emptying out the water of the tank ...	1,661

38. The repairs noted below will also be executed:—

Three and half miles of road from Rangamattee towards Chittagong	1,225
Cutting and removing during the rainy season undergrowth of trees and sun-grass for 15 miles of the abovenamed road	300
Repairing 2 miles of road in different directions at the head-quarters of Rangamattee	300
The masonry revetment, three wells, and the wooden bridge, at the head-quarters of Rangamattee	120
About 3 miles of road from Chundergonah towards Rangamattee, and the wooden bridge on that road	150
About 2 miles of road from Waggahsurrah tea plantation to Chundergonah police station	100
About 33 miles of road from Chundergonah to Ruma, and 10 miles of road from Banderbun to Dahacherry ...	1,260
About 2½ miles of road from Pheskicherry to Barkul ...	375

39. If sanction is received, an overseer at a salary of Rs. 100 per mensem will be entertained, and the salary of Charifroo, Mohurir, will be raised from Rs. 10 to Rs. 12 per mensem. Cost Rs. 1,344.

Rs. 200 have been reserved for contribution for services rendered to district roads by the officers of the Public Works Department, Rs. 150 for new tools, and Rs. 50 for repairs of old tools, and Rs. 28-7-7 for unforeseen contingencies.

40. The following is the sum total of the proposed expenditure for 1877-78:—

	Rs.	A.	P.
Actual balance available on the 1st of October 1877 ...	4,880	7	7
Grant-in-aid from Provincial Reserve Fund	10,000	0	0
Total ...	14,880	7	7
Expenditure proposed—			
Original works, roads, and bridges	9,278	0	0
Maintenance and repairs of roads and bridges ...	3,330	0	0
Local establishment	1,344	0	0
Contribution to Public Works Department... ...	200	0	0
Purchase of new and repair of old tools	200	0	0
Reserved for unforeseen contingencies	28	7	7
Total ...	14,880	7	7

41. It is proposed to make a towing path from Chundergonah to Rangamattee at a cost of about Rs. 10,000. Should it be sanctioned, the major portion of the above funds will be spent in constructing that road. The object and advantage of opening out the road are manifold, as the banks of the river will before long be dotted with tea plantations and the waste lands reclaimed and brought under cultivation, and a brisk trade will spring up on the banks of the river. Moreover, during the rains, when the river is at its highest, boats can be towed up, and so much valuable time saved.

42. If an overseer is not appointed by the Public Works Department, one will be locally entertained for the next five months at Rs. 25 per mensem.

43. During the heavy and unusual fall of rain in July and August last, a great portion of the road constructed on the sides of steep hills has been washed away and will require repairs. These repairs will be taken in hand at once. The masonry ghât at Rangamattee was also destroyed from the same cause.

44. For the realization of the advances made to the hillmen for plough cultivation, the custom has hitherto been to employ them on road-work, and their wages, minus diet expenses, are refunded into the treasury. The same course is also being adopted this year.

45. The statement showing the salaries of officers employed under the Road Cess Committee for the year 1877-78, as per Bengal Government, Public Works Department's Circular No. 48E, of 23rd June 1877, is enclosed.

Statement showing the salaries of Government Servants who have been deputed for service under the Road Cess Committee in the Chittagong Hill Tracts during 1877-78.

Name of officer.	Amount of salary paid on first appointment.	Amount and date of subsequent increase or decrease in salary.	Proposed increase from 1st October 1877 to 30th September 1878.	REMARKS.
				There is only a moharrir by name Charifroo, who is locally employed at a monthly salary of Rs. 10. It is proposed to pay him at the rate of Rs. 13 per mensem during 1877-78.

E. H. RUDDOCK,
Offg. Deputy Commissioner.

No. 64G.M., dated Chittagong, the 22nd February 1878.

From—E. E. LOWIS, Esq., Commissioner of the Chittagong Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the following annual report on the administration of the District Road Fund in the districts of the Chittagong Division for the cess year ending 30th September 1877; and to enclose herein the district reports and accounts, together with a general abstract of the same made for the whole Division.

2. The slight delay which has occurred in the submission of this report is owing to the non-receipt of the Noakholly accounts, which came to hand only on the 9th instant.

3. An abstract of particulars regarding the meetings of the District Road Committees in the regulation districts of this Division during the year under review also accompanies. There being no landed interest properly speaking in the Hill Tracts on which the road cess may be levied, Act X. (B.C.) of 1871 has not been extended to that district, nor has any Committee been formed for the management of its road fund, the administration of which rests solely with the Deputy Commissioner.

4. During the year under report the Committee in Chittagong consisted of six official and ten non-official members, and they had six meetings; the average attendance in each being 5·83.

5. Out of the number of non-official members who did not attend any of the meetings some are reported to have evinced no interest whatever in the duties entrusted to them. The rest of the members seem to have shown fair activity as in the preceding year in discussing matters that were laid before them.

6. In Noakholly the Committee comprised of four official and fourteen non-official members, and they had also six meetings with an average attendance of 6·6. This was a marked improvement when compared with the number of sittings, and the average attendance of the members during the preceding year, showing that the non-official members took interest in the transaction of road cess matters during the year under review.

7. The receipts of this Division during the year under report on account of the District Road Fund amounted to Rs. 1,00,855-9-2, against Rs. 44,377 of the preceding year, *viz.*,—

	Cess years. 1876-77.			1875-76.		
	Rs.	A.	P.	Rs.	A.	P.
Revenue under the District Road Cess Act...	65,160	0	5	2,513	9	4
Road cess leviable otherwise than under the District Road Cess Act	1,469	8	7	1,456	4	1
Receipts from tolls	13,358	3	7	19,516	11	3
Grants-in-aid from Provincial Reserve Fund	20,000	0	0	20,000	0	0
Ditto private sources ...	....			600	0	0
Sale of produce and stores	72	6	3	73	13	6

Miscellaneous	791	12	4	120	14	1
Total ...	1,00,855	9	2	44,377	0	0

8. In Noakholly only, where the valuations under the Road Cess Act have been completed, was the cess, amounting to Rs. 61,597-2-9, collected during the year. The valuations in Chittagong not having been completed, only fines under section 6 of Act X. of 1871 of Rs. 3,562-13-8 were realized in that district.

9. No grant from Provincial Reserve Fund was made to Noakholly during the year under report. Rs. 10,000 were allotted from that reserve to each of the other two districts,—*vide* Government Notification No. 278 of the 15th August 1876, and Resolution No. 3043A. of the 18th idem.

10. No contribution from any private person was received in any of the districts, which may perhaps be accounted for by the depressed condition of the people after the cyclone of the 31st October 1876.

11. Of the total miscellaneous receipts (Rs 791-12-4) of the year, Rs. 772-0-6 were on account of contribution from khas mehals in Chittagong; the remainder appertains to the district of Noakholly, of which no detail has been given by the Chairman.

12. The total receipt (Rs. 1,00,855-9-2), together with the unexpended balance (Rs. 14,174-1-11) of the preceding year, aggregating in all to Rs. 1,15,029-11-1, was available for expenditure during the year.

13. The actual expenditure was, however, Rs. 1,20,832-5-3 in the year under review, against Rs. 79,641-10-4 of the preceding year, *viz.*,—

	Cess years. 1876-77.			1875-76.		
	Rs.	A.	P.	Rs.	A.	P.
On collection of revenue, &c.	50,696	13	6	23,331	9	8
Refunds	....			....		
On original district works	13,843	13	7	27,291	8	6
On repairs	44,234	2	10	21,274	3	3
On establishment	10,781	3	4	7,314	5	6
On tools and plant	1,276	4	0	429	15	5
Total ...	1,20,832	5	3	79,641	10	4

14. The expenditure (Rs. 1,20,832-5-3) of the year, together with the unexpended balance (Rs. 20,670-2-6) remaining at its close amounted to Rs. 1,41,502-7-9, and out of this the sum of Rs. 26,472-12-8 was expended by the Chittagong Committee in excess of their actual receipts which were inadequate to meet their wants. The valuations under the District Road Cess Act not having been completed, no cess could be realized during the year; while on the other hand, the Committee had to pay Rs. 38,991-1-1 for their very large establishment entertained for the purpose of making assessment, besides the expenditure they had to incur on urgent district works.

15. The above deficit expenditure of Chittagong, together with the amount of expenditure of the same description (*viz*, Rs. 20,102-12-0) for the preceding year, makes up a total deficit of Rs. 46,575-8-8 and, this debt the Committee were asked to repay during the current year in full. On their representation, however, that most of their urgent works had been stopped during the year under report and the preceding year for want of fund, the Government have allowed the demand against the District Road Fund to be paid in two instalments to be made during the course of the current year and the year following.

16. In Noakholly, two-thirds of the total outlay was spent on repairs, as the cyclone of the 31st October 1876 did much damage to the roads and bridges towards the south of the district.

17. The Committee in both the regulation districts managed to carry out their district works by their own agency, and consequently paid no contribution to credit of the Public Work Department during the year. The Hill Tracts only contributed to Rs. 2,531 to that department.

18. The following is a statement showing the proposed works and the amounts estimated to be spent on them during the current year:—

19. The Sudder Committees and the different establishments under them seem to have worked well in the districts of this division during the year under review. The introduction of the Road Cess Act in the regulation districts of this division is, it seems, being now much felt by the people, owing to their distressed condition after the cyclone of the 31st October 1876.

HIGH COURT NOTICES.

Circular Order issued by Authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 17, *dated the* 1*st May* 1878.

It is requested that immediate effect may be given, by the officers concerned, to the amendments noted below, which have been made by the High Court, with the sanction of the Governor-General in Council, in the revised rules for the receipt and payment of money appertaining to the Courts or Offices of Judicial Officers in Bengal not in direct account with the Accountant-General, which were issued with Circular Order No. 2, dated 5th February 1877 :—

Additions and Alterations.

RULE 2. In the list of account books, after—

"To be kept by all Judicial Officers, Magistrates, &c." 2. "Register of chalans issued, Form No. 2," insert—

"To be kept in Civil Courts only." 2A. "Register of petty receipts to be credited at once to Government, Form No. 2A."

RULE 5. Before the first word "when" insert—

"Except in the case provided for by the following Rule 5A."

After Rule 5 insert the following new rules :—

Applies to the Civil Courts only. 5A. Payments made into Court *to the credit of Government*, on account of searching fees, copying fees, or comparing fees, will be recorded, not in the register of chalans, but in a special register to be kept in Form 2A by the Accountant, who, on application from any person who desires to make any such payment due to the Government, will enter his name, the amount to be paid, and the number and date in the foil and counterfoil of the register; and, detaching the right-hand portion, will make it over to the applicant to take with the money to the Nazir. The Nazir will receive the money and countersign the foil, which the applicant will retain as the voucher, and as authority to take delivery of a copy, if applied for, when ready. The payment slips issued in one week, *i.e.* from Monday to Saturday, will not be accepted by the Nazir after the close of the week; but if a slip be not used within the week it must be cancelled and renewed.

Applies to the Civil Courts only. 5B. At the close of each day the Nazir's receipts, under the heads specified, should be checked by the Accountant with the daily total of the entries on the counterfoil of his register, and the Nazir will then remit the amount in hand, without any specification of details, to the Treasury, with a chalan in Form No. 11, indicating the nature of the receipts, and that they are to be credited to Government. The chalan so sent will be entered in the Register of Chalans No. 2.

RULE 36. Add at end—

RULE 37. "And another dealing with petty receipts paid into Court to the credit of Government."

Add at the end—

Subsidiary Cash-book of petty receipts (Civil Courts only). "Another subsidiary Cash-book will be kept by the Nazir to exhibit petty payments made to him under Rule 5A above. He will also close and balance this account daily, and the opening and closing balances, as also the total receipts and remittances to the Treasury, for the day, will be posted daily into the Court's General Cash-book.

REPORTS ON THE STATE OF THE SALT MARKET FOR THE THIRD QUARTER OF 1877-78.

No. 238B, dated Fort William, the 16th April 1878.

From—J. F. BRADBURY, Esq., Offg. Secy. to the Board of Revenue, L. P.,

To—The Secretary to the Govt. of Bengal, Revenue Department.

HON'BLE C. T. BUCKLAND.

I AM directed by the Board of Revenue to submit the following report on the state of the salt market for the third quarter of 1877-78, comprising the months of October, November, and December last.

2. The quantity of salt consumed (*i.e.* the quantity of total clearances of salt of every description) in the quarter under report amounted to 18,63,236 maunds 26 seers 9 chittacks, against 24,66,463 maunds 35 seers 2 chittacks in the previous quarter, and 23,01,683 maunds 30 seers 13 chittacks in the corresponding quarter of the previous year; and the total amount of duty levied was Rs. 57,62,213-4, against Rs. 76,07,460-1-1 and Rs. 71,58,591-9-8 in the previous and corresponding quarters respectively.

3. The quantity of excise salt sold in Cuttack, Balasore, Pooree, and the 24-Pergunnahs during the present quarter from the stock of the different

seasons' manufacture, and the quantity which remained in store at the close of the quarter, are shown in the following Table I:—

BURDWAN DIVN. 1	Burdwan, May 11 '78	2·13	The prospects of *til* and cotton are good. The recent rain has in most places facilitated the preparation of the land for the early rice crop, but in some places there has been more rain than enough. Public health is the same as before.
	Culna ...	4·35	
	Cutwa ...	2·73	
	Bood-Bood ...	2·4	
	Jehanabad ...	2·87	
2	Bankoora, „ 11 „	1·10	Weather—very cool, with thunder-storms almost every evening, accompanied by rain. Sugarcane is being planted. The rice lands are being ploughed. The rain has done good generally.
3	Beerbhoom, „ 11 „	2·80	Weather—too cool and moist to be called seasonable. There was a very heavy fall of rain on the night of the 6th. The state and prospects of the crops are unchanged. The district has had as much rain as it requires. More at present will not benefit the fields.
4	Midnapore, „ 11 „	0·60	Weather—cooler than last week. Rain and storm almost every evening. The prospects of the crops are fair. A few cases of cholera have occurred both in the town and at Tumlook.
5	Hooghly, „ 11 „	6·12	Weather—unusually wet for this time of the year. Rain almost daily, excepting on the 6th and 7th. Temperature cooler than last week. Heavy rain on the 5th, 8th, and 9th. Sowings are interrupted owing to excess of rain. Vegetables on the ground are slightly injured by hail and repeated rainfall. An immediate cessation of rain is necessary, otherwise the *aus* crop will be injured. The state of public health is the same as in the last week.
	Howrah „ *13 „	5·19	Weather—unusually cool. Rain fell nearly every night. Cultivation is very forward everywhere, and prospects are favorable. General health is good.
	Mohesrukha ..	1·23	
	Central Districts		
PRESIDENCY DIVN. 6	24-Pergunnahs. May 11 „	6·12	There were thunder-storms from the south-west, accompanied by heavy rain every evening during the week. The mornings were fair. The temperature was cool for the season. Ploughing is going on everywhere. There have been some cases of cholera.
7	Nuddea, „ 11 „	0·63	Weather—cool, with storms and rain. The rain has been very heavy in the south of the district. The rice is germinating well, and sowings are still going on. In Bongong, it is said, the rain has been too heavy for the young seedlings. Cholera is abating.
8	Jessore, „ 11 „	2·04	Weather—very cool for the time of year. Rain almost every evening. Through the recent rains the low lands are under water. A week of sunshine is needed now for the crops, which, with a little fine weather, are likely to do well.

RAJSHAHYE AND COOCH BEHAR DIVN. 10	Dinagepore „ 10 „	1·87	Weather—close, with frequent heavy storms. The rain has improved the rice crop.
11	Rajshahye, „ 11 „	1·95	Weather—cloudy and rainy. Good rain all over the district, which has been most beneficial. The *chaitali* crop is said to have been an average one in Nattore. The price of coarse rice is 16 kutcha seers per rupee in the Sudder station and 17 seers at Nattore.
12	Rungpore, „ 10 „	1·54	There was rain during four days of the week. The state and prospects of the crops continue to be good. The prices of food-grains are very dear. Cholera still exists in places, but the general health of the district is good for this time of the year.
	Gaibanda ...	1·74	
	Bagdogra	1·84	
13	Bogra, „ 11 „	2·43	Weather—cool and cloudy. There was rain almost daily, attended by high winds at times. The *aus* and *boona aman* plants are thriving. *Til* has been somewhat damaged by the late hailstones. *Kharechi* is being reaped. Prices in the district range from 13 to 16 puccu seers per rupee. No change for the better in the state of health of the district.

* Reports of 13th show rainfall during the week ending 11th.

RAJSHAHYE & COOCH BEHAR DIVS.—*contd.* 14	Pubna, May 11 '78	1·28	The weather during the week has been generally cloudy and cool for the season. There has been slight rain in almost all parts of the district, which has done some good for the ploughing and for the crops. No change to report in the state and prospects of the crops.
15	Darjeeling	.....	Return not received.
16	Julpigoree, May 11 „	4·33	Weather—cool, stormy and rainy. Reports have been received from the head-quarters station that the excessive rain has impeded the progress of sowing the *bhadoi dhan*. Stormy weather has also been reported from the sub-division. Cholera has appeared in some of the sub-divisional thanas.
	Cooch Behar, „ 9 „	4·53	Very severe storms during the early part of the week, with high wind. Weather cool for the time of year. Too much rain. Weeding is retarded, and if the *bîtri* crop is choked or swamped, there will be more or less distress. The crops look well at present every where, but a month's fine weather would do great good now. Rice is still very dear and tobacco very cheap. There has been a little cholera, but generally the season is very healthy.
	Dinhatta ...	4·75	
	Mathabhanga ...	2·89	
	Eastern Districts.		
DACCA DIVN. 17	Dacca, May 11 „	3·85	Very heavy rain fell on the 10th instant. Weather extraordinarily cool for the time of year. It is almost cold. The state and prospects of the crops are favorable. The rain will do unmixed good in this district.
	Moonsheegunge ...	3·81	
	Manickgunge ...	1·68	
18	Furreedpore, „ 11 „	1·44	Weather—rainy, with high wind sometimes. The state and prospects of the crops are fair, but sun is now wanted.
	Goalundo ...	3·06	
	Madaripore ...	3·55	
19	Backergunge, „ 9 „	1·2	There has been rain generally during the week. Ploughing and sowing are progressing well. Cholera and small-pox are still about.
20	Mymensingh, „ 10 „	5·03	The weather is still very unsettled. Thunder-storms are of almost daily occurrence attended with violent squalls of wind and heavy rain. There has been almost more rain than is required, but the crops promise well. Public health is generally good.
21	Tipperah, „ 10 „	2·18	Storm of wind and rain with thunder and lightning nearly every day. The sowings of *aus dhan* have been completed, and about three-fourths of *aman dhan* have been sown. The jute plants are coming up well.
	Sub-division ...	0·38	
CHITTAGONG DIVN. 22	Chittagong, „ 9 „	1·21	Weather—squally, with north-westers and some rain. The rain has improved the prospects of the crops. More, however, is wanted for the *aus*. The *paman aus* is deficient, owing to want of rain.
23	Noakholly, „ 9 „	0·6	Weather—cool and cloudy for the most part of the week. The cultivation for the early rice crop continues. Public health is generally good.
24	Chittagong Hill Tracts, „ 7 „	2·54	Weather—rainy during the latter part of the week. The fall of rain during the week has done much good to the *aus* paddy plants, and to the germinating seedlings of the hill people. The hillmen are busily engaged in sowing their crops.
	Hill Tipperah, „ 8 „	2·04	There have been several heavy showers. It seems probable that the rainy weather will continue for some days longer. The rain has been of benefit to *aus* sowings and to the young *til* crop. Health is good.
BEHAR			
PATNA DIVN. 25	Patna, May 11 '78	Nil	Weather—unusually cool. Strong easterly winds prevailing. No change in the state and prospects of the crops since last report. Prices continue to rise.
26	Gya, „ 11 „	0·32	Weather—cloudy and windy. Maximum thermometer in the shade 103·8°. There was a short, but very severe, hurricane on the 6th, winding up with heavy rain, and in parts of the district with hail. Some damage was done to *cheena*, and the prospects of a good mango crop have been materially injured.
	Nowada ...	2·96	
	Jehanabad ...	1·50	
27	Shahabad „ 11 „	0·57	Weather—rather cool for the time of year. It has been very unsettled during the week, and stormy. Sugarcane and *cheena* are the only crops on the ground which will be benefitted by the rain. The rain would also enable the people to commence ploughing. Prices continue high.
28	Durbhunga, „ 11 „	0·64	Weather—cloudy and cool, with strong east wind. Slight showers have fallen in various parts of the district which have done good. Cholera appears to be on the decrease.
29	Mozufferpore, „ 11 „	0·77	Weather—cool and stormy. The state of cultivation is promising. Indigo, *cheena*, and *dhan* have been benefitted by the rain.
	Sectamurhee ...	0·89

BEHAR.—(Contd.)			
PATNA.—(*Contd.*) 30	Sarun, May 11 '78	0·88	Weather—cloudy, with strong east wind and dust-storms. There have been slight showers of rain in some parts of the district. The state and prospects of the crops are the same as before. The fields are being prepared for sowing the *bhadoi* crops. Prices are stationary. Public health is good.
	Sewan	0·01	
	Gopalgunge	0 19	
31	Chumparun „ 11 „	0 54	Rainfall sufficient. Temperature lowered a little. East wind prevailing throughout the week. There was a good shower of rain during the week, which has done material good for the growth of indigo. The cultivators have also commenced preparing their lands for the *bhadoi* sowing. Prices of food-grains, especially that of rice, have slightly risen on account of non-importations from the neighbouring districts.
BHAGULPORE DIVISION. 32	Monghyr, „ 11 „	0 94	Slight rain. Weather generally cool. The state and prospects of the crops are the same as before, but the rising of the Ganges gives hopes that the dearah will be inundated this year and give a crop.
	Begoosarai	1·16	
	Jamui	3 12	
33	Bhagulpore „ 11 „	0 05	Weather—cool, with high easterly winds. The lands are being prepared for the autumn crop.
34	Purneah, „ 11 „	0·31	Weather—warm during the day, but cool at night. Sky cloudy. Frequent local showers. Cultivation is progressing favorably. Cholera prevails in the north and south-west of the district.
	Kissengunge	1 38	
	Arrareah	1·27	
35	Maldah, „ 11 „	1·43	Weather—damp and cloudy. Occasional storms with rain.* The state and prospects of the crops are good. Prices are unaltered. Health is good.
36	Sonthal Pergns. „ *12 „	0 98	Weather—very cool for the season. Frequent thunder-storms. There is nothing to add to the last week's report. Ploughing is going on.
ORISSA.			
37	Cuttack May 11 '78	2 26	Rain and storms more or less every evening during the week. The rainfall has been ample for cultivation, which is now progressing rapidly. The sowing of early rice has commenced. Apprehension is now over. Prices in some places in the mofussil have fallen slightly. Cases of cholera continue to be reported.
ORISSA DIVS. 38	Pooree „ 9 „	0·02	Weather—hot and cloudy at intervals. The early *dalua* rice has been harvested. The late *dalua* rice has suffered in many places for want of rain. Slight showers of rain have been reported from Pipli and Gope, but the rainfall was not sufficient for tillage, nor was it general. The water in the tanks and wells is still failing. Common rice is selling at 11½ to 14½ seers for the rupee. Rice is still exported by land to the Madras Presidency. There is also a barque waiting for cargo in Pooree Roads. In Khoorda the rain has been very beneficial, and ploughing is now going on. Cholera is reported from some parts of the district.
39	Balasore. „ 10 „	1·30	The weather has continued stormy and rainy throughout the week. Part of the new crop is above the ground, but both sowing and ploughing have been interrupted by the wet weather. Public health is good.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh. May 10 '78	1·66	More or less rain for six days out of the seven under report. Weather unseasonable and unusually cool. The week has been a stormy one. There was a heavy hailstorm on the 8th, but fortunately it was not of long duration. The little mango spared by blight has now been entirely lost. The *mohwa* crop is at an end, and having been consumed for food, it is now abnormally high priced. The ground is being ploughed and broken up all over the district, but no sowing will be attempted for another fortnight.
41	Lohardugga, „ 11 „	2·00	Weather—unsettled and unseasonable. The recent very heavy showers have enabled all lands to be ploughed and prepared. The early crops, *goondli* and *gora dhan*, are being sown. No change in prices of all food-grains. Small-pox is prevalent in Palamow, and cattle disease is reported from different parts of the district.
42	Singbhoom, „ 10 „	2 31	The weather throughout the week has been stormy, and heavy rain fell during the nights. The result is that the weather has been very cool and pleasant. *Biru dhan* is being sown all over the district. Prices are easy. General health is good, a few cases of sporadic cholera only having been reported from the interior.
43	Manbhoom. „ 11 „	2 27	Weather—stormy and unseasonable. Fears are entertained that the rains have set in a month before the time. *Gora dhan* is being sown. Ploughing is going on. Prospects are not so cheering as reported last week. The ryots are well off on the whole, and will not suffer unless the rain of season fails. The able-bodied labourers at present have only themselves to blame if they do not get their daily food. Enquiries are being made about the infirm. Cholera and small-pox are prevalent.

* Report of 12th shows rainfall during the week ending 11th.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

J. E. T. NICOLLS, *Major-General*, R.E.,
Secy. to the Govt. of Bengal, P. W. Department.

Report of Fluctuation of Traffic on the Northern Bengal State Railway during the month of February 1878.

NORTHERN BENGAL STATE RAILWAY.

Increases.

Railway materials ... ... Mds. 17,738

This increase is due to permanent-way material being pushed forward for the Rungpore branch and the extension to Silliguri

Food-grain ... ... Mds. 28,928

Quite five-sixths of the increase shewn under this head consisted of rice and paddy. The facilities afforded by through booking and a favourable market in Calcutta has given a wonderful impetus to traffic in this staple, the quantity tendered for despatch having quite outstripped the carrying capacity of the available rolling stock

Gunny bags .. .. Mds. 1,270

The increase in this staple of traffic is the natural result of the movement in food-grain.

Jute ... ... Mds. 4,733

The increase shewn under this head is satisfactory when it is considered that the jute season has quite passed.

Other staples ... ... Mds. 4,805

The increase in the other staples mentioned may be set down as due to the increased facilities afforded by through booking.

Regulation and Management of Privies.

31. Every owner or occupier of any house, land, or premises from which any night-soil or other offensive matter is not removed by the said owner or occupier shall give access to the servants of the Municipality to such house, land, or premises for the removal therefrom of any night-soil or any such offensive matter, within such hours as may be determined by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

32. Every owner or occupier of any house, land, or premises who shall construct any privy thereon shall be bound to construct such privy above ground, and shall provide such privy with a suitable moveable vessel of metal or earthenware for the reception of night-soil.

The penalty for infringement after notice shall be a fine not exceeding Rs 25.

33. Within fifteen days of receipt of a notice in writing from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well or other underground privy, or any other privy which may seem to the Commissioners to be noxious or improperly constructed, may be situated, shall cause such privy to be filled up, closed, or otherwise altered as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days from the date of service thereof, the Commissioners may themselves cause to be filled up, closed, or otherwise altered the privy mentioned in the said notice, and any expenses so incurred by the Commissioners shall be recoverable as a debt due to the Commissioners.

34. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature directed in bye-law No. 32.

The penalty for infringement shall be a fine not exceeding Rs. 20.

35. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

36. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

37. No person shall carry night-soil through the street otherwise than in a closely covered receptacle, of such description or pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 10.

General Bye-law.

38. No person shall allow any pigs to be at large, or keep them otherwise than in closed styes.

The penalty for infringement shall be a fine not exceeding Rs. 5; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 2 daily.

NOTIFICATION.

The 15th May 1878.—In supersession of the notification dated the 31st August 1869, published at page 1719 of the *Calcutta Gazette* of the 15th September 1869, the Lieutenant-Governor of Bengal is pleased to promulgate the following amended regulations concerning the supply, within the territories under the Lieutenant-Governor of Bengal, of lime or lemon-juice or other antiscorbutics for the use of ships, in accordance with the provisions of Section 6 of the Merchant Shipping Act of 1867.

1. No lime or lemon-juice shall be deemed fit and proper to be taken on board any ship, for the use of the crew or passengers thereof, unless the same is shown by certificate, under the hand of an inspector appointed by the local Government, to be proper for use on board such ship, such certificate to be given upon inspection of a sample, but no such certificate to be given until it be shown to the satisfaction of such inspector that the juice contains not less than 25 grains of citric acid to the fluid ounce; nor unless the same contains fifteen per centum of proper and palatable proof spirits, to be approved by such inspector or by the proper officer of customs, and to be added before or immediately after the inspection thereof; nor unless the same is packed in such bottles at such time and in such manner, and is labelled in such manner as the inspector or the Collector of Customs may direct, provided that when any such lime or lemon-juice is deposited in any bonded warehouse, and has been approved as aforesaid by the said inspector, the said spirits, or so much of the said spirits as is necessary to make up fifteen per centum, may be added in such warehouse without payment of any duty thereon; and when any spirit has been added to any lime or lemon-juice, and the same has been labelled as aforesaid, it shall be deposited in the ware-house for delivery as ship's stores, only upon such terms and subject to such provisions of the Customs Act as are applicable to the delivery of ship's stores from a bonded warehouse.

2. In the event of a master of a ship being desirous of landing lime-juice in store, for the purpose of being rectified or rendered fit for the use of the crew or passengers on board such vessel, he shall enter the same at the Custom House, to be landed for rectification under the usual form of engagement, to be re-shipped after such lime or lemon-juice shall have been properly rectified and certified to by the inspector, under the same rules and regulations as in the case of lime or lemon-juice shipped direct from a warehouse.

3. When lime-juice has been taken from a warehouse as ship's stores, the label shall remain intact until twenty-four hours at least after the ship shall have left her port of departure on her foreign voyage.

HIGH COURT NOTICES.

Circular Order issued by Authority of the High Court of Judicature at Fort William in Bengal

CIVIL.

No. 18, *dated the 4th May* 1878.

The Court are pleased to direct that, whenever proof of due service of a notice of appeal, or the like process, appears to fail, in consequence of an omission on the part of the appellant, or party concerned, to produce a witness to prove the identity of the party

served, or of his place of residence, a reasonable time shall be allowed for the production of such witness, where the omission has been the result of ignorance, and when return of the process will not thereby be unduly delayed.

2. The District and other Courts in the Mofussil should also take measures to have the provisions of Circular Order No. 9 of the 6th April 1871 made more generally known, in order that needless expense and delay may not be occasioned by inadvertent disregard of them.

No. 19, *dated the* 11*th May* 1878.

In supersession of so much of the Circular Order of the late Sudder Court, No. 34, dated 15th September 1843, as requires that, in cases where Mooktars are employed in the Civil Courts, the Mookturnamahs shall be verified on oath, the Court are pleased to direct that such verification shall not be required in the case of certificated Mooktars who have passed the examination prescribed by the rules framed under Act XX of 1865.

2. This order shall not be taken to affect the practice in the Criminal Courts, a discretion in the matter of recognizing Mooktars having been reserved to these Courts by Section 186, Act X of 1872. Nor does it apply to any Mooktars other than those specified above.

No. 20, *dated the* 15*th May* 1878.

With reference to Notification No. 893, dated 8th May 1878, of the Government of India in the Home Department, published in the *Gazette of India* of 11th May 1878, the High Court directs that Saturday, the 25th May 1878, corresponding to the 12th Joisto 1285 B. E., be observed as a close holiday in the subordinate Civil Courts. Friday, the 24th May, corresponding to 11th Joisto, as notified in Circular Order No. 19, dated 6th December 1877, will also be observed as a close holiday.

Sheriff's Office, the 1st May 1878.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1878, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the Twenty-ninth day of May instant, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be then and there to prosecute.

GAYA, the 15th May 1878.

POSTAL NOTICES.

IF it is desired to insure a registered letter or parcel—Close the letter or parcel securely. If it is a letter, seal it in the centre and at the four corners of the envelope (which should be a substantial one) with distinct impressions of some device other than that of a current coin. If it is a parcel, pack it in cloth, wax-cloth, or tin, and if packed in cloth or wax-cloth, put similar seals at intervals not exceeding 3 inches along the lines of sewing.

Prepay the postage (as for a registered letter or for a parcel) by affixing postage labels. Certify the declared value in words and figures immediately above the address: for example "Certified value two hundred and seventeen (217) rupees."

Present the letter or parcel at the Post Office window during registration hours with a declaration* of the nature and value of the contents and with money to pay the insurance fee at the following rates:—

When the value certified does not exceed Rs. 10, 1 anna.
" " " 25, 2 annas.
" " " 50, 4 "
" " " 75, 6 "
" " " 100, 8 "

and 8 annas for every additional Rs. 100 or fraction thereof.

*SPECIMEN OF DECLARATION.

This letter (or parcel) addressed to
Major G. H. GRANTLEY,
16TH HUSSARS,
Muttra,

is declared by us, the senders, to contain the following articles, viz.—

Signature,
and Date.

The Post Office receipt will acknowledge the insurance.

The Post Office is prohibited by rule from receiving valuables (such as coins, jewellery, &c.) for transmission by post in either letters or parcels *unless they are insured.*

If it is desired that the value of the contents of a parcel should be recovered from the addressee and paid to the sender—Close the parcel carefully and seal it as described above for insured parcels. Present it at the Post Office window within registration hours with a memorandum containing—

The name and address of the sender in full.
The name and address of the addressee in full.
Value of the contents recoverable from the addressee.
Date of posting.

Prepayment of the parcel is optional.

The Post Office receipt will show the value recoverable from the addressee, and give all needful information with regard to the payment to the sender.

If it is desired to obtain an acknowledgment from the addressee of a registered article or parcel—Fix additional stamps of the value of one anna on the registered article or the parcel, and present it at the Post Office window within registration hours, furnishing in writing or verbally the name and full address of the sender. The Post Office receipt will indicate that an acknowledgment is due.

If a certificate of posting is desired—Write a copy of the address as given on the article on a slip of paper or in a book and affix a half-anna postage label to it. Present the article and the written copy of the address at the Post Office window at least half an hour before the hour fixed for closing the mail for which it is intended. The Post Office will stamp the written copy as a certificate of the posting of the article. This certificate will not obtain for the article any special security in transit; it is merely a certificate of posting, the article being treated like any other article put in the letter box. This rule does not apply to registered articles and parcels for which *receipts* are given.

N. B.—The grant of certificates of posting will commence from the 1st April 1878.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 18th May 1878.

	No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.				
		Western Districts.		
BURDWAN DIVN.	1	Burdwan, May 18 '78	2·62	Weather—generally cool. Excessive rain is damaging cotton, *teel*, and sugar-cane. Cultivation has also been stopped during the week. Public health is generally good.
		Raneegunge ...	3·47	
		Jehanabad ...	3·68	
		Cutwa ...	1·48	
		Bood-Bood ...	1·92	
		Culna ...	1·93	
	2	Bankoora, „ 18 „	1·19	Weather—still unusually cool for the time of year. Nearly 12 inches of rain, about twice the average amount, have fallen up to date this year. The heavy rain has retarded the ploughing of rice lands and the planting of sugarcane in the lower country on the east There have been not a few cases of cholera in some villages, and several outbreaks of small-pox.
	3	Beerbhoom, „ 18 „	3·79	Very heavy rain on Monday the 12th, and rain almost daily. Close upon seven inches have fallen since the first of the month. The people are now complaining that the rain is too much. A burst of fine weather would be welcome.
	4	Midnapore, „ 18 „	0·70	Weather—cool. The state and prospects of the crops are fair. Ploughing and sowing have been interrupted to a certain extent by unusual amount of rain during the week.
	5	Hooghly, „ 18 „	2·60	Rain almost daily. Weather sultry before the rain, but cooler after it. Atmosphere still surcharged with clouds. *Aus* sowings are going on, though slightly interrupted owing to excessive rain, and the seeds have germinated in places. *Amun* seedlings are being prepared in nurseries, and those of *aus* are being transplanted in some places. There has been some damage to *pulbule*, *uche*, and water-melons from excess of rain. Public health is the same as in last week.
		Howrah, „ *20 „	1·90	Weather—unusually wet and cool. There has now been more rain than is necessary at this time of year. Cultivation on the low land is interrupted and some fine weather would do good everywhere.
		Mohesrakha " ...	4·13	
		Central Districts		
PRESIDENCY DIVN.	6	24-Pergunnahs, May 18 „	2·00	Weather—unusually wet for this time of the year. There was a gale accompanied by rain almost every evening. The continued rain has interfered with sowings. Sporadic cases of cholera are reported, but the public health in general is good.
	7	Nuddea, „ 18 „	3·79	Weather—damp and very cool for this season. The condition and prospects of the crops are so far very good. Coarse rice is extremely dear; the average price is about Rs. 3-8 per maund.
	8	Jessore, „ 18 „	1·92	The weather, which was very cool for the time of year, has changed and is now warmer. The prospects of the crops are fair, provided there is a little fine weather.
		Magoora ...	3·46	
		Narail ...	0·81	
		Khoolna ...	2·02	
		Bagirhat ...	3·66	
		Jhenida ...	0·90	
	9	Moorshedabad, „ 18 „	0·77	Weather—showery and cool for the time of year The state and prospects of the crops are satisfactory. Price of common rice is a little lower at Bhurutpore; elsewhere it is as before. Health of the district is better.
		Lalbagh ..	1·07	
		Jungypore ...	2·50	
		Rampore Hât ...	1·25	
RAJSHAHYE AND COOCH BEHAR DIVN.	10	Dinagepore, „ 17 „	1·28	Rain in three days. It has been very general. The prospects of the rice crop are good.
	11	Rajshahye, „ 18 „	2·28	All parts of the district have had ample rain; in some parts it has been very heavy. The rain of the week has been most beneficial to the crops which are doing well. The cutting of *boro dhan* continues. Cholera has considerably decreased.
	12	Rungpore, „ 17 „	0·59	Weather—cool. There is nothing new to report about the crops, the state and prospects of which continue to be favorable. Public health is good for the time of year, except that there are still some cases of cholera.
		Bagdogra ...	0·49	
		Gaibanda ...	2·52	
	13	Bogra, „ 18 „	2·48	Weather—cloudy, with sunshine at intervals. There was much rain during the week, especially on the night of the 17th. The *kaon* is coming into ear. The health of the district is fair, except in Adumdighi and Panchbibi, where there are some fever and cholera still prevalent.

* Return of 20th shows rainfall during the week ending 18th.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.—(*Continued.*)		
	***Central Districts.*—(Contd.)**		
RAJSHAHYE & COOCH BEHAR DIVS.—contd. 14	Pubna, May 18 '78	1·99	The weather during the week has been generally cloudy and cool for the season. There has been rain generally during the week, which has greatly benefitted the ploughing and sowing of the crops in general. Cholera is still about.
15	Darjeeling „ 18 „	1·48	Weather—cool. Rain almost every day during the week All the crops on the Hills and in the Terai are progressing favorably. A few cases of cholera have been reported from the Terai and Punkabaree.
16	Julpigoree ...	*.....	Return not received.
	Cooch Behar, „ 16 „	1·16	At Behar itself the weather has been favorable; cool with occasional storms. Heavy rain is reported from Dinhatta. Except at head-quarters there has been too much rain. The intervals of fine weather, however, have enabled weeding to go on to a certain extent. Fair weather is still needed. Price of rice still continues very high and of tobacco low. Cholera, which has never been bad, is on the decrease.
	Dinhatta ...	4·62	
	Mathabhanga ...	2·58	
	Mecklgunge ...	3·30	
	Eastern Districts.		
DACCA DIVS. 17	Dacca, May 18 „	2·49	Weather—very cool, with almost daily rain. The state and prospects of the crops are favorable. The rain has been excessive for the time of year, but this is all in favour of the crops at present.
	Moonsheegunge ...	4·12	
	Manickgunge ...	1·45	
18	Furreedpore, „ 18 „	1·94	Weather—cloudy and showery. The prospects of the crops are good. Sowing of *aus* and *aman dhan* is going on, and *jalee dhan* is being harvested. In the Bhoosna thana the rain is said to have been rather too much for the crops.
	Goalundo ...	1·12	
	Madaripore ...	4·10	
19	Backergunge, „ 16 „	2·86	Occasional heavy showers throughout the week all over the district. The cultivation of *aus* rice is going on well. There is rather an increase in cholera.
20	Mymensingh, „ 17 „	0·47	The weather has been stormy, but rain partial. Within 35 miles of the station five inches of rain fell in this period. Early rice and jute are promising.
21	Tipperah, „ 17 „	4·62	Violent storms of wind and rain nearly every day. Sowings of *aman dhan* are going on; *aus dhan* plants are doing well.
	Sub-division ...	2·95	
CHITTAGONG DIVN. 22	Chittagong, „ 16 „	2·45	Weather—fine and bright, with occasional heavy showers. *Panic aus* is being cut in some places. The rain has softened the ground, and has done much benefit to the standing crops. Imports of grain are small, and prices still continue abnormally high.
23	Noakholly, „ 16 „	2·08	Weather—comparatively cool. A sharp storm accompanied by rain passed over the station on the 10th. The cultivation of the early rice crop continues. Public health is good.
24	Chittagong Hill Tracts, „ 14 „	1·33	Weather—seasonable. Occasional falls of rain throughout the week. The rain has done much good to the *aus* paddy crop, and has facilitated sowing in the jooms.
	Hill Tipperah, „ 15 „	3·27	Rainy weather prevailed throughout the week. The heat is much reduced. The young crops are doing well.
	BEHAR.		
PATNA DIVS. 25	Patna, May 18 '78	2·17	Weather—unusually cool. Easterly winds prevail with storms The rain has benefitted the *cheena* and sugarcane crops, and has enabled the ryots to prepare their lands for *bhadoi* and *khurreef*. The unusual nature of the season causes anxiety, and prices continue to rise.
26	Gya, „ 18 „	1·60	Weather—very like rainy season. Maximum thermometer in the shade 100·4°. No change to report in the state and prospects of the crops. The rain will facilitate ploughings for the *bhadoi* crops, but might have been a little later with advantage.
	Nowada ...	1·05	
	Aurungabad ...	1·3	
	Jehanabad ...	Not recd.	
27	Shahabad, „ 18 „	0·82	Weather—cloudy. The nights are rather cool for the time of the season. East wind prevailing. The *cheena* is being harvested. The sugarcane being watered by the recent rains is doing well. The rain, however, which has just fallen is regarded as of bad promise, and fears are generally expressed lest the year should be one of short rainfall.
28	Durbhunga, „ 18 „	2·50	Weather—cool and clear after a heavy shower which fell on the 17th. The mango outturn promises to be very good. With unusual exportation of food-grains the prices have risen to famine rates.
29	Muzufferpore, „ 18 „	2·20	Weather—very cool and stormy. The young *bhadoi* crops wherever sown are in a promising state The preparation of lands for *bhadoi* and *khurreef* sowings is going on rapidly.
	Seetamurhee ...	2·04	
	Hajeepore ...	0·33	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BEHAR.—(Contd.)			
PATNA.—(*Contd.*) 30	Saran, May 18 '78	1·07	Weather—cloudy and stormy during the week. On the 14th a heavy shower of rain with hail fell at head-quarters. Rain has been general throughout the district. The prospects of indigo are much improved. The early *cheena* is being cut in some places, and the pods of *byaki* cotton are being plucked. The rain has been beneficial to indigo and sugarcane, and will to some extent admit of *mokai* (Indian-corn) being sown on dearah lands.
	Sewan ...	1·08	
	Gopalgunge ...	1·27	
31	Champaran „ 18 „	1·51	Two heavy showers fell during the week. East winds prevailed. The rain has been of much benefit to the indigo and *cheena* crops. The land is also in consequence being largely prepared for the autumnal crop. Prices continue high. Small-pox prevails.
BHAGULPORE DIVISION. 32	Monghyr, „ 18 „	2·08	Weather—stormy and generally cool. No particular alteration, but the rain has caused ploughing to begin already.
	Begoosarai ...	0·41	
	Jamui ...	0·91	
33	Bhagulpore „ 18 „	2·56	Weather—cool and stormy. This unusual rain is enabling the land to be prepared much earlier than usual. Cholera has almost disappeared.
34	Purneah, „ 18 „	1·31	Cloudy, cool and stormy weather daily. Easterly wind. Cultivation is progressing favorably. The cultivators look with some suspicion on the continuous rains. Indigo has been damaged in some parts of the district.
	Kissengunge ...	0·12	
	Arrareah ...	0·13	
35	Maldah, „ 18 „	0·69	Weather—cloudy and damp, with occasional light showers. The *bhadoi* rice crop is progressing most favorably. No more rain is wanted for the present. There is a slight tendency to a fall in prices. Health is good.
36	Sonthal Pergha. „ 19 „	0·88	Weather—still very cool for this season. Ploughing is going on everywhere. Sugarcane promises well.
ORISSA.			
37	Cuttack May 18 '78	0·53	Weather—hot and cloudy now and then. Ploughing and sowing are now going on everywhere in the district, and the season is most favorable. There are cases of cholera here and there.
ORISSA DIVN. 38	Pooree „ 16 „	0·71	Weather—hot and cloudy at intervals. The early *dalua* rice has been harvested; the outturn is only half of an average crop. The late *dalua* rice has suffered in many places for want of rain. There was rain generally throughout the district during the week, and ploughing for the next crop is going on. Common rice is selling at 11½ to 16$\frac{1}{16}$ seers per rupee, but is not available in large quantities. Rice is still exported by land to the Madras Presidency. There is a barque waiting for cargo off Pooree. Cholera is still reported.
39	Balasore, „ 17 „	2·28	Weather—cloudy. Heavy rain on the 15th. Sowing and ploughing have been entirely stopped. Public health is good.
CHOTA NAGPORE			
	South-West Frontier Agency		
40	Hazareebagh, May 17 '78	1·04	Weather—unsettled and unseasonable. Another stormy week. No change to report in the state and prospects of the crops. Work is offered to all willing to come forward. No numbers have presented themselves asking for employ, shewing that the pressure is still not very great.
41	Lohardagga, „ 18 „	2·34	Weather—unseasonably cool; stormy throughout the week, with frequent showers of rain. Agricultural operations are in progress all over the district. All lands have been ploughed and prepared, and sowings of rice and other rainy season crops are proceeding. No change in prices. Frequent cases of small-pox are reported from Palamow; the public health is otherwise good.
42	Singhbhoom, „ 17 „	1·33	Most unusual weather. Rain and storms every day but one during the week. It appears as if the rains have set in. Thermometer only 85°. *Bora dhan* is up and is progressing splendidly. The land has been prepared for the *gora dhan* which will be sown in a few days. *Goondli* and *beri* have been sown. The late extraordinary wet weather has done good up to date, but a burst of fair weather is now wanted. General health is good.
43	Manbhoom, „ 18 „	4·71	Very unusual weather. Storm and rain in place of day heat have characterised the week. The state and prospects of the crops are bad. If a break in the weather occurs and lasts long enough, the crops will do; at present the prospects are gloomy, because it is feared that the rains will break up too early

* Report of 19th shows rainfall during the week ending 18th.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table, "Prof. papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The above, being all comparable, afford the data for constructing a meteorological chart for the month which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

CALCUTTA, MONDAY, MAY 27, 1878.

Government of Bengal.

NOTIFICATION.

THE following Notification is published for general information.

By order of the Lieutenant-Governor of Bengal,

D. BARBOUR,

Offg. Secy. to the Govt. of Bengal.

FINANCIAL DEPARTMENT.

NOTIFICATION.

No. 616.

Simla, the 27th May 1878.

His Excellency the Right Hon'ble the Governor-General in Council has resolved to borrow Two-and-a-half Crores of Rupees for the public service in the following manner.

2. Promissory Notes will be issued for the said amount, bearing interest at the rate of four-and-a-half per centum per annum, payable half-yearly, on the Fifteenth day of March and the Fifteenth day of September: the form and conditions of these Notes will be, *mutatis mutandis*, those of the Notes of the Transfer Loan of 1st May 1865, except as to rate of interest, and that they will not be discharged before the Fifteenth day of September 1893. No Note will be issued for less than one hundred rupees, or for any amount not being a multiple of one hundred rupees.

3. Tenders for the whole or part of the above-named sum of Two-and-a-half Crores of Rupees will be received by the Comptroller-General from this date to noon of Monday, the Twenty-fourth day of June next.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller-General, Treasury Buildings, Calcutta, and enclosed in a sealed cover superscribed "Tender for Loan."

5. Tenders will be opened at the Office of the Comptroller-General in Calcutta, at noon on Monday, the Twenty-fourth day of June next.

6. Accepted tenders must be paid, in three equal instalments, on the following dates:—

One-third on Monday, the Eighth day of July 1878:
One-third on Thursday, the Eighth day of August 1878:
One-third on Monday, the Ninth day of September 1878:

but the whole or any part of any tender may be paid at any time after its acceptance is notified.

7. Interest upon each payment will be paid in advance from the date when such payment is received to the Fifteenth day of September next.

8. Payment of any accepted tender may be made to the account of the Government in one of the Presidency Banks of Bengal, Madras, or Bombay, or in any Branch of any of the Presidency Banks, or into any Government treasury or treasuries in India which may be named in the tender.

9. Each tender must be accompanied by a receipt from one of the Presidency Banks of Bengal, Madras, or Bombay, or one of their Branches, or from an Officer in charge of some Government treasury, or by a cheque on a banker in Calcutta, Madras, or Bombay, or by Government Promissory Notes made payable to the Comptroller-General for not less than one-hundredth, or if the tender be for less than five lakhs of rupees, then for not less than one-fiftieth part of the tender: this deposit of one or two per centum will be treated as in part payment of the last instalment, and will be forfeited if the allotment is not fully taken up: a cash deposit may, after the tender in support of which it is made is accepted, be replaced by a Government Promissory Note.

10. Scrip receipts for instalments paid will be given by the Presidency Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government treasuries at which payment is made: these receipts will, as soon as possible, be exchanged for Promissory Notes.

11. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller-General, and placed upon the table, in a sealed envelope, when the tenders are opened, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

12. The rate stated in a tender must not contain a fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. Tenders at the recorded minimum rate, and at rates above the recorded minimum, will be accepted in the order of the rates tendered, beginning with the highest rate: the amount allotted at the lowest rate at which tenders are accepted, will be divided amongst those who have tendered at this rate, in proportion, as nearly as may be found convenient, to the amounts of their tenders.

14. The names of the persons whose tenders are accepted in whole or in part, will be posted, for general information, at the Presidency Banks of Bengal, Madras, and Bombay.

FORM OF TENDER.

I hereby tender for rupees of the Loan advertised in the Notification published in the *Gazette of India* Extraordinary, dated the 27th May 1878, and agree to pay for the same, subject to the conditions notified, at the rate of rupees annas* for every hundred rupees allotted to me.

I enclose a *deposit receipt*† for rupees , and engage, if my offer be accepted to pay to the account of the Government at the Presidency Bank of‡ [or at the ‡ Branch of the Bank of‡ ; or into the Government treasury at‡ as the case may be] the first instalment on or before Monday, the Eighth day of July next, and the several later instalments on or before the dates fixed by the Notification, as follows:—

One-third on Monday, the Eighth day of July 1878:
One-third on Thursday, the Eighth day of August 1878:
One-third on Monday, the Ninth day of September 1878.

* Fractions of an anna not allowed.

† Or cheque or Government Promissory Note.

‡ Here enter the name of bank or treasury.

NOTES.—(1).—*A separate tender must be made at each rate tendered, and a separate deposit must accompany each tender. In order to avoid mistakes, it is desirable that the tender, or, at least, the name of the tenderer, and the amount and rate tendered, should be written in English. The rate tendered should be the whole amount per cent., not the premium or discount: thus;—"102," or "99;" not "Two per cent. Premium," or "One per cent. Discount."*

(2.)—*This Notification will be published, simultaneously, by the Secretary of State for India, in London.*

By Order of the Governor-General in Council,

R. B. CHAPMAN,

Secretary to the Government of India.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

NOTICE TO MARINERS.

Notice is hereby given that a bright light is now exhibited every night from sunset to sunrise, at an elevation of 50 feet above the sea, on the Flag Staff near the mouth of the Batticaloa lake, Eastern coast of Ceylon, and that it will be exhibited hereafter till further notice from the 15th February to the 31st October, the time during which the port is open.

J. DONNAN, *Master Attendant.*

[First Publication.]

NOTIFICATION.

The 18th May 1878.—In continuation of the notifications dated 23rd March and 19th June 1875, respectively, published in the *Calcutta Gazette* of the 24th March and 23rd June 1875, Part I, pages 335 and 728, declaring certain blocks of land in the Chittagong Hill Tracts to be reserved forests under Act VII of 1865, it is hereby notified, under Section 4 of Act VII of 1878, that it is proposed to extend the limits of the reserved forests constituted by the said notifications, and to constitute tracts of country in the Chittagong Hill Tracts lying within the boundaries described below reserved forests under the provisions of the said Act VII of 1878 :—

I.—Boundaries of the proposed Kassalong Reserve.

I.—The area drained by the Kassalong river and its feeders, bounded as follows :—

North.—The Tipperah Hills and Cachar.

East.—Cachar and the water-shed between the Kassalong and its feeders on one side, and the Kurnafoolee with its feeders, the Chota Hurin, the Bhar Huria, and Tipoee Doong, on the other side.

South.—A line running from the junction of the Kassalong and Kurnafoolee rivers approximately east and west, and following the water-shed between the two above-mentioned rivers.

West.—The Tipperah Hills and the water-shed between the Kassalong and its feeders on one side and the Chengree and Suber rivers on the other side.

(The above area includes the present Myanee reserve, formed under the notification of 23rd March 1875.)

II.—Boundaries of the proposed Sitapahar Reserve.

II.—The present Sitapahar reserve and an addition to it of about 5,000 acres, the whole block being bounded as follows :—

North and *East.*—The Kurnafoolee and a demarcated line running close to it.

South.—A demarcated line running from the east boundary across the Kaptaie to the Kurnafoolee, then the Kurnafoolee.

West.—A line running from Sitapahar to the Kurnafoolee meeting that river near its junction with the Kytanadi.

III.—Boundaries of the proposed Matamori Reserve.

III.—The area drained by the Matamori and its feeders above Gnaingtoung with the following boundaries :—

North.—A line running approximately east and west from Gnaingtoung to the eastern and western boundaries.

East.—The water-shed between the Sungoo and Matamori rivers.

South.—The Akyab Hill Tracts.

West.—The Akyab Hill Tracts and the water-shed between the Matamori on one side and Bagkhalee Eadgong and Jeantha rivers on the other side.

(The above area includes the present Matamori reserve, formed in June 1875.)

2. The Lieutenant-Governor appoints the Deputy Commissioner of the Chittagong Hill Tracts to be the Forest Settlement Officer, under the provisions of Chapter II of the said Act VII of 1878, to inquire into and determine the existence, nature, and extent of any rights alleged to exist in favour of any person in or over any land comprised within the boundaries specified above, or in or over any forest produce to be found therein (not being rights for the surrender of which compensation has already been awarded in the course of proceedings already taken under Act VII of 1865), and to deal with the same as by law provided.

Regulation and Management of Privies.

31. Every owner or occupier of any house, land, or premises from which any night-soil or other offensive matter is not removed by the said owner or occupier shall give access to the servants of the Municipality to such house, land, or premises for the removal therefrom of any night-soil or any such offensive matter, within such hours as may be determined by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

32. Every owner or occupier of any house, land, or premises who shall construct any privy thereon shall be bound to construct such privy above ground, and shall provide such privy with a suitable moveable vessel of metal or earthenware for the reception of night-soil.

The penalty for infringement after notice shall be a fine not exceeding Rs 25.

33. Within fifteen days of receipt of a notice in writing from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well

or other underground privy, or any other privy which may seem to the Commissioners to be noxious or improperly constructed, may be situated, shall cause such privy to be filled up, closed, or otherwise altered as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days from the date of service thereof, the Commissioners may themselves cause to be filled up, closed, or otherwise altered the privy mentioned in the said notice, and any expenses so incurred by the Commissioners shall be recoverable as a debt due to the Commissioners.

34. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature directed in bye-law No. 32.

The penalty for infringement shall be a fine not exceeding Rs. 20.

35. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

36. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

37. No person shall carry night-soil through the street otherwise than in a closely covered receptacle, of such description or pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 10.

By order of the Board of Revenue, L. P.,

J. F. BRADBURY, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, the 30th April 1878.

6. Accepted tenders must be paid, in three equal instalments, on the following dates:—

One-third on Monday, the Eighth day of July 1878:
One-third on Thursday, the Eighth day of August 1878:
One-third on Monday, the Ninth day of September 1878:

but the whole or any part of any tender may be paid at any time after its acceptance is notified.

7. Interest upon each payment will be paid in advance from the date when such payment is received to the Fifteenth day of September next.

8. Payment of any accepted tender may be made to the account of the Government in one of the Presidency Banks of Bengal, Madras, or Bombay, or in any Branch of any of the Presidency Banks, or into any Government treasury or treasuries in India which may be named in the tender.

9. Each tender must be accompanied by a receipt from one of the Presidency Banks of Bengal, Madras, or Bombay, or one of their Branches, or from an Officer in charge of some Government treasury, or by a cheque on a banker in Calcutta, Madras, or Bombay, or by Government Promissory Notes made payable to the Comptroller-General for not less than one-hundredth, or if the tender be for less than five lakhs of rupees, then for not less than one-fiftieth part of the tender: this deposit of one or two per centum will be treated as in part payment of the last instalment, and will be forfeited if the allotment is not fully taken up: a cash deposit may, after the tender in support of which it is made is accepted, be replaced by a Government Promissory Note.

10. Scrip receipts for instalments paid will be given by the Presidency Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government treasuries at which payment is made: these receipts will, as soon as possible, be exchanged for Promissory Notes.

11. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller-General, and placed upon the table, in a sealed envelope, when the tenders are opened, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

12. The rate stated in a tender must not contain a fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. Tenders at the recorded minimum rate, and at rates above the recorded minimum, will be accepted in the order of the rates tendered, beginning with the highest rate: the amount allotted at the lowest rate at which tenders are accepted, will be divided amongst those who have tendered at this rate, in proportion, as nearly as may be found convenient, to the amounts of their tenders.

14. The names of the persons whose tenders are accepted in whole or in part, will be posted, for general information, at the Presidency Banks of Bengal, Madras, and Bombay.

FORM OF TENDER.

I hereby tender for rupees of the Loan advertised in the Notification published in the *Gazette of India* Extraordinary, dated the 27th May 1878, and agree to pay for the same, subject to the conditions notified, at the rate of rupees annas* for every hundred rupees allotted to me.

* Fractions of an anna are not allowed.

I enclose a *deposit receipt*† for rupees , and engage, if my offer be accepted to pay to the account of the Government at the Presidency Bank of‡ [or at the ‡ Branch of the Bank of‡ ; or into the Government treasury at‡ as the case may be] the first instalment on or before Monday, the Eighth day of July next, and the several later instalments on or before the dates fixed by the Notification, as follows:—

† Or cheque or Government Promissory Note.

‡ Here enter the name of bank or treasury.

One-third on Monday, the Eighth day of July 1878:
One-third on Thursday, the Eighth day of August 1878:
One-third on Monday, the Ninth day of September 1878.

NOTES.—(1).—*A separate tender must be made at each rate tendered, and a separate deposit must accompany each tender. In order to avoid mistakes, it is desirable that the tender, or, at least, the name of the tenderer, and the amount and rate tendered, should be written in English. The rate tendered should be the whole amount per cent., not the premium or discount: thus:—* "102," or "99," *not* "*Two per cent. Premium,*" or "*One per cent. Discount.*"

(2.)—*This Notification will be published, simultaneously, by the Secretary of State for India, in London.*

The following orders, issued by the Government of India in the Foreign Department, are republished for general information :—

NOTIFICATIONS.—GENERAL.

Simla, the 17th May 1878.

No. 1341*G.*—The following extract from the *London Gazette*, dated 5th April 1878, is published for information :—

At the Court at *Windsor*, the 26th day of *March* 1878.

PRESENT:

The QUEEN's Most Excellent Majesty.	Duke of Devonshire.
Lord President.	Lord Chamberlain.
Lord Privy Seal.	Earl of Derby.

Mr. Watson.

WHEREAS by section 18 of "The Extradition Act, 1870," it is among other things enacted, that if by any law made after the passing of the said Act by the Legislature of any British Possession, provision is made for carrying into effect within such Possession the surrender of fugitive criminals who are in, or suspected of being in, such British Possession, Her Majesty may by the Order in Council applying the said Act in the case of any Foreign State, or by any subsequent Order, either—

Suspend the operation within any such British Possession of the said Act, or of any part thereof, so far as it relates to such Foreign State, and so long as such law continues in force there and no longer;

Or direct that such Law or Ordinance, or any part thereof, shall have effect in such British Possession, with or without modifications and alterations, as if it were part of the Act:

And whereas by an Act enacted by the Legislature of the Leeward Islands, the short title of which is "The Leeward Islands Extradition Act, 1877," it is provided that "all powers vested in and acts authorized or required to be done by a Police Magistrate or any Justice of the Peace in relation to the Surrender of Fugitive Criminals in the United Kingdom under 'The Extradition Acts, 1870 and 1873,' are thereby vested in and may in the Colony be exercised and done by any resident Magistrate in relation to the Surrender of Fugitive Criminals under the said Acts:"

And whereas it is further provided by the said Act that the said Act shall not come into operation until Her Majesty shall by Order in Council direct that the said Act shall have effect within the Colony as if it were part of "The Extradition Act, 1870," but that the said Act shall thereafter come into operation as soon as such Order in Council shall have been publicly made known in the Colony.

Now, therefore, Her Majesty, in pursuance of "The Extradition Act, 1870, and in exercise of the power in that behalf in the said Act contained, doth by this present Order, by and with the advice of Her Majesty's Privy Council, direct that the said Act shall have effect in the Colony of the Leeward Islands, without modification or alteration, as if it were part of "The Extradition Act, 1870."

And the Right Hon'ble Sir Michael Edward Hicks-Beach, Baronet, one of Her Majesty's Principal Secretaries of State, is to give the necessary directions herein accordingly.

The following orders, issued by the Government of India in the Financial Department, are republished for general information:—

NOTIFICATIONS.—PENSIONS, GRATUITIES, &c.

Simla, the 17th May 1878.

No. 576.—The Governor-General in Council directs the publication of the following addenda and corrigenda to the Codes of the Financial Department:—

CIVIL PENSION CODE.

Chapter XXII (page 67).

Add the following to Section 124 in this Chapter as clause (*c*):—

124 (*c*).—"A pension granted under clause *a* (1 or 2) will, unless the pensioner is more than 60 years old, in which case it will be permanent, continue, in the first instance, for two years only. At the end of 18 months, the pensioner shall be examined afresh by a medical officer in charge of a civil station, upon whose report the Local Government will decide whether the pension shall be continued, or not, for a further term, or permanently, and whether the pensioner shall be subjected or not to further medical examination."

No. 577.

CIVIL PENSION CODE.

SUPPLEMENT D (PAGE 107).

In Section I, for the words quoted on the margin, read—"A monthly contribution to the extent noted in the margin, is made by the Pilots," &c. *Also, after* "orphans" *insert* "and;" *and, in seventh line, for* "will be allowed," *read* "are granted."

"In consideration of a monthly contribution to the extent noted in the margin, by the Pilots," &c

Insert the following as Section 1A (page 108):—

Section 1A.—On the reorganization of the Pilot Service in 1873, members of that service at the date of reorganization were specially permitted to subscribe for pensions to their families, without also subscribing for annuities for themselves, at the following rates, viz.—

For a—	Per mensem. Rs.
Branch Pilot	16
Master Pilot	8
First Mate Pilot	4
Second Mate Pilot and Volunteer	2

A member of the Pilot service at the date of reorganization was also permitted to subscribe for a family pension at rates higher than those corresponding with his rank, on the conditions—

(*a*) that the aggregate of the subscribers' contribution qualifying for the pension of such higher grade must not be less than—

Rs. 5,000 for a Branch Pilot,
„ 3,000 „ Master Mate,
„ 1,800 „ First Mate,
„ 900 „ Second Mate and Volunteer.

(*b*) that if the aggregate of the contribution be less than this prescribed minimum, a deduction of one-sixth should be made from the pension which would otherwise have been paid to his widow till the amount is made up.

The privilege of subscribing at a higher rate than that corresponding to an officer's own rank is restricted to an officer who, on or after the reorganization of 1873, and before the 27th October 1877, elected to contribute in a grade higher than his own. An officer so circumstanced can continue to enjoy this privilege; but all Pilots admitted to the service after 27th October 1877 are required to subscribe at the rates detailed on the margin of Section I.

NYA DOOMKA DEPUTY COMMISSIONER'S OFFICE, the 27th April 1878.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Rajshahye, will be put up to sale at the Rajshahye Collectorate on the 27th of June 1878, corresponding with the 14th of Ashar 1285 (Bengali).

The purchasers will be subject to the following conditions of sale:—

CONDITIONS OF SALE.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Auction sale of Sal Timber at Dacca.

IT is hereby notified that on Thursday, 20th June 1878, beginning at 7 A.M., three hundred sal logs measuring about 8,000 cubic feet, will be sold to the highest bidder from the Government timber depôt at Dacca. If sufficient inducement be given, an additional 200 logs will be offered for sale on the same occasion.

A temporary shed will be erected in the depôt to protect purchasers from sun or rain

The timber will be on view from the 1st June 1878.

THE CONDITIONS OF SALE ARE—

1. One-fourth of the purchase-money to be paid on the day of sale, and the remaining three-fourths within two months of the day of sale.

2. No timber can be removed until the full purchase-money has been paid.

3. The timber must be removed within two months of the day of sale; if not removed it will revert to Government, and any money paid on it will be forfeited.

4. If one-fourth of the purchase-money is not paid down on the day of sale, the timber will be resold at the risk of the defaulting purchasers.

5. The timber will be at the risk of the purchasers from the moment it is knocked down.

PROPOSED AMENDMENT OF THE RENT LAW.

No. 250T, dated Darjeeling, the 18th May 1878.

From—A. MACKENZIE, Esq., Secy. to the Govt. of Bengal, in charge of the Revenue and General Departments.

To—The Secretary, British Indian Association.

IN your letter No. 62 of the 8th October last, objections are taken to making a ryot's occupancy tenure generally transferable, on the ground that to do so would "vest the ryot with the status of co-proprietor;" but it is proposed by the Association to legalise the sale of occupancy tenures in satisfaction of decrees for rent at the option of the zemindar; and it is suggested that where a zemindar does adopt this remedy, a tenure once so sold should be declared to have become a transferable tenure. I am to ask for a further expression of the views of the Association in connection with this question.

2. The Lieutenant-Governor will not enter into a discussion of the theory enunciated by the Association, to the effect that the creation of the occupancy tenure by Act X of 1859 was an encroachment upon the rights of the landlords under the permanent settlement, though he considers this open to question both historically and legally; but he desires me to point out that, as a matter of fact, the transferable character of these tenures has been affirmed by local custom in very many districts; nor has it ever been held or alleged that such a transfer implies the recognition in the ryot of any rights amounting, as

the Association put it, to co-proprietorship. The tenure is transferred as an occupancy tenure, and the landlord has the same remedies against the new tenant, and the same powers of enhancement that he had against the old.

3. The Lieutenant-Governor does not understand that the Association propose to interfere with local custom, where this has recognised the transferable character of occupancy tenures; but they propose to limit the recognition in other cases to tenures sold in execution at the request of the zemindars. Now, apart from the fact that the existence in many places of a local custom of wider application than the direct provisions of the law is likely to lead to conflicts of evidence in the courts, the Lieutenant-Governor thinks that the suggestions of the Association are open to question from another point of view. It is probable that in most instances occupancy tenures sold in execution of decrees will be bought in by the decreeholder, the zemindar himself. In that case the tenure would practically lose its characteristics and lapse into the residuum of the zemindar's "khamar" or "nij-jote," being broken up and relet in portions on such terms as the zemindar chose to exact. A large landlord persistently following out the policy of buying up such tenures would probably very soon change the whole face of his property, and reduce his tenantry generally to the condition of mere tenants-at-will. The Lieutenant-Governor is not satisfied that this is a policy which the Government can properly be asked to support. In many parts of the country the consequences might be serious both for Government and the zemindars

4. On the other hand, it does not appear that the general recognition of the transferability of the occupancy tenure would have any injurious effect upon the position of the zemindars, while it would certainly tend to improve the condition of their tenantry, and to give them a greater interest in the improvement of their lands. The Lieutenant-Governor can imagine nothing so calculated to improve the system of cultivation and the value of an estate as permanency and security of the ryot's tenure. The zemindars fully appreciate the value of security of their own tenure, and justly attribute to it the most beneficial results, but appear to be unable to see the advantage of extending it to the lower grades of holding. The provision that all such transfers must be registered in the zemindar's Sherishta, and that no transfer of a fractional part of a jote need be recognised, would protect the landlord's legitimate rights—while, as before remarked, the transfer would carry with it all the liabilities and incidents of the occupancy tenure.

5. If, after securing transferability of tenure to the occupancy ryot (a right which he already possesses by custom in many parts of the country), provision were made in the law to prevent his converting himself into a mere middleman, and for strictly regulating the character of the sublotting to which an occupancy ryot must limit himself, it would seem that a great improvement would be effected in the law of tenant right in Bengal, such as would tend to raise the value of property and increase the landlord's security for his rent.

6. I am to ask that the Association will reconsider the last part of their letter under notice with reference to the foregoing remarks.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 25th May 1878.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
BURDWAN DIVS. 1	Burdwan, May 25 '78	3·56	Weather—hot. The incessant rain has proved injurious to the standing crops of *til*, cotton, and sugarcane, and has retarded the sowing of *aus* and *aman* crops. Public health is generally good.
	Culna ...	1·59	
	Cutwa ...	0·73	
2	Bankoora, „ 25 „	0·40	Weather—warmer than last week. Cloudy and threatening sky in the evenings, but storms seemed to pass without breaking. Ploughing and sowing of the *aus* crop are progressing. Cotton has begun to be harvested. Outbreaks of cholera and small-pox continue to be reported
3	Beerbhoom, „ 25 „	2·37	Again two heavy storms, but the weather appears to be settling. The state and prospects of the crops are unchanged. The ground wants rest from rain.
4	Midnapore, „ 25 „	.....	Weather—generally hot. The state and prospects of the crops are fair. Ploughing and sowing are going on rapidly.
5	Hooghly, „ 25 „	0·90	Weather—sultry. Cloudy on the afternoon of the 19th. Rain on the 20th and 24th. The prospects of the crops are very good. Cow-pox and small-pox are prevailing in certain villages of thana Pundooah.
	Howrah, „ *28 „	0·70	Weather—very hot, except the one day on which rain fell The break of fine weather has facilitated cultivation, which was being impeded. *Boro dhan* is being cut.
	Central Districts		
PRESIDENCY DIVS. 6	24-Pergunnahs, May 27† „	0·14	Weather—warm and cloudy. Ploughing and sowing are going on everywhere. Public health is good.
7	Nuddea, „ 25 „	0·67	Weather—not hot, but close, with occasional storms. The state and prospects of the crops are unchanged, *i.e.*, they are decidedly favorable.
8	Jessore, „ 25 „	1·84	Weather—hot. The prospects of the crops are the same as in last week. Rain continues. A little bright weather is wanted. A few cases of small-pox have been reported.
9	Moorshedabad, „ 25 „	1·78	Weather—showery. The state and prospects of the crops are satisfactory. The *boro* harvest is over. The *aus* is sown, and the preparation of the land for the *aman* is being pushed on. Price of rice rather easier in some places. Cholera is abating.
RAJSHAHYE AND COOCH BEHAR DIVS. 10	Dinagepore, „ 24 „	1·1	Frequent storms. A fine meteor was seen on the evening of the 20th. The prospects of the crops are favorable.
11	Rajshahye, „ 25 „	1·23	There has been ample rain throughout the district during the week. The prospects of the *dhan* crop continue to be favorable, but sowing has been somewhat retarded in Nattore by the heavy rainfall. Other crops, such as jute, *til* and *aman*, are thriving *Boro dhan* is being cut, and is expected to give a good outturn. Prices still continue high. Rice is being sold at 17 kutcha seers per rupee. General health is good.
12	Rungpore, „ 24 „	4·58	The weather has been variable with high ranges of temperature. The state and prospects of the crops continue to be favorable. Public health is good, considering the state of the weather.
	Bagdogra ...	2·64	
	Gaibanda ...	3·99	
13	Bogra, „ 25 „	1·62	Weather—hot and cloudy, with almost daily rain. East wind prevailing. There was heavy rain accompanied by hailstones on the afternoon of the 21st. There were also many subsequent showers of rain during the week, which have greatly benefitted the ploughing and sowing of *aus* and other crops in general. The standing crops are getting on well, and promise a good outturn. No change in the state of health of the district since the last report.

* Return of 26th shows rainfall during the week ending 25th.

† Report of 27th shows rainfall during the week ending 25th.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Continued.*)			
	Central Districts.—(Contd.)		
RAJSHAHYE & COOCH BEHAR DIVN.—*contd.* 14	Pubna, May 25 '78	2·14	Weather—sultry before the rain, but cooler after it. There were occasional falls of rain throughout the week, which have done much benefit to the standing crops. Cholera has almost abated in the mofussil.
15	Darjeeling	.....	Return not received.
16	Julpigoree „ 25 „	1·74	Bright sun during the day, with storms of rain and thunder almost every night. The frequent rain prevents the weeding of the *bhadoi dhan* fields. In other respects all crops promise well. Cholera is reported prevalent in several villages in the Dooars.
	Cooch Behar, „ 23 „ Dinhatta ... Mathabhanga ... Meckligunge ...	1·74 1·25 0·91 1·37	The first part of the week was cloudy and stormy; the latter days were hot and steamy. The prospects of *bitri dhan* are good. There has not been so much rain, and weeding has been feasible. More fine weather is wanted. Rice is as high as Rs 3-12 per maund in the bazar at head-quarters. A great deal of land is under *bitri* this year, and, if the weather is favorable, a bumper crop may be expected and the price of rice will fall. Public health is very good.
	Eastern Districts.		
DACCA DIVN. 17	Dacca, May 25 „ Manickgunge ...	1·70 2·60	Weather—seasonable on the whole, but cool for the time of year. The state and prospects of the crops are favorable. Public health is better than usual.
18	Furreedpore,* „ 27 „ Goalundo ... Madaripore ...	5·29 2·86 0·65	Frequent storms and a large quantity of rain. The sowing of *aus* and *amun dhan* is going on. *Jali dhan* is being harvested The prospects are reported good, except in thana Bhoosna, where the rainfall has been excessive.
19	Backergunge, „ 23 „	0·57	Weather—cloudy and fine alternately. The prospects of the crops are promising. The public health is fair, but cholera is still about.
20	Mymensingh, „ 24 „	1·74	Weather—hot, with occasional showers. The state and prospects of the crops are satisfactory.
21	Tipperah, „ 24 „ Sub-division ...	2·82 0·33	Fine on two or three days; during the rest of the week cloudy, with occasional heavy showers. In the sub-division weather very sultry, and more rain is wanted. The sowing of *amun dhan* is nearly completed. *Aus dhan* is coming up well. The jute plants are looking well.
CHITTAGONG DIVN. 22	Chittagong, „ 24 „	0·23	Weather—fine and hot. *Pania aus* is likely to be a fair crop. There have been a few cases of cholera in thana Patia.
23	Noakholly, „ 23 „	0·4	Weather—alternately hot and cool Occasional slight rain. The early rice crop is being reaped. Pulses, chillis, &c. are being gathered. Public health is fair.
24	Chittagong Hill Tracts, „ 21 „	1·44	The weather was very hot up to the 20th. A shower of rain on the morning of the 21st has lowered the temperature. The fall of rain has done some good to the joom paddy crop, and more is wanted for improving its prospects. The *aus* paddy crop is ripening.
	Hill Tipperah ...	.....	Return not received.
BEHAR.			
PATNA DIVN. 25	Patna, May 25 '78	0·29	Weather—same as last week. No change to report in the state and prospects of the crops.
26	Gya, „ 25 „ Aurungabad ... Nowada .. Jehanabad ..	0·27 0·19 0·70 0·85	Weather—still very like that of the rainy season. Maximum thermometer in the shade 108·5° The cultivators are very well satisfied to have the rain that has fallen. Prices are reported a little easier in consequence. Ploughing is going on for *murwa* and *mokai*.
27	Shahabad. „ 25 „	1·00	Weather—unsettled, with frequent storm and rain. No change has taken place in the state and prospects of the crops since last report.
28	Durbhunga. „ 27* „	0·74	Weather—cool after a heavy shower on the 23rd. The prospects of *moong*, *kowni*, *cheena* and indigo are favorable. The late rains have helped much the preparation of lands for early sowings.
29	Mozufferpore, „ 25 „ Hajeepore ... Seetamurhee ..	2·[illegible] 0·[illegible] 0·96	Weather—cool and stormy. The preparation of lands for *bhadoi* and *khurreef* sowings is going on favorably. The crops already sown are doing well.

BEHAR.—(Contd.)			
PATNA.—(Contd.) 30	Sarun, May 28 '78	0·57	Weather—cloudy, with sunshine at intervals. East wind is prevailing. More or less rain has fallen throughout the district. There is nothing new to report about the crops, the state and prospects of which continue to be favorable. Prices have slightly risen. Public health is good.
	Sewan ...	0·08	
	Gopalgunge ...	1·19	
31	Chumparun „ „	.....	Return not received.
BHAGULPORE DIVISION. 32	Monghyr, „ 25 „	0·04	Weather—stormy, with intermittent heat. Ploughing is going on. The accounts of indigo are good. Some early rice has been sown.
33	Bhagulpore „ 25 „	0·47	Weather—cool, with one or two storms each day. The preparation of lands and the sowing of *bhadoi* are going on busily. Cholera has disappeared, except in the extreme north-east of the district.
34	Purneah, „ 25 „	0·77	Weather—warm, damp and showery. Some cultivators complain of too much rain The heavy rain has been detrimental to indigo. Cholera is decreasing rapidly.
	Kissengunge ...	0·56	
	Arrareah ..	1·12	
35	Maldah, „ 25 „	0·31	Weather—hot and stormy Occasional very light showers. The rice crop is getting on well, and prospects are good. Prices are stationary. Health is good.
36	Sonthal Pergha. „ *26 „	1·00	Weather—very cool for the season. No change in the state and prospects of the crops since last report.
ORISSA.			
ORISSA DIVS. 37	Cuttack May 25 '78	1·58	Weather—hot and cloudy now and then with storms. Ploughing and sowing are going on and in some places the seed has germinated. Cholera is less prevalent, and the public health on the whole is good.
38	Pooree „ 23 „	0·85	Weather—seasonable There was rain generally throughout the district, and ploughing is in good progress Common rice is selling at 11½ to 13½ seers for a rupee, and in the salt tracts at 10½ seers. Exportation of rice to the Madras Presidency still continues: 3,325 bags of grains were shipped to Madras last week. The labouring poor in Banpore, on the borders of the Ganjam district, are suffering from the high prices of food. Cholera is reported from many parts of the district.
	Khoorda ...	1·05	
39	Balasore, „ 24 „	0·73	Daily north-westers continue, but the week's rainfall has been much less. Sowing and ploughing progress vigorously. Public health is fair.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh, May 24 '78	0·18	Weather—still unseasonably cool, though somewhat more settled. *Goondli, murwa,* and in some places *dhan,* are being sown; otherwise no change to report. Matters, if not better, are not worse. General health is fairly good.
41	Lohardugga, „ 25 „	0·07	Weather—unsettled; warm. Agricultural operations are still proceeding. The young paddy looks well No change in prices. Cases of small-pox are still reported from Palamow, but in other respects the general health is good. Considerable mortality amongst cattle is also reported from Palamow from disease and want of fodder.
42	Singbhoom, „ 24 „	0·84	Weather—not so wet as last week, but still rain fell on five days out of seven. *Gora dhan* is being largely sown, and the crops on the ground are doing very well. General health is good.
43	Manbhoom, „ 25 „	0·42	Weather—seasonable, though somewhat cooler than usual. Ploughing has been carried on. *Gora dhan* and other *bhadoi* crops have been sown, and the first-named is springing.

* Report of 26th shows rainfall during the week ending 25th.

Published for general information.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, INDIA,
The 27th May 1878.

ALEXANDER PEDLER,
For Offg. Meteorological Reporter to the Government of India.

Reports of Fluctuation of Traffic on the East Indian Railway for four weeks ending 27th April 1878.

EAST INDIAN RAILWAY, TRAFFIC MANAGER'S OFFICE, JAMALPORE, THE 18TH MAY 1878.

Remarks on Traffic of East Indian Railway for four weeks ending 27th April 1878.

THE approximate figures are—

	Coaching.		Goods		Total.
	Nos.	Rs.	Mds.	Rs.	Rs.
1878	563,676	8,81,024	51,98,553	19,83,716	28,64,750
1877	526,691	7,13,300	54,61,753	23,55,740	30,70,040
Increase	39,185	1,67,734	...	...	.....
Decrease	..	... ..	2,63,196	3,71,024	2,03,290

The regular passenger traffic has been very heavy, and there were in addition large receipts for extra troop trains, owing to a portion of the Malta expeditionary force being conveyed during the month.

In merchandise traffic there is a considerable falling off, but a comparison with 1876 moreover shows that the period of *four* weeks under review saw a goods traffic only about two per cent. below that of *five weeks* in 1876.

The most noticeable changes are—

Increases.

Coal.	Piece-goods and Twist.	Saltpetre.	Seeds.

Decreases.

Grain.	Iron.	Op'um.	Sugar.
Gunny.	Jaggree.	Salt.	

Increases.

Coal—Upward	Mds.	—21,027	+Rs. 1,033
Downward	,,	+56,366	+ ,, 9,462
Net increase ...		35,339	10,495

This increase is not a very large one, but it follows on the very large one of Mds. 4,11,000, Rs. 61,500, which was the increase in 1877 over 1876.

Piece-goods and Twist ... ... Mds. 47,137 Rs. 54,306

The trade continues brisk, and the falling off in the early part of the year has now been adjusted.

Saltpetre ... ... Mds. 31,659 Rs. 11,528

The clearances from the port in April were only 1,435 tons, whereas we carried, as will be seen, 2,700 tons.

Seeds ... ... Mds. 4,35,577 Rs. 90,271

This is an increase of over 50 per cent. in weight, the greater part of it from Cawnpore and Patna, with a considerable increase on the loop line export to Howrah

Decreases.

Grain ... ... Mds. 5,95,288 Rs. 3,83,951

It will be seen from the table that there is a large falling off in the *weight* of rice with an increase in earnings.

That barley and "pulses" show an increase nearly balancing the decrease in "other grains," and

That the decreased earning on wheat, Rs. 3,80,248, is almost exactly the net decrease on the whole grain traffic.

The falling off in the weight of rice is easily accounted for when the abnormal demand for rice for Madras at this time last year is considered.

Large quantities of this were drawn from the Metropolitan districts and with a very short lead to the port.

Two such small stations as Kanoo Junction and Mymaree, for instance, show a decrease under this head of Mds. 64,000, or about half of the whole decrease on the month; whereas the *amount* earned by that large weight in April 1877 reached something *under* Rs. 7,000.

I may remark that the export of rice from Calcutta in April 1878 was only 22,600 tons against 36,400 in 1877.

The salient feature then in the state of the grain traffic is *wheat*, of which only 700 tons left Calcutta during April with freights at 17*s* 6*d*. to 25*s*. a ton, as compared with 15,500 tons last year when freights were £3-10.

The total shipments from 1st January to 24th April have been—

1878 .. .. Tons 6,929

1877 ... ... ,, 46,215

The state of things in the North-Western Provinces is still such as to cause considerable anxiety; prices are very high still, and the outturn of the latest crop unsatisfactory.

Much depends on the rain setting in at the expected time, and meanwhile we can expect to draw but very little produce from the districts which have hitherto furnished the great bulk of the wheat traffic.

Gunny ... ... Mds. 35,086 Rs. 42,134

This was exceptionally heavy last year.

Comparing 1878 with 1876 we have—

1878 .. .. Mds. 63,819 Rs. 40,770

1876 ... ... ,, 40,886 ,, 33,287

Iron ... . Mds. 10,590 Rs. 28,188

This decrease is almost entirely due to the despatch of a very large quantity of cast iron pipes from Howrah to Moradabad last year for special works.

The ordinary trade in iron for native manufacturers has been good.

Jaggree ... ... Mds 50,946 Rs. 23,034

Sugar ... ... ,, 95,637 ,, 5,488

Large as the decrease is in jaggree, the *earning* from this source is 33 per cent. higher than in April 1876.

As compared with last year, the decrease is due in part to scantier crops, but very largely to the altered state of things in the North-Western Provinces, where the high prices of food-grain have left but little room for the import of jaggree from Behar as usual.

As to sugar traffic, it is only necessary to point to the Calcutta exports—

April 1878 ... ... Tons. 200

,, 1877 ... ... ,, 9,500

to fully account for the falling off.

Opium ... ... Mds 25,807 Rs. 35,790

The provision opium despatches were completed earlier this year than in 1877, having been more continuously carried on.

Salt ... ... Mds. 40,303 Rs. 14,716

There has been a considerable slackness in the Calcutta Salt Market; large shipments are said to be on their way out, and rates for "to arrive" salt being low, buyers are holding back.

The train mileage has been—

	Coaching.	Goods.	Total.
1878	187,079	276,776	463,855
1877	178,907	432,334	611,241
Increase	8,172	.....	...
Decrease	.....	55,558	47,386

Earnings per train mile—

	Coaching. Rs. A. P.	Goods. Rs. A. P.	Total. Rs. A. P.
1878	4 11 4	5 4 4	5 1 4
1877	3 15 10	5 7 3	5 0 4
Increase	0 11 6	.....	0 1 0
Decrease	.....	0 2 11	.....

The increase in coaching mileage has been partly due to the extra troop trains before referred to, and partly to the experimental local train between Allahabad and Cawnpore

JUBBULPORE LINE TRAFFIC.

	Coaching. Nos.	Coaching. Rs.	Goods. Mds.	Goods. Rs.	Total. Rs.
1878	92,853	96,361	3,61,809	2,50,261	3,46,622
1877	84,646	79,263	10,26,264	2,53,111	3,32,375
Increase	8,207	17,108	.....	.....	14,246
Decrease	.....	.....	1,64,756	2,850	.....

The increase in coaching traffic is in great part due to the passage of the expeditionary force towards Bombay.

The merchandise traffic it will be seen, though in weight a good deal below 1877, is almost identical in amount

The extra weight carried in 1877 was in traffic from the stations close to Jubbulpore to the "famine" districts, with a lead of from 10 to 50 miles only on the Jubbulpore line; whereas nearly the whole traffic is now *through* from our main line to Bombay.

The train mileage has been—

	Coaching.	Goods.	Total.
1878	20,328	56,230	76,558
1877	19,026	67,239	86,265
Increase	2,302	.....	.....
Decrease	.....	11,009	8,707

and the earnings per train mile on all traffic—

	Rs. A. P.
1878	4 8 5
1877	3 14 4

GENERAL REMARKS.

It will have been seen above that, while the net decrease in the earnings for the four weeks, as compared with last year, is Rs 2,03,000, the decrease in the one staple of wheat is Rs. 3,80,000, or nearly twice as much; and further, that this decrease in wheat traffic arises from causes which no management can control, and no alteration of rates modify in the smallest degree.

When wheat can be sent *viâ* Suez Canal from Calcutta to Liverpool at 17*s.* 6*d* per ton, and yet is not forthcoming at the rate of more than 20 tons a day, it must be clear that nothing that a Railway Company could do would have any effect.

J. C. BATCHELOR, *Traffic Manager.*

NOTIFICATION.

The 18th May 1878.—In continuation of the notifications dated 23rd March and 19th June 1875, respectively, published in the *Calcutta Gazette* of the 24th March and 23rd June 1875, Part I, pages 335 and 728, declaring certain blocks of land in the Chittagong Hill Tracts to be reserved forests under Act VII of 1865, it is hereby notified, under Section 4 of Act VII of 1878, that it is proposed to extend the limits of the reserved forests constituted by the said notifications, and to constitute tracts of country in the Chittagong Hill Tracts lying within the boundaries described below reserved forests under the provisions of the said Act VII of 1878:—

I.—Boundaries of the proposed Kassalong Reserve.

I.—The area drained by the Kassalong river and its feeders, bounded as follows:—

North.—The Tipperah Hills and Cachar.

East.—Cachar and the water-shed between the Kassalong and its feeders on one side, and the Kurnafoolee with its feeders, the Chota Hurin, the Bhar Huria, and Tipoee Doong, on the other side.

South.—A line running from the junction of the Kassalong and Kurnafoolee rivers approximately east and west, and following the water-shed between the two above-mentioned rivers.

West.—The Tipperah Hills and the water-shed between the Kassalong and its feeders on one side and the Chengree and Suber rivers on the other side.

(The above area includes the present Myanee reserve, formed under the notification of 23rd March 1875.)

II.—Boundaries of the proposed Sitapahar Reserve.

II.—The present Sitapahar reserve and an addition to it of about 5,000 acres, the whole block being bounded as follows:—

North and *East.*—The Kurnafoolee and a demarcated line running close to it.

South.—A demarcated line running from the east boundary across the Kaptaie to the Kurnafoolee, then the Kurnafoolee.

West.—A line running from Sitapahar to the Kurnafoolee meeting that river near its junction with the Kytanadi.

III.—Boundaries of the proposed Matamori Reserve.

III.—The area drained by the Matamori and its feeders above Gnaingtoung with the following boundaries:—

North.—A line running approximately east and west from Gnaingtoung to the eastern and western boundaries.

East.—The water-shed between the Sungoo and Matamori rivers.

South.—The Akyab Hill Tracts.

West.—The Akyab Hill Tracts and the water-shed between the Matamori on one side and Bagkhalee Eadgong and Jeantha rivers on the other side.

(The above area includes the present Matamori reserve, formed in June 1875.)

2. The Lieutenant-Governor appoints the Deputy Commissioner of the Chittagong Hill Tracts to be the Forest Settlement Officer, under the provisions of Chapter II of the said Act VII of 1878, to inquire into and determine the existence, nature, and extent of any rights alleged to exist in favour of any person in or over any land comprised within the boundaries specified above, or in or over any forest produce to be found therein (not being rights for the surrender of which compensation has already been awarded in the course of proceedings already taken under Act VII of 1865), and to deal with the same as by law provided.

Regulation and Management of Privies.

31. Every owner or occupier of any house, land, or premises from which any night-soil or other offensive matter is not removed by the said owner or occupier shall give access to the servants of the Municipality to such house, land, or premises for the removal therefrom of any night-soil or any such offensive matter, within such hours as may be determined by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

32. Every owner or occupier of any house, land, or premises who shall construct any privy thereon shall be bound to construct such privy above ground, and shall provide such privy with a suitable moveable vessel of metal or earthenware for the reception of night-soil.

The penalty for infringement after notice shall be a fine not exceeding Rs. 25.

33. Within fifteen days of receipt of a notice in writing from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well

or other underground privy, or any other privy which may seem to the Commissioners to be noxious or improperly constructed, may be situated, shall cause such privy to be filled up, closed, or otherwise altered as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days from the date of service thereof, the Commissioners may themselves cause to be filled up, closed, or otherwise altered the privy mentioned in the said notice, and any expenses so incurred by the Commissioners shall be recoverable as a debt due to the Commissioners.

34. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature directed in bye-law No. 32.

The penalty for infringement shall be a fine not exceeding Rs. 20.

35. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

36. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

37. No person shall carry night-soil through the street otherwise than in a closely covered receptacle, of such description or pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 10.

The 15th May 1878.—In supersession of the notification dated the 31st August 1869, published at page 1710 of the *Calcutta Gazette* of the 15th September 1869, the Lieutenant-Governor of Bengal is pleased to promulgate the following amended regulations concerning the supply, within the territories under the Lieutenant-Governor of Bengal, of lime or lemon-juice or other antiscorbutics for the use of ships, in accordance with the provisions of Section 6 of the Merchant Shipping Act of 1867.

1. No lime or lemon-juice shall be deemed fit and proper to be taken on board any ship, for the use of the crew or passengers thereof, unless the same is shown by certificate, under the hand of an inspector appointed by the local Government, to be proper for use on board such ship, such certificate to be given upon inspection of a sample, but no such certificate to be given until it be shown to the satisfaction of such inspector that the juice contains not less than 25 grains of citric acid to the fluid ounce; nor unless the same contains fifteen per centum of proper and palatable proof spirits, to be approved by such inspector or by the proper officer of customs, and to be added before or immediately after the inspection thereof; nor unless the same is packed in such bottles at such time and in such manner, and is labelled in such manner as the inspector or the Collector of Customs may direct, provided that when any such lime or lemon-juice is deposited in any bonded warehouse, and has been approved as aforesaid by the said inspector, the said spirits, or so much of the said spirits as is necessary to make up fifteen per centum, may be added in such warehouse without payment of any duty thereon; and when any spirit has been added to any lime or lemon-juice, and the same has been labelled as aforesaid, it shall be deposited in the ware-house for delivery as ship's stores, only upon such terms and subject to such provisions of the Customs Act as are applicable to the delivery of ship's stores from a bonded warehouse.

2. In the event of a master of a ship being desirous of landing lime-juice in store, for the purpose of being rectified or rendered fit for the use of the crew or passengers on board such vessel, he shall enter the same at the Custom House, to be landed for rectification under the usual form of engagement, to be re-shipped after such lime or lemon-juice shall have been properly rectified and certified to by the inspector, under the same rules and regulations as in the case of lime or lemon-juice shipped direct from a warehouse.

3. When lime-juice has been taken from a warehouse as ship's stores, the label shall remain intact until twenty-four hours at least after the ship shall have left her port of departure on her foreign voyage.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations, may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificates of lectures and hospital attendance of the college are recognised by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

No. 14 of 1878.—The following Notice to Mariners is published for general information:—

NOTICE TO MARINERS.

HINDOSTAN—WEST COAST—BOMBAY HARBOUR.

Beacon on Choul Kádu Rock.

Notice is hereby given that a large, circular, gray stone beacon, 20 feet in diameter, and 60 feet above mean sea level, has been erected on the Choul Kádu rock, off Alibagh.

The beacon is in latitude 18° 36′ 0″ N., and longitude 72° 50′ 8″ E., and from it the following bearings have been taken —

Kenery or Kundari Lighthouse	..	...	N. by W. ½ W.
Temple in Kolaba Fort	...	...	N. N. E.
Saugur Gurh Hill Fort	...	...	N. E. by E. ½ E.
Kurla Fort (central summit)	..	...	S. E. ½ S.

The rock, on which this beacon has been placed, uncovers 9 feet at low-water spring tides, and the visible part is then about 100 feet across.

This rock appears to have been altogether omitted on the coast charts, although the foul ground known as Choul Kádu reef, which lies 1½ miles to the south-west, or outside of it, is shown.

NOTICE TO MARINERS.

PERSIAN GULF.

Shoal near Tumb Island (Jasirat Tanb).

The following information has been received from Lieutenant A. W. Stiffe, late I. N., relating to a shoal in the Persian Gulf lately surveyed by that officer:—

This shoal, which has hitherto been shewn on the charts as a patch with 7 fathoms on it, lies about 5 miles due east of the north extreme of Tumb Island (Jasírat Tanb) in latitude 26° 17′ 0″ N., and longitude 55° 25′ 0″ E.

It is about one mile in extent, with 30 to 40 fathoms of water all round.

The depth on the shoal generally is from 7 to 10 fathoms, but near its centre is a patch of 4½ fathoms, about 2 cables long, and lying in a north and south direction.

The tide makes a strong ripple over it, running at the rate of 2 to 3 knots at springs.

JESSORE COLLECTORATE, the 11th May 1878. W. H. PAGE, *Offg. Collector.*

NOTICE is hereby given that on Thursday, the 13th June next, the bungalows hereafter detailed, situated in the Cantonments of Hazaribagh, and now the property of Government, will, together with the out-offices attached to them, be put up to public auction at the upset prices noted opposite each, and will be sold to the highest bidder above the upset price.

The bungalows will be sold in the order in which they are placed below, commencing with No. 20, at 11 A.M.

CONDITIONS OF SALE.

1st.—On any bungalow and its out-offices being knocked down to a purchaser, the latter to pay at once Rs. 100 in currency notes as earnest money, failing which the purchaser may, at the discretion of the Executive Engineer, Barrackpore Division military works, be considered invalid, and the buildings put up again.

2nd.—The balance of the purchase-money is to be paid within one month from date of sale either to the Executive Engineer, Barrackpore Division, or the Sub-Divisional Officer, Hazaribagh, failing which the earnest money referred to in condition 1 will be forfeited, and the buildings will be put up for sale again.

3rd.—The rent due from the occupant or occupants of any bungalow to be payable to the purchaser from the date the balance of the purchase-money is paid, ownership and custody of the building being in the meantime retained by Government.

4th.—The purchasers of the bungalows to be subject to all cantonment rules and regulations now existing, or which Government may hereafter see fit to issue.

5th.—If the execution of any legal deeds of transfer or sale is required by purchasers, the latter will pay all expenses connected with such deeds.

Auction sale of Sal Timber at Dacca.

IT is hereby notified that on Thursday, 20th June 1878, beginning at 7 A.M., three hundred sal logs measuring about 8,000 cubic feet, will be sold to the highest bidder from the Government timber depôt at Dacca. If sufficient inducement be given, an additional 200 logs will be offered for sale on the same occasion.

A temporary shed will be erected in the depôt to protect purchasers from sun or rain.

The timber will be on view from the 1st June 1878.

THE CONDITIONS OF SALE ARE—

1. One-fourth of the purchase-money to be paid on the day of sale, and the remaining three-fourths within two months of the day of sale.

2. No timber can be removed until the full purchase-money has been paid.

3. The timber must be removed within two months of the day of sale; if not removed it will revert to Government, and any money paid on it will be forfeited.

4. If one-fourth of the purchase-money is not paid down on the day of sale, the timber will be resold at the risk of the defaulting purchasers.

5. The timber will be at the risk of the purchasers from the moment it is knocked down.

E. C. GEORGE, *Post-Master of Calcutta*.
GENERAL POST OFFICE, CALCUTTA,
The 3rd May 1878.

IF it is desired to insure a registered letter or parcel—Close the letter or parcel securely. If it is a letter, seal it in the centre and at the four corners of the envelope (which should be a substantial one) with distinct impressions of some device other than that of a current coin. If it is a parcel, pack it in cloth, wax-cloth, or tin, and if packed in cloth or wax-cloth, put similar seals at intervals not exceeding 3 inches along the lines of sewing.

Prepay the postage (as for a registered letter or for a parcel) by affixing postage labels. Certify the declared value in words and figures immediately above the address: for example "Certified value two hundred and seventeen (217) rupees."

Present the letter or parcel at the Post Office window during registration hours with a declaration* of the nature and value of the contents and with money to pay the insurance fee at the following rates:—

When the value certified does not exceed Rs. 10, 1 anna.
" " " 25, 2 annas.
" " " 50, 4 "
" " " 75, 6 "
" " " 100, 8 "

and 8 annas for every additional Rs. 100 or fraction thereof.

*SPECIMEN OF DECLARATION.

This letter (or parcel) addressed to
Major G. H. GRANTLEY,
18TH HUSSARS,
Mutra,

is declared by us, the senders, to contain the following articles, viz.—

A gold ring, value		Rs. 110
And our cash note	Rs.	
No. B 46569	20	20
"	—	—
Total value		130

Signature,
and Date.

The Post Office receipt will acknowledge the insurance.

The Post Office is prohibited by rule from receiving valuables (such as coins, jewellery, &c.) for transmission by post in either letters or parcels *unless they are insured*.

If it is desired that the value of the contents of a parcel should be recovered from the addressee and paid to the sender—Close the parcel carefully and seal it as described above for insured parcels. Present it at the Post Office window within registration hours with a memorandum containing—

The name and address of the sender in full.
The name and address of the addressee in full.
Value of the contents recoverable from the addressee.
Date of posting.

Prepayment of the parcel is optional.

The Post Office receipt will show the value recoverable from the addressee, and give all needful information with regard to the payment to the sender.

If it is desired to obtain an acknowledgment from the addressee of a registered article or parcel—Fix additional stamps of the value of one anna on the registered article or the parcel, and present it at the Post Office window within registration hours, furnishing in writing or verbally the name and full address of the sender. The Post Office receipt will indicate that an acknowledgment is due.

If a certificate of posting is desired—Write a copy of the address as given on the article on a slip of paper or in a book and affix a half-anna postage label to it. Present the article and the written copy of the address at the Post Office window at least half an hour before the hour fixed for closing the mail for which it is intended. The Post Office will stamp the written copy as a certificate of the posting of the article. This certificate will not obtain for the article any special security in transit; it is merely a certificate of posting, the article being treated like any other article put in the letter box. This rule does not apply to registered articles and parcels for which *receipts* are given.

N. B.—The grant of certificates of posting will commence from the 1st April 1878.

Notes on Forestry.

BY C. F. AMERY.

Deputy Conservator, Forests, N. W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price, Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trubner & Co., Ludgate Hill, London. Price five shillings.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
	BENGAL.		
	Western Districts.		
1	Burdwan, June 1 '78	1·72	Weather—hot. Sowing of the *aus* and *aman* is progressing. Cotton and *til* are being harvested. Sugarcane is doing well. Public health is good.
	Culna	0·65	
	Cutwa	0·25	
	Ranegunge	1·4	
	Bood-Bood	3·2	
	Jehanabad	1·55	
2	Bankoora, „ 1 „	1·13	Weather—very hot and sultry. Ploughing and sowing of *Aaimanta* rice are going on. The heavy rain on the 27th damaged the cotton and *til* crops in the north-east.
3	Beerbhoom, „ 1 „	0·02	Weather—more seasonable. The fine weather has been of advantage. Sowing of *aus* has begun, with the ground in very favorable order.
4	Midnapore, „ 1 „	0·47	Weather—very hot and sultry The state and prospects of the crops are favorable. Sowing is in progress.
5	Hooghly, „ 1 „	2·60	Rain on the 27th, 28th and 29th May Weather close and sultry subsequently. Sowings of *aus*, jute, and *aus* are still going on. *Aman* seedlings are being prepared in nurseries. Some intermission in rain is necessary. Small-pox prevails in thana Pundooah and in Chinsurah and Chandernagore. Cow-pox of a fatal type has broken out in Bansberiah thana. Out of seven cases, six have ended fatally.
	Howrah „ *2 „	1·85	Weather—very sultry and oppressive since the rain which fell early in the week. The recent dry weather has facilitated weeding and preparation of lands. Public health is good.
	Mohesrakha	1·40	
	Central Districts		
6	24-Pergunnahs, June 1 '78	2·1	Hot weather and high winds with rain. Ploughing is going on. Public health is good. Cattle disease is reported from Sathkira.
7	Nuddea, „ 1 „	1·63	Weather—hot, with occasional rain. The crops are in much the same state as before. The *jali dhan* is being harvested. The price of coarse rice still remains high.
8	Jessore, „ 1 „	2·74	Weather—hot. Heavy showers at the beginning of the week; the last few days were bright. Since the break in the rains the prospects of the crops are generally fair.
	Jhenida	0·55	
	Magoora	1·32	
	Khoolna	1·90	
	Bagirhat	1·06	
	Narail	1·53	
9	Moorshedabad, „ 1 „	0·21	Weather—seasonable. The state and prospects of the crops are satisfactory. Public health is generally good.
10	Dinagepore, May 31 „	2·96	Weather—clear and hot. The prospects of the crops are good.
11	Rajshahye, June 1 „	Nil	Very slight rain fell throughout the district during the week. Days are very hot. The prospects of the *dhan* and jute crops continue to be favorable, but rain is still needed *Boro dhan* is still being cut. It is said to be an average crop in Nattore. Cholera has disappeared. General health is good.
12	Rungpore, May 31 „	1·50	The weather has been very variable. Sometimes very warm and then again cool. The state and prospects of the crops continue to be favorable. The public health on the whole has been good, though there have been some cases of cholera.
	Gaibanda	5·27	
	Bagdogra	3·1	
13	Bogra, June 1 „	1·38	Weather—warm, with occasional rain. The standing *aus* crop, jute, *til*, sugarcane, linseed, and *kaon* are looking healthy, and are expected to turn out well. *Kaon* is being harvested in some places. The rain that has fallen during the week has been of great service both for ploughing and sowing. The preparation of land for *aman* is being pushed on. Public health is good. There are a very few cases of cholera here and there in the district.
14	Pubna, „ 1 „	1·28	Weather—hot and cool, and cloudy and sunny at intervals. *Jali dhan* is being harvested; the outturn appears to be a fair one. Sowings of *aman* and *aus* are going on. These plants are doing well. Cholera has nearly disappeared.

* Report of 3rd shows rainfall during the week ending 1st.

	BENGAL.—(*Continued.*)		
	***Central Districts.*—(Contd.)**		
Rajshahye & Cooch Behar Divs.—*concld.* 15	Darjeeling May 31 '78	2·63	The rains seem to have fairly set in The weather has been rather chilly and colder than usual for this time of the year. The young crop of *bhadoi* rice is doing well. The *haimanta* crop is being sown in some places In the Hills the young crops of Indian-corn and potato, also the millets, *murwa* and *kagoness*, are promising. Buckwheat has just been reaped and has given a fair yield.
16	Julpigoree June 1 „	1·09	Rather less rain this week, and the days are hotter in consequence. There was a heavy storm on the 25th May, with a very strong wind which lasted for about five minutes, doing considerable amount of damage to trees and dwelling-houses, unroofing a corrugated iron building in cantonments, and carrying large pieces of the roof to a considerable distance The state and prospects of the crops are satisfactory.
	Cooch Behar, May 30 „	5·06	Some heavy rain, but intervals of sun have been very hot. Thunderstorms prevalent *Bitri dhan* will in all probability be a very good crop this year. *Haimanta dhan* is being sown. *Kaon* is being cut. Price is still very dear, varying from Rs 3 to Rs. 3-12 a maund, and no fall is expected until the *bitri dhan* comes into the market. A few cases of cholera have been reported; otherwise the public health is good.
	Dinhatta ...	2·36	
	Mathabhanga ...	4·25	
	Mekligunge ...	1·07	
	Eastern Districts.		
Dacca Divn 17	Dacca, June 1 „	1·00	The last four days of the week were intensely hot. Weather seasonable. The state and prospects of the crops are favorable. Up to date the weather has been all that could be wished for. Prices are high. Health on the whole is good.
	Manickgunge ...	4·6	
	Moonshegunge (for week ending 29th May) ...	3·12	
18	Furreedpore, „ 1 „	1·22	Weather—stormy at the beginning of the week, but latterly fine and hot. The crops are doing well. *Jali dhan* is being reaped.
	Goalundo ...	1·71	
	Madaripore ...	1·09	
19	Barkergunge, May 30 „	1·8	Weather—unusually hot, with occasional rain. The prospects of the crops are promising throughout the district. Cholera is still about here and there.
20	Mymensingh, „ 31 „	3·41	Weather—very hot and seasonable. The state and prospects of the crops are satisfactory.
21	Tipperah, „ 31 „	1·19	Weather—very close and sultry More rain is said to be wanted in the sub-division. Sowings of *aman dhan* are nearly completed. *Aus dhan* and the jute plants are looking well.
	Sub-division ...	1·96	
22	Chittagong, „ 30 „	0·29	Weather—very hot and sultry. Some rain is wanted, otherwise there is no change to report from last week.
Chittagong Divn. 23	Noakholly, „ 30 „	0·52	Weather—very hot and oppressive. A thunderstorm passed over the station on the 28th. The sowing of the early rice crop is nearly completed, and the fields for the *aman* crop are being prepared. Public health is fair.
24	Chittagong Hill Tracts, „ 28 „	1·43	Some rain has fallen during the first part of the week, but the weather has been excessively hot during the latter part The *aus* paddy crop, which represents a very small proportion of the food-grain of the people, is now being gathered in small quantities This crop is not grown on the hill jooms, but on flat lands. The hillmen are very busily engaged in sowing seed-grain in their jooms. Scarcity of food is prevailing in parts of the district, and steps are being taken for relieving the people in distress.
	Hill Tipperah „ 29 „	2·60	The latter part of the week was very warm and generally cloudy. Preparations for the late rice crop are going on. Joom crops are doing well. A good deal of sickness is prevalent owing to the heat.
	BEHAR.		
Patna Divn 25	Patna, June 1 '78	Nil	Weather—extremely hot. Westerly winds prevail. No change in the state and prospects of the crops since last report.
26	Gya, „ 1 „	0·02	Hot west winds have recommenced Maximum thermometer in the shade 108·6°. No change to report in general prospects.
27	Shahabad, „ 1 „	Nil	Weather—slightly cool towards the morning Westerly wind has prevailed generally during the week No change in the state and prospects of the crops since last report. *Cheena* is being harvested. Sugarcane is flourishing. Land is being prepared for *bhadoi* sowings Public health is good
28	Durbhunga, „ 1 „	0·65	Weather—hot and dry. The prospects of the crops are so far good. *Murwa* and *kodo* are being sown in the Madhoobunnee sub-division, and the ground is being elsewhere prepared for *bhadoi* sowings. Prices are still very high. Cholera is reported to be on the decrease.

	Arrareah			..	0 73	
35	Maldah,	,,	1	,,	0 50	Intense heat. Thermometer ranging from 95° to 102° throughout the week. The rice crop is doing well. There is a tendency to a fall in prices. Health is good.
36	Southal Pergha.	,,	*2	,,	0 05	Weather—very hot indeed. The sowing of *jenera* has commenced. The excessive heat has not improved the prospects of the Indian-corn.
ORISSA.						
ORISSA DIVN. 37	Cuttack	June	1	'78	1 35	Weather—very hot. Frequent thunderstorms. Sowing of rice crop is going on; in some places plants are coming up well. There was, however, more rain in the last week than was required, and the progress of sowing in low lands in some parts of the district was consequently retarded. Prices are still high.
38	Pooree	May	30	,,	0·25	Weather—seasonable. Rain is reported from various parts of the district, but a good shower is much needed, and there are signs that it will come soon Ploughing continues. Sowing has commenced in some places. Rice sells at 10½ to 13 seers for a rupee, but in the salt tracts the quantity is 9½ seers only. Exportation of rice by land to the Madras Presidency still continues. Cholera is reported to be very prevalent and severe especially in Khoorda
	Khoorda			...	0 47	
39	Balasore,	,,	31	,,	1·05	There has been rain during the week, but the weather at present is rather too hot The sowing of the crops has commenced. There was abundance of rain in the interior, which prevented the sowing for some days The general health of the public is reported to be good.
CHOTA NAGPORE.						
	South-West Frontier Agency.					
40	Hazareebagh,	May	31	'78	0 08	Weather—warm and seasonable. No change to report. No crops on the ground. General health is good.
41	Lohardugga,	June	1	..	0·31	Weather—seasonable and very warm. Ploughing and broadcast sowings are in progress all over the district The young rice crops so far look well. Prices as before. Small-pox is still prevalent in Palamow General health is good.
42	Singbhoom,	May	31	,,	0·48	Weather—very hot indeed; the thermometer registering 140° in the sun and about 96° in-doors. There was only one north-wester during the week. The prospects of the crops are excellent General health is very good.
43	Manbhoom,	June	1	,,	Nil	Weather—hot and seasonable. The reports are generally more favorable The break in the weather has proved beneficial. The one complaint is high price of food. Those who live ordinarily on charity are badly off. Cholera and small-pox have been heard of pretty frequently during the last month In Jhalda an epidemic lately occurred, and a native doctor was deputed to the village.

* Report of this shows rainfall during the week ending 1st.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The 22nd May 1878.

Report of Fluctuation of Traffic on the Eastern Bengal Railway for four weeks ending 27th April 1878.

EASTERN BENGAL RAILWAY, TRAFFIC MANAGER'S OFFICE, SEALDAH, THE 27TH MAY 1878.

Report on the Goods Traffic of Eastern Bengal Railway for the four weeks ending 27th April 1878

Dated Calcutta, the 27th April 1878.

From—W. INNES, Esq, Acting Traffic Superintendent,

To—The Agent, Eastern Bengal Railway, Sealdah.

THE weight of goods carried by this Railway Company during the four weeks ending 27th April was maunds 6,74,924, which, as compared with the quantity carried during the corresponding period of last year, shews a decrease of maunds 1,91,177. This decrease is mainly in drums of jute; foreign railway materials, salt, seeds, sugar, and tobacco

Decreases.

Jute, drums of ... ... Mds. 13,074

This decrease is owing to the season being over earlier than last year, and the demand for this staple being quieter.

Foreign railway materials ... ... Mds. 5,268

This decrease is accounted for by the bulk of material for the Northern Bengal State Railway having already been despatched

Salt ... ... Mds. 12,758

This shews a considerable decrease and is accounted for by the heavy rain and storms during last month, which affected the boating of this staple; but during the first three weeks of this month, as compared with the same period of last year, I am glad to state that there has been an increase of nearly 14 per cent.

Seeds ... ... Mds. 2,17,114

This large increase is attributable to the cessation of exports to the famine districts.

Sugar ... ... Mds. 4,028

The cause of this decrease is owing to a deficient crop, as explained in my last report.

Tobacco ... ... Mds. 4,772

This is an improvement over last month, the decrease being attributable to fluctuation in the market.

Increases.

Cotton, bundles ... ... Mds. 3,465

This is owing to the increased number of cotton-mills which have lately been started in the neighbourhood of Calcutta.

Gunny, bundles and bales ... ... Mds. 8,967

This is satisfactory, and is accounted for by the increasing demand for this manufacture.

Tea ... ... Mds. 900

This slight increase is owing to the opening of the Northern Bengal State Railway, the crop being earlier in the Darjeeling district than in Assam and Cachar, the districts from which we have hitherto derived our traffic in this staple.

Miscellaneous ... ... Mds. 58,715

This increase is satisfactory, and is also accounted for by the opening of the Northern Bengal State Railway.

I attach the usual statement of increases and decreases, and with reference thereto, beg to remark that the month compared in this report has been a comparatively quiet month; the falling off in the traffic is owing to the dull state of the market generally, and it should be remembered that last year there was a brisk demand for exports to the famine districts of the land produce of the country traversed by this Railway; the unusual heavy rain too for this time of the year has had a depressing effect on trade generally in the Eastern districts.

Statement of Increases and Decreases in maundage of Staples carried by the Eastern Bengal Railway Co. for the four weeks ending 27th April 1878, *in comparison with that of the corresponding period of* 1877.

The 7th June 1878.—It is hereby notified for general information that, in the exercise of the powers conferred upon him by Section 234 of the Bengal Municipal Act V (B.C.) of 1876, the Lieutenant-Governor is pleased, on the recommendation of the Commissioners of the Municipality of Bishenpore, in the district of Bankoora, at a meeting, to extend to that municipality the provisions of Sections 235 to 256, 271 to 274, 278 to 288, and 292 to 294 of Part VII, Chapter II of the said Act.

D. BARBOUR,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 7th June 1878.—The following Rules framed by the Commissioners of the Station of Jamalpore, in the district of Monghyr, under section 356 of the Bengal Municipal Act, 1876, have been approved by the Lieutenant-Governor of Bengal in the exercise of the powers conferred on him by section 356 of the said Act.

For regulating the conduct of business at Meetings.

1. The Magistrate of the district shall be *ex officio* Chairman of the Committee.

2. There shall be a Vice-Chairman who shall be annually elected.

3. The Commissioners shall meet in their office at Jamalpore on the first Tuesday in every month (unless it be the 1st or 2nd of the month, in which case they shall meet on the 2nd Tuesday) for the conduct of business, and if necessary on any other day to be named by the Chairman. Two Commissioners and the Chairman or Vice-Chairman shall form a quorum, and all questions shall be determined by a majority of votes, and in cases where the Commissioners shall be equally divided, the Chairman shall have a casting vote. Three Commissioners shall have the power to call a special meeting, by intimating their wish to the Chairman, who shall then fix a day, issuing the usual notice to all the Commissioners.

Appointment of officers and servants.

4. The Commissioners shall be competent to employ any number of surveyors, inspectors, clerks, and other officers and servants upon such wages or emoluments as may be determined in each case by the Commissioners at a meeting.

5. Subject to the scale of establishment decided upon by the Commissioners under Rule 4, the Chairman shall have the power to appoint such persons as he may think fit, and from time to time to remove such persons and appoint others in their places.

6. Provided that no person shall be appointed to an office, the salary of which is more than two hundred rupees per mensem, without the sanction of the Commissioners at a meeting, which shall require the confirmation of the Commissioner of the Division. Provided also that no officer, whose salary is more than Rs. 50 per mensem, shall be dismissed without the sanction of the Commissioners at a meeting.

7. All persons employed by the Commissioners, whose services may be no longer required, shall be liable to discharge after receipt of previous notice, or pay in advance in lieu thereof for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice of one month, on pain of forfeiture of one month's salary.

8. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners, shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

System of taxation.

9. The following taxes shall be levied within the station of Jamalpore:—

1.—Upon houses and lands, at a rate not exceeding 7 per centum of their annual value.

2.—Upon coal stored, at 1½ anna per ton per mensem.

3.—Brick-kilns at Rs. 5 for each lakh of bricks.

4.—Horses and conveyances—

Rs.	A.	P.	
0	8	0	per month for a horse.
0	4	0	„ for a pony.
1	0	0	„ for a four-wheeled carriage.
0	8	0	„ for a two-wheeled carriage.
0	2	0	„ for a cart.

5.—Upon all buildings and workshops not being habitations at a rate not exceeding 1 anna per month (per 100) square feet.

6.—Buildings devoted to religious purposes shall be exempted from taxation.

10. At the commencement of every year a list of horses and conveyances and of the houses, showing the names of the owners and the amount assessed upon each, shall be prepared under the superintendence of the Commissioners and shall be signed by the Chairman, or in his absence by the Vice-Chairman. The day on which such list is published shall be notified by beat of drum and notice affixed at the Municipal Office or elsewhere. The inhabitants shall have access to this list at the office, and any person who has reason to complain shall make known his complaint to the Commissioners in writing within fifteen days of the publication. The complainant shall attend at the next monthly meeting of the Commissioners, when any objection he may urge shall be heard and taken into consideration. Should the complainant fail to appear, the Commissioners shall enquire into the merits of the written complaint. The decision arrived at by that meeting shall in any case be final.

11. After the completion of the list, and on the expiration of the term of fifteen days provided for in the foregoing section, no objection to the amount assessed will be admitted as a right, but it shall nevertheless be competent to the Commissioners at any time to alter, diminish, or remit the amount of tax leviable from any rate-payer, when satisfied after due enquiry that any change in his pecuniary circumstances renders such a change, diminution, or remission just and necessary.

12. It shall be competent for the Commissioners at any time during the year to assess, in the manner above mentioned, any person who shall come to reside within the town.

13. It shall be competent for any person or company wishing to compound for any of the above taxes, either by the month or year, to do so with the consent of, and at the rates agreed to by, the Commissioners.

For regulating the time and mode of collecting the rates and taxes.

14. The taxes shall be collected by officers appointed by the Commissioners, and shall be payable quarterly in *advance*. Any person neglecting to pay the amount due for any quarters within the first month of that quarter, notwithstanding that such amount shall have been demanded of him on behalf of the Commissioners, shall be deemed a defaulter, and be dealt with according to the provisions of the Act.

15. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show his certificate if required.

16. Every person required in writing to furnish any schedule or return, which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition in the manner described in section 367 of the Act.

17. Payment of purchase-money for property sold and delivery of the property shall be made immediately after the sale, and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same or any other day, and the first purchaser shall in such cases be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

18. All moneys and Government securities deposited by the officers and servants entertained under this Act shall be transmitted to the Collector of the district for safe custody, to be repaid by him on the duplicate receipt of the Chairman, countersigned by the Vice-Chairman, except sums under one hundred rupees, which may be paid on the signature of the Vice-Chairman alone.

19. The proceeds of all collections and fines under these rules shall be daily remitted to the Collector of the district to be held in deposit by him, and to be repaid by him from time to time according to the requirements of the Commissioners on the duplicate receipt signed by the Chairman or Vice-Chairman, as the case may be; no payment shall be made to any one for work done, which has not been sanctioned by the Commissioners at a meeting. A book showing the daily transaction of all receipts and disbursements shall be kept by the clerk or any other officer appointed by the Commissioners, to be placed before the Committee meeting monthly for examination and for countersignature of the Chairman or Vice-Chairman.

20. An annual account of all receipts and disbursements, and of the demands, collections, and outstanding arrears of taxes shall be submitted to the Government on the last day of April in every year.

21. To ensure the due application of the proceeds of the taxes, &c., no new work shall be commenced, except under the authority of a resolution passed at a meeting of the Commissioners. Estimates of works which shall cost Rs. 3,000 and upwards shall be prepared and submitted to Government for approval, prior to execution of such work or works. A statement of works executed by the Commissioners during the year shall be submitted to Government annually.

22. The following are defined to be nuisances in Jamalpore and are accordingly hereby prohibited:—

1.—Slaughtering cattle or cleaning any carcass on any road, street, or thoroughfare.

2.—Furious driving or riding on any public road.

3.—Obstructing passengers by keeping or leaving any cattle or conveyance of any kind standing longer than requisite on any public road, so as to cause inconvenience to the inhabitants.

4.—Throwing or laying down on the street any dirt, filth, rubbish, or any stone or building materials, or constructing any cow-shed, stable, or the like, open to any thoroughfare, or causing any offensive matter to run into the road from any house, factory, dung-heap, or the like, without having previously obtained the sanction of the Commissioners in each case.

5.—Exposing any goods for sale on the roads, except in places provided for by the Commissioners.

6.—Being found drunk or incapable in any public place.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 11b.

The 21st May 1878.

UNDER Section 89 of Act X. (B. C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Burdwan, Bankoora, Beerbhoom, Midnapore, and Hooghly with Howrah, of works done and in progress during the past cess year 1876-77, together with the remarks thereon of the Commissioner of Burdwan, are published for general information.

T. H. WICKES,

Offg. Asst. Secy. to the Govt. of Bengal, in the Public Works Department.

No. 127, dated Burdwan, the 4th February 1878.

From—W. R. LARMINIE, ESQ., Chairman of the District Road Cess Committee of Burdwan,

To—The Commissioner of the Burdwan Division.

WITH reference to your Circular No. 515 dated 17th November last, and Government Circular No. 8 of the 6th March 1873, I have the honor to submit the annual report and accounts of the District Road Fund operations of Burdwan for the cess year ending 30th September 1877. Copies of the report of the Sub-Committee, which audited the accounts, and of the resolution of the meeting of the Committee held on the 12th ultimo, and which finally passed the accounts, are also enclosed. The delay in the submission of this report has been owing to the transfer of Vice-Chairman Mr. Hallette, who was appointed on the 17th November 1877, along with three other members of the Committee, under Section 88 of the Act, and the consequent delay in the submission of the audit report.

2. As required in your No. 330 of the 26th June last, I beg here to review the working of the road cess system during the year under report. In this district, the cesses were levied at three-fourth the maximum rates. It will appear from the statements showing demands, collections, and arrears of the several cesses submitted to you from the collectorate side on the 13th November 1877, that the total demands and collections for the year under Parts* II and III of the Act were as follow:—

* Cess on land and mines.

Demands.	Rs.	Collections.	Rs.
Outstanding balance of last year ...	6,600	Arrear collections	4,725
Demand for the year on account of this district	1,06,697	Collections in this district for this district	95,115
Demand for the year on account of other districts	46,683	Collections in this district for other districts...	46,432
Total ...	1,59,980	Received from other districts	6,092
Deduct remissions	626	Total ...	1,52,364
Net Demand ...	1,59,354		

thus leaving a balance of Rs. 6,990 only, including Rs. 1,875 of last year, so that the percentage of collections on account of demand for the year in question was more than Rs. 95, as required by Government of India in their letter No. 494 dated 7th July last. With respect to the unrecovered balance, the Collector states that "the arrear, amounting to Rs. 6,510, inclusive of Rs. 1,875, the balances of last year, was partly on account of those revenue-free estates which could not be traced, and were valued summarily under Section 8 of the Act, and partly on account of joint undivided estates. I doubt whether the difficulty in respect of the first will be removed by the new Land Registration Act, as it will not enable us to ascertain the exact number of lakhiraj estates, whether held under valid or invalid grants. I believe the difficulty is universal, and I am of opinion that such lands should be exempted from the road cess demand; but before any action be taken in this direction, the completion of the land registration work should be awaited. As for the second difficulty, the law requires to be modified, and I would strongly recommend that the provision of Act VII (B. C.) of 1868 be extended to arrears of road cess. As a general rule, when the defaulters are well-to-do people, the attachment of their movable property by a common peon is always unsuccessful, and, except when the zemindar pays voluntarily, the provisions of the Act regarding the attachment of movable property is nothing but nominal. For this reason two tehsildars, as an experiment, were appointed under Sections 10 and 23 of the Act to realize the arrears from the obstinate defaulters, the costs of which are defrayed by them. The law requires amendment on this point, otherwise the arrears of preceding years, being gradually accumulated, will increase the balance every year."

3. It is reported that the demand of cess on mines for the current year is less than that of the previous year by Rs. 3,332, owing to the dull state of the coal trade, and consequent stoppage of work of 35 collieries out of 85 in work last year.

Part IV., Cess on Houses.—Out of the total demand, Rs. 6,258, on account of house cess, Rs. 5,342 were collected. There was also a falling off of Rs. 570 under this head on account of remissions granted during the last year, owing partly to damages done to the houses by the cyclone of 1874, and partly to the desertion of the houses by, and poverty of, the people. In this year also Rs. 403 have already been remitted, and something more will probably be remitted on receipt of the list called for of persons really unable to pay their cess. The Collector states that the law on this point is also defective. He says that "the valuations are, like those under Part II. of the law as it now stands, not liable to be altered for five years; the consequence is that the houses in which trade is commenced and carried on during the interval altogether escape assessment. To remedy this defect some provision ought to be made in the law for making annual valuations of all such houses, and amending the valuation of all such houses as have already been assessed. The provisions prescribed for the realization of arrears are rather cumbrous, and I would beg to propose that the provisions of Act VII. (B.C.) of 1868 be also extended to arrears of such cess." Your attention is drawn to the above suggestion. I quite concur with the Collector in thinking that if the provision of the Act for house cess be enforced in more villages than at present, a large amount of income will, no doubt, be derived from this head. I am glad to be able to report that very few complaints of levy of excessive cess by the taluqdars have been made.

With respect to the Road Cess Deputy Collector, the Collector remarks that "the Deputy Collector, Baboo Bogolanund Mookerjee, is in charge of the Road Cess Office; is a most energetic and useful officer, and always carries out his instructions with intelligence."

4. *Road Cess Committee.*—The following gentlemen formed the Committee during the year:—

Ex-officio Members.

Mr. E. H. Whinfield, Magistrate and Collector, *Chairman.*
" C. C. Quinn, Joint Magistrate and Deputy Collector, *Vice-Chairman.*
" A. Burrooah, Assistant Magistrate and Collector, *Vice-Chairman.*
" W. H. Nightingale, Executive Engineer, *Member.*
Captain Neill, Executive Engineer, *Member.*

Official, but not ex-officio Members.

Mr. J. Cockburn, District Superintendent of Police.
" H. R. Munro, District Superintendent of Police.
" R. T. Sevestre, Deputy Collector.
Baboo Bogolanund Mookerjee, Deputy Collector.

Non-official Members.

Rajah Bissessur Malia, Taluqdar.
Baboo Deno Bundhoo Nundy, Taluqdar.
" Ram Lall Mookerjee, Pleader.
" Peary Mohun Banerjee, Taluqdar.
" Chhuckun Lall Roy, Taluqdar.
" Het Lall Misser, Taluqdar and Honorary Magistrate.
" Jogendro Chunder Roy, Taluqdar.
" Mohendro Lall Goopto, Medical Practitioner.
" Chundi Lall Singh, Taluqdar.
Moonshee Ijjut Hossain, Taluqdar.

The annexed statement A. shows the particulars of the meetings of the several Committees, and the statement B. shows the names of the members who did not attend any meeting during 1876-77. The non-official members, as a rule, do not appear to take interest in Committee matters. The Committee met six times during the year, at which the attendance was very thin and barely sufficient to form a quorum.

5. *Change of Members.*—During the year Mr. C. C. Quinn, Vice-Chairman, was succeeded by Mr. A. Burrooah, and Mr. Nightingale was succeeded by Captain Neill. Kazi Unirally (a member) died, and Baboos Bogolanund Mookerjee and Chundi Lall Singh were appointed as members.

6. *Removal of Members.*—No members were removed during the year.

7. *Accounts.*—The enclosed accounts show that the year opened with a balance of Rs. 15,475-15-11, which added to Rs. 1,45,957-9-11 received during the year, as detailed on the margin, there was an available income of Rs. 1,61,233-9-10 under the disposal of the Road Committee. The total expenditure under the several heads was Rs. 1,23,927-4-4, leaving an unexpended balance of Rs. 38,306-5-6 on the 1st October 1877. The budget-estimate for the year shows an income of Rs. 1,41,974 and an expenditure of Rs. 1,47,681 only. The increased actual income is apparently due to the opening balance being larger than was anticipated, the last instalment of cesses payable in 1875-76 being paid in the beginning of 1876-77, and on account

	Rs.	A.	P.
Cess on land, &c. ...	1,38,900	10	4
One per cent. road cess	176	4	4
Receipts from tolls...	25,466	9	3
Miscellaneous ...	1,414	9	0
Total ...	1,45,957	9	11

of Rs. 1,234-12 overdrawn in 1873-74 and held at credit of deposit under instructions of the Examiner of Public Works Accounts being adjusted by debiting deposit and crediting under heading Miscellaneous in this year's account. The slight increase or decrease under other heads calls for no comment. The decrease in the estimated expenditure is owing to a less amount having been spent on road works, and the balance in hand on the 1st October last having been more than was estimated. Very little increase or decrease occurred under other heads.

8. *Road Works.*—The road works were executed under the contract system, not in strict conformity with the provisions in the sanctioned budget-estimates; and nearly all the estimates submitted by the District Engineer were held over till my predecessor personally inspected the roads in his cold-weather tour, when he directed to construct, or repair those roads which he thought were urgently required, and hence the estimates were sanctioned when the year was far advanced. Some original works, though not provided for in the budget, were commenced in anticipation of sanction, and were ultimately abandoned for want of funds.

9. *Works how executed.*—The District Engineer states that "nearly all the works undertaken have been completed within the year, with the exception of some works in Jehanabad, Sudder, and Calna Sub-Divisions from unforeseen causes, and in other Sub-Divisions the estimates were sanctioned rather late in the year." I am, however, not in a position to form an opinion as to how the works have been done until I have inspected all the roads, but from what I have seen in the Sub-Divisions of Bood-Bood, Cutwa, and Raneegunge, I think the work done is not as extensive as would have been if more trouble were taken in the matter of letting out by tenders.

10. *Expenditure on Roads.*—Out of the total expenditure of Rs. 80,759 incurred in road-making, Rs. 34,343-6-10 were spent on original works and Rs. 46,415-10-2 in repairs. The details of expenditure against each road are shown in the enclosed account. The requisite particulars of the roads as submitted by the District Engineer are given below in due order :—

ORIGINAL WORKS.

SUDDER SUB-DIVISION.

(*a.*) *Khundghose and Indas Road* (*No. 29 in the General List*); *length 6 miles.*—This road was embanked last year. It was ordered to construct pipe culverts on the road, leaving the big openings for future. Rs. 805 were sanctioned for this work. Messrs. Burn and Co.'s stoneware pipes have been used for these small culverts and Rs. 804-1-6 spent.

(*b.*) *Mymaree and Chuckdighee Road* (*No. 2 in the General List*); *16 miles in length.*—One 4-feet culvert for irrigation purposes was sanctioned on 1st mile of the road. The work has been completed, and Rs. 211 spent.

(*c.*) *Burdwan to Poorbashtholy* vià *Mirzapore, Koormoon, Mutiesur, and Bhatooria* (*No. 58 in the General List*); *length 32 miles.*—There is a track throughout the whole length. The first 8 miles from Burdwan to Koormoon have been raised this year. This important road was commenced in anticipation of sanction and completed in September last at a cost of Rs. 1,847-6, against Rs. 1,947 sanctioned.

(*d.*) *Burdwan to Culna Road* (*No. 18 in the General List*); *35 miles in length.*—An estimate (No. 4) for Rs. 5,899 was sanctioned for metalling the 4th and 32nd miles of the road. The work was not completed within the year, and Rs 4,223-15-11 only expended.

(*e.*) *Burdwan to Bankoora Road* (*No. 20 in the General List*); *length 32 miles in this district.*—Part of this road lies in sub-division of Bood-Bood; but for convenience sake it is dealt with here. An estimate for Rs. 3,363 was sanctioned in May last for metalling portion of this road from the town of Burdwan up to Kashtogola Ghât, one mile in length. The work was not completed, and Rs. 2,955-5-9 expended.

(*f.*) *Burdwan to Jehanabad Road* (*No. 19 in the General List*); *length 26 miles.*—The construction of two masonry causeways on the 3rd and 4th miles of the road, where large breaches were made by the overflowing of the river Damoodah during October 1876, and metalling the 26th mile of the road at Jehanabad, were ordered to be commenced in anticipation of sanction. An estimate for Rs. 4,673 and plans were sanctioned in October last, and hence the work could not be completed within the year; Rs. 4,181 spent.

RANEEGUNGE SUB-DIVISION.

11. (*a.*) *Undal to Ookra Road* (*No. 35 in the General List*); *5 miles in length.*—This road was constructed during the late famine. This feeder and the feeder-road at Rajbund were ordered to be metalled, *vide* Government Circular No. 1246 dated 9th March 1876. The latter was completed last year, but the former could not be carried out for want of funds. Part of this feeder from the railway to the Grand Trunk Road, 1½ miles in length, has been metalled, and four small irrigation culverts have been constructed with Messrs. Burn and Co.'s stoneware pipes. The work was estimated to cost Rs. 3,264, and Rs. 2,964 were spent.

(*b.*) *Raneegunge to Mungleporo Road* (*No. 22 in the General List*); *2 miles in length.*—An estimate for Rs. 481 was sanctioned for completing the bridging of the road. One culvert of two openings of 6 feet span and one small irrigation culvert with 12-inch pipes have been constructed at a cost of Rs. 617-0-3, and the road is now available for public traffic. By the completion of this road the heavy traffic on the Raneegunge feeder has been divided, as this road is the shortest cut and more convenient way for the traffic coming from the east

through the Grand Trunk Road than the other circuitous way of travelling two miles over the Grand Trunk Road and 2¼ miles over the feeder.

(*c.*) *Silarampore to Nyamutpore Road; length* 1½ *miles.*—This road was formerly in charge of the Manbhoom authorities, and was taken over last year, as it lies in this district. Two estimates—one for Rs. 4,767 and one for Rs. 1,017—were sanctioned for metalling 15 feet roadway, earthwork for raising and levelling road surface and slopes, and turfing the latter. The work was not completed within the year. Rs. 3,873-12 only have been spent.

BOOD-BOOD SUB-DIVISION.

12. (*a.*) *Gooshkera to Aushgram Road* (*No.* 43 *in the General List*); *length* 4½ *miles.*—This road connects the police station at Aushgram with the railway station at Gooshkera on the loop line. It was commenced in 1864, and some progress was also made during the late famine, but earthwork only was completed up to the 3rd mile. It was ordered to complete earthwork and bridging throughout the whole length, in anticipation of sanction of the estimate. Earthwork for the remaining 1½ miles, seven 3-feet culverts and 9 stoneware pipe culverts have been completed, and some materials for brick masonry have been kept ready. The completion of bridging the road and other works were subsequently stopped for want of funds. Ten beeghas 14 cottahs 3 chittacks of land required for the road have been amicably taken up at a cost of Rs. 321-3 only.

(*b.*) *Pathoshire to Mirzapore Road* (*No.* 63 *in the General List*); 14 *miles in length.*—There was a track throughout the whole length. This road was sanctioned for the purpose of connecting the two principal roads in the district running westward till they meet each other at Bankoora, *viz.*, the old Benares road and the Burdwan to Bankoora road. Two estimates—one for Rs. 1,731 and one for Rs. 399—for earthwork and turfing the slopes were sanctioned. The road was not completed within the year, and Rs. 722-14-2 spent.

(*c.*) *Mancoor to Digungger Road* (*No.* 36 *in the General List*); 9 *miles in length.*—The first five miles of this road near Mancoor were metalled last year, and some metal was collected for the rest. Some bricks were burnt and other materials for masonry works were collected for completing bridging the road, in anticipation of sanction. It was subsequently ordered to stop the work for want of funds. The road ought to be bridged.

(*d.*) *Bood-Bood to Senamukhi Road* (*No.* 38 *in the General List*); *length* 11½ *miles.*—This is a famine road. It was ordered to construct irrigation culverts with stoneware pipes, leaving the large ones for future. The work was not completed, and out of the sanctioned amount, Rs. 1,498, Rs. 918 were expended.

CUTWA SUB-DIVISION.

13. *Cutwa to Culna Road* (*Nos.* 14 *and* 64 *in the General List*); *length* 33 *miles.*—Part of this road from Cutwa to Dewangunge (No. 14 in the general list), length 6 miles, is metalled, and from Dewangunge to Patooly, 7 miles in length, a new road was constructed during 1875-76. It was ordered, in anticipation of sanction, to construct a road from Patooly to Culna, 21 miles in length. The work was estimated to cost Rs. 9,165. On completion of earthwork on 14 miles of the road, at a cost of Rs. 5,977-5, the work was stopped for want of funds. The road will be completed this year as regards earthwork.

JEHANABAD SUB-DIVISION.

14. (*a.*) *Indas to Kotulpore Road; length* 10 *miles.*—This road was sanctioned to connect the three police stations of Khundghose, Indas, and Kotulpore in this district, in continuation of the road from Khundghose to Indas, or to connect the two principal roads, *viz.*, Burdwan and Bankoora, and the old Benares road in this district. The work on the road was commenced in anticipation of sanction, and afterwards stopped for want of funds. About 20 beeghas of land required for the road have been taken up at Rs. 815 by amicable settlement with the proprietors.

(*b.*) *Old Benares Road* (*No.* 26 *in the General List*); *length in this district being* 28 *miles.*—The metalling of one mile of this road within the town of Jehanabad, and construction of three culverts on the road, were ordered to be commenced, in anticipation of sanction. An estimate for Rs. 4,220 was sanctioned only in October last. The work could not be completed within the year. Rs. 2,526-12-9 only spent.

CULNA SUB-DIVISION.

15. *Inspection Bungalow at Culna.*—The construction of an inspection bungalow was found necessary for the officers travelling on inspection duty. An estimate for Rs. 605 was sanctioned for the purpose, and the building was completed within the year at a cost of Rs. 605.

SUDDER SUB-DIVISION.

16. *Repairs.*—(*a.*) *Mymaree to Gangooria Road* (*No.* 61 *in the General List*); 3 *miles in length.*—An estimate for Rs. 81 for petty repairs and filling up gaps on the road was sanctioned. The work was completed, and Rs. 79-15-10 spent.

(*b.*) *Khundghose to Indas* (*No.* 29 *in the General List*); *length* 6 *miles.*—An estimate for Rs. 100 was sanctioned for surface repairs to the road, and Rs. 98-3-2 were expended for completing the work.

(*c.*) *Berachee to Buddipore Road* (*No.* 16 *in the General List*); *length* 6 *miles.*—An estimate for Rs. 190 was sanctioned for petty repairs and levelling road surface, and repairs to culverts, in February last. The work was completed in April, and Rs. 164-13-3 spent.

(*d.*) *Burdwan to Cutwa Road* (*Nos.* 1 *and* 23 *in the General List*); 34 *miles in length, the whole length of No.* 1 *and part of No.* 23 *being in the Sudder Sub-Division.*—The first 8 miles from Burdwan to Kingonah were newly metalled last year with Gooshkera kunker; but as three inches of kunker only were given on a brick-soling, it was found expedient to give another 3-inch coat of metalling to preserve the soling where done last year. Accordingly an estimate for Rs. 6,240 was sanctioned in May last, and the work was completed within the year at a cost of Rs. 6,128-9.

(*e.*) *Mymaree to Chuckdighee Road* (*No.* 2 *in the General List*); 16 *miles in length.*—The road is cut up and has not been repaired for a long time. An estimate for Rs. 4,161 was sanctioned for petty repairs to metalling from the 1st to the 3rd miles, and re-metalling the 4th and 5th miles. The works were not completed within the year, and Rs. 3,483-2 were spent.

(*f.*) *Burdwan to Soorea Road* (*No.* 17 *in the General List*); *the length of this road is* 27 *miles in this district.*—An estimate for Rs. 421 was sanctioned for changing some planks and re-metalling roadway of the bridge over the river Koonoor on the 17th mile of the road. The work was completed within the year, and Rs. 441-14-9 spent.

(*g.*) *Burdwan to Bankoora Road* (*No.* 20 *in the General List*); *length* 32 *miles in this district.*—Three estimates for Rs. 275 were sanctioned for repairing culverts on the part of the road from Burdwan to Edilpore, and changing some planks of the wooden bridges on the 46th and 49th miles, and surface repairs to the road from 41st to 49th miles. The repairs were completed and Rs. 305-8-6 spent.

CULNA SUB-DIVISION.

17. (*a.*) *Burdwan to Culna Road* (*No.* 18 *in the General List*); *length* 35 *miles.*—Three estimates, amounting to Rs. 4,595, as per margin, were sanctioned for re-metalling the 2nd and 3rd miles of the road with Gooshkera kunker, and making petty repairs to road surface and culverts on the road from 21st to 32nd miles. The works were completed within the year, and Rs. 4,313-11-3 spent.

(*b.*) *Pandooah to Culna Road* (*No.* 15 *in the General List*); *the length of the road in this district is only* 3 *miles.*—An estimate, amounting to Rs. 2,200, was sanctioned for re-metalling the road and repairing culverts. The work was not completed within the year, and Rs. 1,438-13-3 spent.

BOOD-BOOD SUB-DIVISION.

18. (*a.*) *Gooshkera to Dignugger Road* (*No.* 13 *in the General List*); 6 *miles in length.*—Earthwork to sides and slopes and turfing the latter, and repairs to culverts and bridges, were done last year. An estimate for Rs. 2,296 was sanctioned for giving a 3-inch coat of metalling to the whole road. The work was completed within the year, and Rs. 2,255-0-9 spent.

(*b.*) *Mancoor to Bood-Bood Road* (*No.* 12 *in the General List*); 2 *miles in length.*—This road was re-metalled last year, and the road is in a fair state. Rs. 42 only was sanctioned for petty repairs to the road and culverts. The work was completed in June, and Rs. 22-12 spent.

(*c.*) *Gooshkera to Nittyanundpore Road* (*No.* 3 *in the General List*); *length* 14¼ *miles.*—The first 8 miles of this road near Gooshkera were re-metalled last year with Gooshkera kunker. An estimate for Rs. 7,128 was sanctioned for re-metalling the remaining 6¼ miles, raising earthen sides and slopes, turfing the latter, and repairing culverts, &c., throughout the whole length. All the works were completed within the year, and Rs. 6,910-6 expended.

(*d.*) *Paneeghur to Collianpore through Sonamukhi* (*No.* 10 *in the General List*); *the length of the road in this district is* 15 *miles.*—This is a feeder-road extending from the railway station at Paneeghur on the chord line. It connects the most important market (Sonamukhi) in this district with Bishenpore in Bankoora. The latter portion of the road in that district near Bishenpore was not completed before, but is in progress by the Road Cess Committee of that district. When completed, the road will be an important one and give great facilities for carrying the traffic to the railway station from the interiors of both the districts. The whole length of the road in this district is bridged, except the place where the river Ghally near Sonamukhi crosses it. People are much inconvenienced to cross the above river during the rains. An estimate for Rs. 4,963 was sanctioned for a new coat of metalling where urgently needed, and petty repairs to the road and bridges throughout the whole length. The works were completed within the year at a cost of Rs. 4,865-10-2.

(*e.*) *Bood-Bood to Sonamukhi* (*No.* 38 *in the General List*); *length of the road is* 11½ *miles.*—An estimate for Rs. 186 was sanctioned for filling up holes on the 7th and 8th miles of the road, caused by the overflowings of the river Damoodah. The work was finished, and Rs. 178 expended.

RANEEGUNGE SUB-DIVISION.

19. (*a.*) *Burrakar feeder* (*No.* 7 *in the General List*); ½ *mile in length.*—This road was re-metalled last year with sandstone, but for the heavy coal traffic it was found necessary to repair the road with Assensole blackstone. It was afterwards ordered to metal the road with iron slag from Bengal ironworks at Burrakar. An estimate for Rs. 1,072 was sanctioned for

the work, but as there was a great delay in getting supply of slags from the ironworks, the work could not be completed within the year, and Rs. 740 only spent.

(*b.*) *Assensole feeder* (*No.* 5 *in the General List*); *length* ¼ *mile.*—This road is in a fair state. Rs. 39 only were sanctioned for petty repairs to re-metalling and clearing side drains. The work was done, and Rs. 39-2-6 spent.

(*c.*) *Raneegunge to Munglepore* (*No.* 22 *in the General List*); *length* 2 *miles*.—Bridging of the road was completed within the year, and an estimate for Rs. 163 for petty repairs to metalling, &c., &c., was sanctioned to keep the road in fair state. The work was completed, and Rs. 203-12 spent.

(*d.*) *Raneegunge feeder* (*No.* 8 *in the General List*); 2½ *miles in length.*—This is a part of the road from Raneegunge to Sooree, and extends from the railway station at Raneegunge up to the Grand Trunk Road. It is a very important road, where heavy traffic passes throughout the year. A new coat of metalling was given last year, but for the heavy rice traffic throughout the year some petty repairs to metalling were found necessary to keep the road in a fair state. An estimate for Rs. 588 was sanctioned for the purpose. The work was completed, and Rs. 509 spent; but a part of it from the railway station up to the bazar, where heavy traffic from all sides passes over it, did not stand so well as expected. Some hard metal, such as blackstone, should be put this year on the portion, to keep the road in a fair state throughout the year.

(*e*) *Sitarampore feeder* (*No.* 6 *in the General List*); *length* ¼ *mile.*—This is a feeder road from the coal wharf on the north of the railway station up to the Grand Trunk Road at Luckhipore. This road is mainly used for coal traffic; but as the Railway Company intended to construct a wharf on the south of the line, the other feeder, as remarked under head of "Original work," was taken in hand. Orders were subsequently given to repair this feeder, and on the metal having been collected, the colliery men objected to have the traffic stopped on the road for a fortnight, for consolidation of metal, and it was therefore ordered to stop work on the road. An estimate for Rs. 2,898 was sanctioned, and Rs. 2,046 only was paid for the metal.

CUTWA SUB-DIVISION.

20. (*a.*) *Burdwan to Cutwa Road* (*No.* 28), *i.e., from Kurjonah to Cutwa*; 26 *miles in length.*— An estimate for Rs. 3,804 was sanctioned in April last for repairing the 34th mile and part of 33rd mile of this road near Cutwa. The work was completed within the year at a cost of Rs. 3,083-15-9. Another estimate for Rs. 588 was sanctioned for petty repairs to the cutcha road and the road platform of the Sreekhund bridge on the 28th mile. It was afterwards found useless to make any repairs whatever to the cutcha road during the rains, and only petty repairs to the 31st, 32nd, and 33rd miles, were done, and the planks of the wooden bridge were changed, and Rs. 64 only spent.

(*b.*) *Cutwa to Dewangunge Road* (*No.* 14 *in the General List*); 5 *miles in length.*—The road is very much cut up and has not had a new coat of metalling for a long time. Only petty repairs to the road was done for want of funds. Provision has been made in this year's budget to give a new coat of metalling where urgently needed. An estimate for Rs. 500 was sanctioned for the road. The work was completed, and Rs. 499-8-0 spent.

(*c.*) *Cutwa to Sooree Road* (*No.* 24 *in the General List*); 15 *miles in length.*—This is a very important road on which heavy traffic passes throughout the year. The arches of four culverts gave way, and the drains and bridges throughout the whole length were also quite out of repairs. Earthwork of the road was also partly worn out. An estimate for Rs. 1,994 was sanctioned for making necessary repairs. The works were completed within the year, and Rs. 1,990-1-6 expended.

(*d.*) *Dewangunge to Patooly Road* (*No.* 64 *in the General List*); 7 *miles in length.*—This is a part of the road from Cutwa to Culna. This portion was made newly round the bheel at Bohora last year with as little earthwork as the fund allowed. An estimate, amounting to Rs. 518, was sanctioned for filling up gaps and levelling road surface to keep it in a fair state. The work was completed at a cost of Rs. 470-14.

JEHANABAD SUB-DIVISION.

21. *Jehanabad to Shambazar Road* (*No.* 27 *in the General List*).—An estimate, amounting to Rs. 1,000, was sanctioned for earthwork, &c., on this road. The work was not completed within the year, and Rs. 539-1-9 only spent.

22. The following inspection bungalows were repaired at a cost of Rs. 537-10-6 :—

	Rs.	A.	P.
Kurjonah inspection bungalow on the Cutwa road ...	60	13	9
Khusbundighee bungalow on ditto ...	101	12	6
Sreekhund ditto ditto ...	24	12	9
Cutwa ditto ditto ...	99	14	6
Sonamukhi bungalow on the Paneeghur and Kallianpore road	59	6	3
Paneeghur bungalow on the Paneeghur to Elambazar road	22	11	0
Gooshkera bungalow on the Gooshkera to Nittyanundpore road	71	12	9
Mymaree bungalow on the Mymaree road	116	8	0
Total ...	537	10	6

23. With regard to repairs, the District Engineer states as follows:—"Nearly all the metalled roads in the district got a new coat of metalling during the last two years, and they are in as fair state as possible, notwithstanding the heavy rice traffic on them throughout the year for the scarcity in other parts of the country."

24. *Village Roads.*—Rs. 500 for each sub-division were advanced to the Chairmen of the Branch Committees for village roads; the accounts of all the Sub-Divisional Officers not having been received, it cannot be stated how the works were done.

25. The subordinates of the District Engineer (especially Overseer Baboo Beedhoo Shiker Banerjee) are reported to have worked satisfactorily.

26. The following works are contemplated to be executed during the current year:—

27. In conclusion, I have the honor to state that in my opinion the system pursued in this district as to the allotment of money is not sound. It has been considered necessary that the expenditure should be spread over the district *every* year, and thus money has been frittered away without any corresponding benefit. I strongly advocate the theory that main lines should first be completed, and the minor connecting roads put in hand afterwards. The members of the District Committee are, I may say, unanimous on this point. It is a pity, I think, that the maximum cesses were not levied, and I am sanguine that this year I shall induce the members of the District Committee to take the same view of the subject.

28. The late District Engineer, Mr. Hoggan, died on the 10th January 1878, and Mr. E. Stoney has been elected to fill the post.

W. R. LARMINIE,
Chairman.

No. 101, dated Burdwan, the 10th January 1878.

From—The Vice-Chairman and three Members of the Audit Committee, Burdwan,
To—The Chairman, District Road Committee, Burdwan.

WE, the Committee appointed under Section 38 of the Road Cess Act, have the honor to submit the accounts of the District Road Fund for the year ending 30th September 1877, together with our report thereon.

We have carefully examined all the items both on the receipt and expenditure side of the cash-book; we find on comparison of the cash-book and treasury pass-book that all sums received in the treasury on account of the fund have been credited in the Committee's cash-book, and also that all cheques have been duly entered when drawn.

Receipts.—We proceed to notice the several items of receipts in detail—

Land Cess.	Rs.	A.	P.
Amount estimated	1,01,880	0	0
„ realized	1,11,434	10	7
Excess realized ...	9,554	10	7

This excess is said to be owing to a sum of Rs. 12,764-6-2, demand of the previous year, being paid this year, on account of the treasury being closed at the end of September 1876 on account of the Doorga Pooja holidays.

The fluctuations in the amount realized in different years under this head seems to call for explanation.

Cess on Mines.

	Rs.	A.	P.
Estimate	9,739	0	0
Actual receipts	6,131	5	6
Difference ...	3,608	10	6

This deficiency is owing to the late Chairman having made certain large remissions to colliery proprietors after the preparation of the estimate.

Cess on Houses.

	Rs	A.	P.
Estimate	6,628	0	0
Actual receipts	5,649	8	6
Difference ...	979	7	6

Considerable remissions on account of deaths and deserters were made. These were probably partially owing to the high prices that existed during part of the year.

Fees and Fines and other Cesses.—These call for no especial remark.

Road Tolls and Ferries.—The lessee of the Gyaspur ferry has failed to pay Rs. 42 due from him. Since the close of the year Rs. 4 has been realized, but Rs. 38 still remains to be realized. Process has been issued.

We notice that some of the ferries were held khas at the beginning of the year, and the tolls collected by the police. The results were not satisfactory; and we see that at a later period all the ferries were leased out. We notice that the ferries were let for much less this year than last.

Sale of Produce and Stores.—A sum of only Rs. 50 was estimated under this head, and Rs. 174-14-3 were realized.

We beg to suggest that there is no reason why the income derived from this source should not be considerably increased. The money realized is obtained for the most part through the police on account of the sale of a blown-down tree, or the rent of a fruit tree here and there, and items of this nature.

The Committee, however, have on the sides of many of their roads a property in the form of trees rapidly increasing in value, and they could doubtless, by keeping under the control of the Engineer's establishment the renting of fruit trees and letting out of the fisheries in the water-courses along some of the roads in the rains, make some substantial addition to their present income.

Miscellaneous.—The large sum under this head of receipt is owing to an adjustment of a disputed item having been made by order of the Accountant-General.

Deposits received and advances recovered.—We have carefully examined the account of each depositor and of every one who has received an advance, and found them correct. Nothing under the head of deposit appears to call for remarks.

Advances recovered.—We regret to see that the sum of Rs. 813-4-8, due for several years from the Manager of the Equitable Coal Company on account of money advanced for, but not spent on, the repairs of the Doobrajpore road, has not yet been recovered. Rs. 38-8 is shown as an outstanding advance with the Sub-Divisional Officer of Raneegunge. It appears, however, that the late Manager of the Bengal Coal Company has been allowed to go away with Rs. 58-6 of the Committee's money on his promising to send it from England. The deficiency is reduced to Rs. 35-8 by two other gentlemen having spent more on village roads than was made over to them. It does not seem satisfactory that the Committee's money should have been taken in this way.

There has been an unadjusted advance of Rs. 5-4 with the District Engineer for 18 months; there appears to be no reason why it should not be adjusted at once.

Expenditure.—Each item has been examined, and, with the following exceptions, the authority for each payment has been produced:—A box containing certain office records was robbed during the latter part of 1876 and a number of vouchers stolen. These are of course not forthcoming: a satisfactory account of them is filed in the office. Voucher No. 98 for Rs. 100, advanced for the purchase of office furniture, does not exist; a voucher, however, for Rs. 97-9, which was actually spent, has been produced, and the balance, Rs. 2-7, has been shown as a recovery. All other payment orders have been examined and found correct. The nature of the account which the Committee keep with the treasury prevents receipts for all payments being kept in this office, but in most cases receipts for the cheques paid or the money are held.

The exceptions are in the case of cheques sent to Sub-Divisional Officers and some of the receipts which were lost in the box abovementioned. In cases where the receipts are not forthcoming there is no reason to suppose that the payments were not made.

We would suggest that some rule should be laid down as to the responsibility of seeing that the bungalow chowkidars are paid regularly. The certificate of the accountant would probably be sufficient.

We have also carefully compared the expenditure with the budget-estimate. The saving effected in the establishment is owing to their pay for September 1876 having been distributed within that month on account of the Doorga Pooja vacation; consequently the pay for 11 months only has been given. There is an excess expenditure under the heads of contingencies and tools and plant.

We have found it impossible to compare with any satisfactory results the expenditure on, and the estimates sanctioned for, public works. Many works appear to have been undertaken in anticipation of sanction, and many works sanctioned appear to have been either not carried out, or not paid for, within the year.

We would suggest that a register should be kept of all sanctions and of all payments made on account of the works sanctioned, and the balance struck out at the end of the year. The District Engineer might then report how much of the unexpended portion is likely to be required to complete the work.

We would also suggest that a statement of advances outstanding should be prepared quarterly in the proper register, as is done monthly in the case of deposits.

We would enquire how the Chairman is informed that security deposits required from contractors and lessees are actually made at the proper time.

In one or two instances the books do not appear to have been regularly signed by the Vice-Chairman. The condition of the books and the accuracy of the accounts reflect credit on the Accountant, Baboo Umbica Charun Mitter.

P.S.—With reference to the Committee's remark as to the fluctuation of cess on account of lands, we beg to append a note prepared by the Deputy Collector in charge of the road cess work, explaining the causes of such variations.

BOGOLANUND MOOKERJEE,
RAM LALL MOOKERJEE,
R. T. SEWSTER,
Members.

H. TOBIN,
Vice-Chairman

No. 25, dated Bankoora, the 17th December 1877.

From—H. SAVAGE, Esq., Offg. Magistrate and Chairman, District Road Cess Committee, Bankoora,

To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the following annual report on the operations of the Bankoora Road Fund for the cess year from 1st October 1876 to 30th September 1877.

2. The following gentlemen were the members of the Committee during the year under review, and the subjoined table shows the number of meetings attended by each :—

Non-official Members.

Baboo Radhabullav Singh, Rai Bahadoor.
" Mohesh Chundra Banerjee.
" Bani Madhub Banerjee.
" Ram Lall Misser.
" Nadiar Chand Rai.
" Nobin Chandra Chatterjee.
" Dwarka Nath Mookerjee.
Mr. J. O. B. Sceales.
" H. C. Wright.
" J. L. Reuss.
" H. P. Thomas.

Ex-officio Members.

Mr. W. R. Larminie, *Chairman.*
" W. H. Cornish.
" D. Lacey.
Captain G. F. E. S. Neill, M.S.C.
Baboo Kanti Chundra Chatterjee.
" Juggobundho Khan, *Vice-Chairman.*

3. There were seven meetings held, at which an average of five members attended. The attendance of the non-official members was very unsatisfactory. Some of them, *viz.*, Baboos Mohesh Chundra Banerjee and Bani Madhub Banerjee and Mr. J. L. Reuss, did not attend any meeting at all. I may remark that no notice appears to have been taken of the provisions of Section 49 of the Road Cess Act, from which it appears members are only appointed for two years. New members have from time to time been appointed; but the old members were not re-appointed, although they were still allowed to act. Strictly speaking, the only persons who are really non-official members now are Messrs. Wright and Thomas and Baboos Nobin Chundra Chatterjee and Dwarka Nath Mookerjee. Application for the re-appointment of such of the members as have taken an interest in the work has now been made.

4. I submit herewith a statement of particulars about the meetings of the Committee in the form prescribed in paragraph 10 of Government Resolution No. 1286 dated 13th March 1876.

5. Baboo Juggobundho Khan held the office of Vice-Chairman from the commencement of the year to July 1877. Baboo Mohendra Nath Bhuttacharjea has been lately elected Vice-Chairman, and the annual accounts have been prepared by him.

6. The work under the Committee was carried on by Baboo Nobogopal Banerjee throughout the year, and his thorough acquaintance with the resources of the district and long experience in the Department of Public Works have been of great assistance to the Committee.

7. Most of the works which are carried on in this district are of a petty nature, and in very few instances is it necessary to submit estimates for the professional scrutiny and approval of the Executive Engineer of the Division; so the qualifications of an officer of the overseer's grade have been found sufficient to answer all purposes of the Committee for the present.

8. As the work of the office was light, the Collection and Road Fund Offices were amalgamated in July last year. The establishment, consisting of two clerks and two peons, has been found to work well. Temporary peons are occasionally employed for the service of processes under the Road Cess Act, and the process fees realized more than pay for the peons entertained

9. The following were the principal subject which engaged the attention of the Committee during the year.

10. At a meeting, at which nine members were present, held on the 22nd August 1876, the Committee resolved unanimously to levy the maximum rates of cesses during the year, to enable them to repair the existing roads and bridges and to complete some of those roads which were left incomplete last year for want of funds.

11. The estimate of income and expenditure for the year was also prepared at the above meeting. The receipts were estimated at Rs. 38,768 and the expenditure at Rs. 36,318.

12. The actual receipts during the year were Rs. 25,866-10-5; the difference is due to a portion of the demand on account of cess on lands and houses for the year not having been realized till after the close of the year. It is satisfactory, however, to add that the outstanding balance at present is only Rs. 1,000.

13. It is principally the ghatwals and non-resident landholders who are behindhand in their payments. For the most part the road cess on lands is levied without difficulty, but great difficulty is experienced in realizing the house cess, the assessment having in the first instance been unsatisfactorily made.

14. The total amount sanctioned for the repairs of the existing roads during the year under report was Rs. 8,450, of which Rs. 3,417-10-9 were paid during the year, and Rs. 4,032-5-3 are still due to contractors. There has been a saving of Rs. 1,000 under this head. The fact is, some of the contractors made their tenders at so low a rate that they have almost

deceived themselves in carrying out the work. It is to be expected that next year the rates will be higher. In addition to the amount allotted under this head, Rs. 800 were subsequently sanctioned by the Committee for repairing the damages caused by heavy floods and other casualties during the year. The charge will be met from the savings to be effected.

15. Similarly Rs. 1,830 will also be saved under the head of original works; the amount sanctioned for such works was Rs. 13,244, that amount paid during the year Rs. 2,165-5-10, and that still due Rs. 9,248-10-2. The quality of work done, however, appears to be in no way inferior to that done at full rates.

16. The Committee at their meetings held on the 20th December 1876, 20th February, 21st May, and 26th June 1877, sanctioned the estimates for the repairs of the roads and for the original works executed during the year.

17. *Repairs.*—All the existing roads in the district were repaired as usual during the year. There is nothing which calls for special remarks.

18. *Original works.*—No new lines of road were opened in the district during the year, with the exception of two village roads, of which details will appear in its proper place.

19. The amount spent under this head (Original works) was generally for the construction of culverts on some of the roads which could not be completed during the previous year for want of funds.

20. The following were the works which were executed during the year:—

The road from Bankoora to Taldangra.—The first seven miles of the road were bridged the year before; 24 culverts on the last 15½ miles of the road are in course of construction, and will shortly be completed.

The road from Chatna to Sursuia.—Ten culverts were constructed during the year under report.

The road from Beliatore to the Damoodah.—Bricks have been manufactured for the construction of culverts on this road.

The road from Dalpur to Mokeena.—All the culverts on this road have been constructed, with the exception of one of a treble 14-feet span. This was not taken up during the year, as the plans and sections and the estimate for the work, which were submitted to the higher authorities for sanction, have only been lately received. The necessary provision for the work has been made in the current year's estimate.

The road from Bishenpur to Sonamukhi.—The last 7½ miles (a portion of which was constructed during the famine) was taken up during the year. It will shortly be completed.

21. *Village roads.*—Two village roads were started during the year.

The first is a road running through the village of Mejia, 1½ miles in length. The total outlay for the work was Rs. 252. The work has been completed. The land required for the road was given free of charge.

The second is a road from the 43rd mile of the provincial road from Raneegunge to Midnapore to the village called Teliberia *vid* Damoodarbati. The road is 2½ miles in length. The work will shortly be completed. Rs. 265 have been sanctioned for the work. The land for the road has also been made over to the Committee free of cost.

As the sum of Rs. 500 only was allotted for village roads, the other two village roads proposed to be constructed through the villages of Bikna and Sanbanda were not taken up for want of funds. They will be taken in hand during the current year.

22. Patakola and Lokepur ghâts of the river Dalkesore are the only ferries under the control of the Committee. They were worked fairly during the year under report.

Under the recent orders of Government, the proceeds derived from all the ferries will in future go to the credit of the provincial reserve fund.

23. The toll-gates on the several roads of the district were managed by their farmers in a satisfactory manner. Rs. 2,795 only were realized from the tolls, and it is hoped that the Committee may soon be able to dispense with this source of income altogether.

24. The accounts were examined by the Audit Committee specially appointed for the purpose, and were carefully examined by the members with the assistance of the Vice-Chairman. The accounts were also scrutinized by the Deputy Examiner of Accounts.

25. *Works proposed to be taken up during the current year.*—The Committee have allotted Rs. 10,000 for repairing all the existing roads of the district during the current year.

A sum of Rs. 13,000 has also been apportioned under the head "Original works." Of this sum, Rs. 1,000 have been provided for the construction of village roads.

26. It is proposed to construct three village roads during the year—one through the village of Sanbanda, another through that of Bikna, and the third through the village of Ramnagar. The question of repairing the road from Bankoora to Kenjuakura will also be laid before the Committee; if approved, a partial revision of the budget will be necessary.

27. *Bishenpur to Sonamukhi Road.*—It is proposed to construct culverts on the entire length of the newly constructed portion of the Joyrampur road, with a view to open it for traffic. This is one of the important lines of communications in the district. Rs. 3,000 have been allotted for the purpose.

28. *Mahara to Durlabpur Road.*—Rs. 900 have been estimated for the construction of culverts on this road. It was constructed during the famine, but was left unfinished for want of funds.

29. *Beliatore to the Damoodah Road.*—Provisions have been made for bridging and metalling the remaining portion of this road, which is a very important one. Rs. 6,200 have been allotted for the execution of this work.

30. Arrangements for the construction of a treble 14-feet span culvert have been made on the Dalpur to Mohesna road. All the smaller culverts on this road were completed during the famine year.

31. I may as well mention that the resources of the district are very limited, and the roads have become so numerous, in consequence of several new roads having had to be constructed during the late famine, that almost the whole income of the district will be required for their maintenance.

32. Although at present the roads are maintained in fair order, more substantial repairs ought, I think, to have been done to them, which, however, the Committee have not been able to do for the last two years, owing to want of funds.

33. The heavy demands made upon the Committee's income during the late famine by the construction of several new roads have left them but little option to do any other work than to complete those which were thus left unfinished.

34. In conclusion, I beg to mention here favorably of the services of Baboo Nobogopal Banerjee, the District Overseer, who worked satisfactorily throughout the year. The Committee have, in recognizance of his good services, increased his salary from Rs. 125 to Rs. 150, including allowance.

BANKOORA, *The 5th January 1878.*

R. M. WALLER, *Magistrate and Chairman.*

MAHENDRA NATH BHUTTACHARJEA, *Vice-Chairman.*

No. 29, dated Soorey, the 21st January 1878.

From—T. J. C. GRANT, Esq., Offg. Magistrate and Chairman, Beerbhoom (on leave),
To—The Commissioner of the Burdwan Division.

I HAVE the honor to forward herewith the annual report and accounts of the Road Cess Department of this district for the year 1876-77.

2. I cannot call this a successful year on the whole. It was originally designed to spend Rs. 69,000 on works of all kinds during the year, but in fact only Rs. 37,000 were actually expended, a balance of nearly Rs. 33,000 being carried over to the present year.

3. This means that the programme laid down was to a considerable extent not carried out.

4. Two chief causes led to this failure—the want of money and the want of a competant engineering establishment.

5. When I took charge at the end of March 1877, I found that the cess for the year was practically wholly uncollected. I did all I could to realize it; but the body of the cess could not be collected before the kist day in June. There remained then but three wet months of the years.

6. I found that the place that ought to have been filled by the District Engineer was most inadequately occupied by a native, formerly an overseer in the Public Works Department, who was altogether incapable of discharging the duties, being devoid of any professional knowledge. In consequence of this he completely failed to satisfy the supervising Engineers, and works estimated to cost about Rs. 23,000 fell through because this man was unable to design them, or draw the plan, or work out the estimates.

7. Upon these matters I have already written so fully and strongly to your office that I need add nothing here.

8. I will only say that I took immediate steps to remedy them. The cess is now collected in this district with great punctuality and without any trouble whatever. It is a light cess, burthensome to no one when it has not been allowed to accumulate, and it has a palpable and highly appreciated result.

9. The Committee engaged, from the 1st June 1876, an able professional Civil Engineer, Mr. James Grant, and gave him a couple of overseers to assist him. The mere economy of this course was very quickly made manifest. The work for which we paid Rs. 37,000 was to have cost Rs. 40,000, but Mr. Grant's re-measurements of contractor's work effected a saving of Rs. 3,000. This sum (saved in four months) very nearly represents the entire difference between Mr. Grant's pay and that of his predecessor for the whole year.

10. In fact an important part of the year's work has been a re-organizing of the whole administration, the compelling the regular and punctual payment of the cess, and the providing a thoroughly competent Engineer to see that the money was properly spent; these points have been most satisfactorily gained. Excellent work is now being done under the cess, but from a date too late to include in this report.

11. The original works done during the year were as follow:—

1st.—Completion of the earthwork of the road from Mohamed Bazar to Mullarpore, a distance of about 12 miles.

2nd.—Bridges, culverts, and irrigation drains on the Laghata to Kalgram road.

3rd.—Bridges and culverts on the road from Cynthia to Andee (Berhampore road).

4th.—Bridges and culverts on the Bulpore to Kusba road.

5th.—Construction of a bridge on the road to Raneegunge *vid* Doobrajpore.

12. The road No. 2, *viz.*, Laghata to Kalgram, is the direct route to Cutwa and one of the most important in this district. The traffic along it is very great, and the bridging of the road has proved an immense boon to the inhabitants and traders. The road is now, as far as this district is concerned, bridged in its entire length, with the exception of the Koose Kandar (on which a ferry plies during the rains), at a cost of a little over Rs. 11,000.

13. The accounts will show that some Rs. 1,500 have been expended on village roads. The amount is not adequate; but I am enabled to say that in the course of a two-months' tour I have seen better village communications than are to be commonly seen in Bengal. Personally I am of opinion that too much attention has been given to the district west of the railway, where communication, from the nature of the ground, is naturally easiest, and too little to that portion lying between the railway and the Bhagiruttee, where communication is naturally less easy, but where the soil is more fertile and commercial interests greater.

14. The arrangements for the current year have been designed accordingly.

15. During the year there were eight meetings of the Committee. I cannot say that at first I found the members greatly interested in their duties. It was not always easy to get a quorum, an expression of complete reliance upon the Chairman being generally considered as a valid excuse for non-attendance. I think I have persuaded them that the Chairman means to rely to a great extent upon them and their knowledge of local wants, and I am able to say that there has been a marked improvement during the year not only in their attendance, but also in the interest they show. I have been greatly assisted by many valuable suggestions from the Committee.

16. The following gentlemen were members of the Committee during the year:—

T. J. C. GRANT,
Chairman.

No. 36, dated Soorey, the 30th January 1878.

From—T. J. C. GRANT, Esq., Offg. Magistrate and Collector, Beerbhoom (on leave),
To—The Commissioner of the Burdwan Division.

WITH reference to your No. 46 dated 28th January 1878, I have the honor to enclose a statement of the works which the Committee propose to undertake during the year 1877-78.

2. With reference to these works, I can only repeat the observations already made in my No. 1844L.G. dated 21st November 1877. I beg to append paragraphs 10, 11, and 12 of that communication—

"10. In the matter of works, the Committee have kept before them the great desirability of improving and completing our existing roads and communications before undertaking to make new ones. Our heavy items of expenditure have been confined to the metalling of existing roads and to the building of bridges on them. Three important main roads will be specially attended to—

"*1st*, the road between Soorey and Cynthea. This is of course a very important road. The extent to which it is used by passengers may be understood from the fact that 14 hackney carriages now ply upon it. It is very simply constructed, being built of nothing but laterite gravel, which nothing will cause to "bind," spread upon the face of the country without any soling at all; consequently, though it is an admissible road at other seasons, it is a miserable affair in the rains. It is then remarkably soft and heavy, and it takes from three to four hours to perform a journey which in dry weather is accomplished in from 1½ to 2 hours. Arrangements have been made to replace this loose metal with a quantity of iron slag metal which lies near at hand. The road roughly soled and well metalled with this will be as good during the four rainy months as it is in dry seasons.

"*2nd*, the road from Ahmedpore railway station to Laghata, and *3rd*, the road from Bolepore railway station to Bungchutra.

"11. These roads run from the railway eastwards towards the Bhagiruttee. The first of them ends at Laghata immediately on the Koosee river, where it is navigable. Produce can (during the rains) be conveyed by the route into the Bhagiruttee. It is proposed to make this a metalled, class I., road.' During this year it was of very great use when the railway suddenly ceased to carry any produce out of the district. It formed the one outlet to the

Ganges—in fact, the one outlet out of the district at all since the opening of the railway. Laghata had fallen into insignificance, but the breakdown of the line immediately brought a large fleet to Laghata, which carried to Calcutta all the produce that could be carried along the kutcha road in the rains. The other road is also meant to be useful as an outlet in case of emergency and a failure of the railroad from any cause. It joins Bolepore with the Adjai, where it is navigable in the rains; and Bolepore is a commercial centre of great importance, sending not less than half of a lakh of maunds of rice to Calcutta monthly. The country between the railway and the Ganges is very ill provided with roads, and I have seen the mischief that resulted from a breakdown in the railway, and the very great importance of having outlets to the Bhagiruttee that can be used in all seasons. These two roads might easily be hereafter continued to Cutwa, should it be found necessary.

"12. The original works consist, except one, of bridges which speak for themselves. The bridge over the Byree Bheel (budgetted for last year) disappears, and is replaced by a new road to join the road from Bolepore to Sacoolipore, with the road from Bolepore to Bangchuttra.

"The new road will avoid the bheel and obviate all necessity for the bridge, and will be greatly cheaper, and increase the road by less than a mile."

3. It will be seen that a larger sum than usual is devoted to village roads.
